**APPENDIX A – TARIFF RATE QUOTAS  
UNITED STATES**

1. This Appendix sets out modifications to the Harmonized Tariff Schedule of the United States (HTSUS) that reflect the tariff rate quotas (TRQs) that the United States shall apply to certain originating goods under this Agreement. In particular, originating goods of Parties to this Agreement included under this Appendix shall be subject to the rates of duty set out in this Appendix in lieu of the rates of duty specified in Chapters 1 through 97 of the HTSUS. Notwithstanding any other provision of the HTSUS, originating goods of Parties to this Agreement in the quantities described in this Appendix shall be permitted entry into the territory of the United States as provided in this Appendix. Furthermore, except as provided below, any quantity of originating goods imported from a Party to this Agreement under a TRQ provided for in this Appendix shall not be counted toward the in-quota amount of any TRQ provided for such goods elsewhere in the HTSUS.
2. Except as provided below, the United States shall administer all TRQs provided for in this Agreement on a first-come, first-served basis.
3. The product or products covered by each TRQ set out below are informally identified in the title to the paragraph setting out the TRQ. These titles are included solely to assist readers in understanding this Appendix and shall not alter or supersede the coverage for each TRQ established by reference to the relevant Table I provisions.
4. Each TRQ set out in this Appendix shall apply to an aggregate quantity of originating goods of the Party identified in the first subparagraph of the paragraph setting out the TRQ. For purposes of this Appendix, an originating good shall, except as otherwise specified in the paragraph setting out a TRQ, be deemed to be of the Party identified in the first subparagraph of the paragraph setting out the TRQ if the United States would apply for that good the rate of customs duty applicable for that Party pursuant to:
  - a. paragraph 8 of the General Notes on Tariff Commitments in Annex 2-D, if the relevant tariff item is not listed in Appendix C to the General Notes to the Schedule of the United States to Annex 2-D; or
  - b. paragraph 1 or paragraph 2(a), as applicable, of Appendix C to the General Notes to the Schedule of the United States to Annex 2-D, if the relevant tariff item is listed in that Appendix.

## **APPENDIX D – MOTOR VEHICLE TRADE UNITED STATES**

### **Article 1**

1. For the purposes of this Appendix,

**Appendix Party** means either Japan or the United States, as the case may be;

**motor vehicle(s)** means any good(s) classified under headings 87.03 or 87.04;

**originating motor vehicle(s)** means any motor vehicle(s) qualifying as originating under Chapter 3 (Rules of Origin and Origin Procedures); and

**TBT Agreement** means the WTO Agreement on Technical Barriers to Trade.

The definitions of the terms used in this Appendix contained in Annex 1 of the TBT Agreement, including the chapeau and explanatory notes of Annex 1, are incorporated into this Appendix and shall form part of this Appendix *mutatis mutandis*.

2. Articles 2, 3 and 4 apply to the preparation, adoption and application of all technical regulations, standards and conformity assessment procedures of central government bodies that may affect trade in motor vehicles between the Appendix Parties, except as provided in paragraphs 4 and 5.

3. All references in this Appendix to technical regulations, standards and conformity assessment procedures shall be construed to include any amendments thereto and any addition to the rules or the product coverage thereof, except amendments and additions of an insignificant nature.

4. This Appendix does not apply to technical specifications prepared by governmental entities for production or consumption requirements of such entities but such specifications are covered by Chapter 15 (Government Procurement).

5. This Appendix does not apply to sanitary and phytosanitary measures but such measures are covered by Chapter 7 (Sanitary and Phytosanitary Measures).

6. No Party other than an Appendix Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for any matter arising under this Appendix or to dispute settlement under Article 7 for any matter arising under this Agreement. No Appendix Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for nullification or impairment in the sense of Article 28.3.1(c) for any matter arising under Articles 6, 7 or 8 of this Appendix.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

## **Article 2**

1. Except in those urgent circumstances referred to in Articles 2.10 and 5.7 of the TBT Agreement, for any technical regulation or conformity assessment procedure that would require a substantial change in motor vehicle design or technology, each Appendix Party shall provide an interval between the date of publication of the technical regulation or conformity assessment procedure and the date on which compliance with the measure becomes mandatory that is usually not less than 12 months.

