## **Appendix A to Annex 2-D Tariff Elimination of Mexico (Tariff Rate Quota)**

### **SECTION A – GENERAL PROVISIONS**

1. This Appendix sets out the country-specific tariff rate quotas (TRQs) that Mexico shall apply to certain originating goods under this Agreement. In particular, originating goods of Parties to this Agreement included under this Appendix shall be subject to the rates of duty set out in this Appendix in lieu of the rates of duty specified in Chapters 1 through 97 of the Mexico's tariff schedule of the General Import and Export Duties Law ("Tarifa de la Ley de los Impuestos Generales de Importación y de Exportación - LIGIE"). Notwithstanding any other provision of LIGIE, originating goods of Parties to this Agreement in the quantities described in this Appendix shall be permitted entry into the territory of Mexico as provided in this Appendix.

2. Mexico shall administer its TRQs provided for in this Agreement and set out in Section B of this Appendix in accordance with: the terms set out in this Appendix and Section D (Tariff Rate Quota Administration) of Chapter 2 (National Treatment and Market Access for Goods).

3. Should Mexico allocate quotas through auctioning, they shall be notified a month in advance, with no restrictions on participation or bid volumes, and all winning bidders will pay the price of the lowest winning bid. Within two weeks of the auction, the names of winning bidders, and prices and quantities of winning bids will be published online.

4. For quotas administered on a first come, first served basis, Mexico may require importers to obtain an import license from the Secretaría de Economía for each shipment. Such licenses will be issued forthwith without any conditions, on presentation of a proof of purchase of goods covered by quotas listed below, provided quota volumes remain available. Mexico may consider the discontinuation of the import license as improvements in customs operations permit.