2. Each Appendix Party shall ensure that its advisory committees and similar groups established by, or operated under the direction of, an agency of the central level of government to provide to it advice or recommendations<sup>1</sup> by consensus that could result in regulations or other measures that would materially affect the certification, importation, sale, distribution or functioning of motor vehicles, are established and operated in a transparent manner. To that end, each Appendix Party shall ensure that, in accordance with its domestic laws and regulations:

- (a) timely notice of the formation of advisory committees and similar groups is published;
- (b) timely notice of meetings of such advisory committees and similar groups is published;
- (c) meetings of such advisory committees and similar groups are open to the public;
- (d) interested persons have opportunities to appear before or file statements with such advisory committees and similar groups; and
- (e) detailed meeting minutes and other documents made available to or prepared by such advisory committees and similar groups are made available to the public.<sup>2,3</sup>

3. (a) Each Appendix Party shall, no later than the date on which it first supplies information in writing to a non-governmental expert<sup>4</sup> or interested person for

---

<sup>1</sup> For the purposes of this paragraph, advisory committees and similar groups do not include any committee that is composed wholly of full-time, or permanent part-time, officers or employees of the central level of government or wholly of full-time, or permanent part-time, officers or employees of the central level of government and elected officials of the sub-central level of government, acting in their official capacities, nor any group that meets with an official where advice is sought from the attendees on an individual basis and not from the group as a whole.

<sup>2</sup> The United States complies with its obligations in this paragraph by establishing and operating advisory committees and similar groups under the Federal Advisory Committee Act of 1972, P.L. 92-463, *codified at* 5 U.S.C. App., and its amendments and implementing regulations.

<sup>3</sup> With regard to advisory committees and similar groups that are not established by, but are operated under the direction of, an agency of the central level of government, Japan satisfies the obligations of subparagraphs (b) to (e) by requiring such advisory committees and similar groups to undertake contractual obligations to act in accordance with those subparagraphs.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

comment,<sup>5</sup> regarding a technical regulation, standard or conformity assessment procedure affecting motor vehicles that it is developing, make the same information publicly available, such as by publishing the information on an official website.

- (b) Following the provision of information under subparagraph (a), the Appendix Party providing such information shall, on request of the other Appendix Party, provide additional available information with respect to the technical regulation, standard or conformity assessment procedure concerned, such as information regarding other regulatory approaches under consideration and analysis of the impact of that regulatory measure and other approaches.<sup>6</sup>
4. (a) Each Appendix Party shall endeavour to periodically<sup>7</sup> conduct post-implementation reviews of its significant regulations setting forth technical regulations, standards or conformity assessment procedures that affect motor vehicles.
- (b) For the purposes of this paragraph,

**post-implementation review** means an examination of the effectiveness of a technical regulation, standard or conformity assessment procedure after it has been implemented, including, as appropriate, an assessment of whether it achieves its stated objectives, the burden it imposes, and its compatibility with other technical regulations, standards, or conformity assessment procedures the Appendix Party has adopted.<sup>8</sup>

### Article 3

---

<sup>4</sup> For the purposes of this paragraph, “non-governmental expert” does not include any employee of an independent administrative institution in Japan who has expertise on the technical regulation, standard or conformity assessment procedure affecting motor vehicles that Japan is developing and has legal obligations concerning confidentiality equivalent to those of a government expert.

<sup>5</sup> The United States first supplies information to a non-governmental expert or interested person for comment when it publishes a notice in the *Federal Register* requesting comment on a proposed regulation or amendment.

<sup>6</sup> For greater certainty, this paragraph applies with respect to technical regulations, standards and conformity assessment procedures that an Appendix Party is developing through its relevant domestic processes or bodies, including by transposing or incorporating the work of an intergovernmental standardizing body, but does not apply with respect to those which an Appendix Party is developing with the other Appendix Party or non-Appendix Parties in an intergovernmental standardizing body.

<sup>7</sup> **Periodically** means normally at least once no later than ten years after the date a measure is adopted, and as appropriate thereafter.

<sup>8</sup> For greater certainty, this paragraph shall not require an Appendix Party, when conducting a post-implementation review, to assess the compatibility of a technical regulation, standard or conformity assessment procedure with technical regulations, standards or conformity assessment procedures adopted by a local government body.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

1. The Appendix Parties shall cooperate bilaterally, including in their activities under *the Agreement concerning the Establishing of Global Technical Regulations for Wheeled Vehicles, Equipment and Parts Which Can Be Fitted and/or Be Used on Wheeled Vehicles* (hereinafter referred to as the “1998 Agreement”), to harmonize standards for motor vehicle environmental performance and safety.

2. Each Appendix Party shall ensure that technical regulations related to motor vehicles are not prepared, adopted or applied with a view to or with the effect of creating unnecessary obstacles to international trade, to the extent provided in Article 2.2 of the TBT Agreement. For this purpose, technical regulations related to motor vehicles shall not be more trade-restrictive than necessary to fulfill a legitimate objective taking account of the risks non-fulfillment would create. Such legitimate objectives are, *inter alia*: national security requirements; the prevention of deceptive practices; and protection of human health or safety, animal or plant life or health, or the environment. In assessing such risks, relevant elements of consideration are, *inter alia*: available scientific and technical information, related processing technology, or intended end-uses of products.

3. Neither Appendix Party shall prevent or unduly delay the placing on its market of a motor vehicle product on the ground that the product incorporates a new technology or a new feature which has not yet been regulated, unless the Appendix Party finds, based on scientific or technical information, that this new technology or new feature poses a risk for human health or safety, or the environment.<sup>9,10</sup>

4. When an Appendix Party decides to refuse the placing on its market or require the withdrawal from its market of a motor vehicle product on the ground that the product incorporates a new technology or a new feature posing a risk for human health or safety, or the environment, the Appendix Party shall immediately notify the importer of the product of its decision. The notification shall include all relevant scientific or technical information.

5. Each Appendix Party shall adopt or maintain efficient procedures for the temporary importation of motor vehicles incorporating new technologies or new features for purposes of demonstration, display or road testing within its territory. Each Appendix Party shall facilitate the entry of such vehicles into its territory in accordance with these procedures regardless of whether they comply with otherwise applicable standards or technical regulations.<sup>11</sup>

---

<sup>9</sup> For greater certainty, scientific or technical information may include evaluations based on the investigation of consumer complaints or accidents, testing or data from manufacturers on performance of the technology in the field.

<sup>10</sup> For greater certainty, nothing in this paragraph prevents an Appendix Party from requiring that a motor vehicle comply with its human health or safety, or environmental requirements that, without regard to whether the product incorporates a new technology or a new feature, generally apply to such a product.

<sup>11</sup> This paragraph shall not prevent an Appendix Party from requiring a motor vehicle imported under such procedures to meet minimum levels of safety and environmental performance commensurate with the use of motor vehicles imported for the above-mentioned purposes.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

6. (a) With respect to requirements of a safety regulation under the Road Transport Vehicle Act (Act NO. 185, 1951) of Japan that the competent authority of Japan identified as of April 1, 2015,<sup>12</sup> where the competent authority of Japan finds that a requirement of the U.S. FMVSS is no less stringent than the requirement under the Road Transport Vehicle Act to which it corresponds, originating motor vehicles from the United States classified under heading 87.03 that comply with such a requirement of the U.S. FMVSS shall be deemed to comply with that requirement under the Road Transport Vehicle Act. Such treatment shall apply unless that requirement under the Road Transport Vehicle Act is modified and, as modified, is substantially more stringent than previously.<sup>13</sup> In that event, Japan shall continue to provide such treatment for a period that is usually not less than 12 months after the date on which the requirement under the Road Transport Vehicle Act is modified.
- (b) Japan shall permit the importation and use of any motor vehicle part necessary to repair or service an originating motor vehicle from the United States classified under heading 87.03 that, at the time of the motor vehicle's initial inspection in Japan, was deemed, pursuant to subparagraph (a), to comply with a requirement under the Road Transport Vehicle Act, provided that the part meets the same specifications of the part originally installed in the motor vehicle at the time of its initial inspection.
- (c) For the purposes of this paragraph,

**U.S. FMVSS** means Federal Motor Vehicle Safety Standard of the United States; and

**initial inspection** means the inspection that motor vehicles must undergo in order to be used for transport in Japan in accordance with the Road Transport Vehicle Act.

#### **Article 4**

1. Japan shall not adopt any requirement under the Preferential Handling Procedure that is not applied on the date of the entry into force of the Agreement with respect to Japan and the United States and that increases the burden, including the complexity and cost, for importers

---

<sup>12</sup> The requirements of a safety regulation under the Road Transport Vehicle Act of Japan that the competent authority of Japan identified as of April 1, 2015, for the purposes of subparagraph (a) are those not based on a regulation adopted under the Agreement concerning the Adoption of Uniform Technical Prescriptions for Wheeled Vehicles, Equipment and Parts which can be fitted and/or be used on Wheeled Vehicles and the Conditions for Reciprocal Recognition of Approvals Granted on the Basis of these Prescriptions (hereinafter referred to as "UN Regulation"), a regulation established under the 1998 Agreement (hereinafter referred to as "GTR"), or a U.S. FMVSS.

<sup>13</sup> With respect to any subsequent modifications to those requirements under the Road Transport Vehicle Act of Japan that the competent authority of Japan identified as of April 1, 2015, Japan will consider whether the requirement, as modified, is based on a UN Regulation or GTR and substantially more stringent than the previous requirement as a result.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

under the Preferential Handling Procedure, except for requirements related to new technical regulations or amendments to existing technical regulations that are prepared, adopted, and applied in a manner consistent with Article 3.2 after the above date or for an increase of fees and charges commensurate with the cost of services rendered under the Preferential Handling Procedure.

2. Japan shall ensure that the Preferential Handling Procedure and its relevant regulations are adopted and applied in a manner that does not preclude the eligibility of motor vehicles imported under the Preferential Handling Procedure for any financial incentive measures of central government bodies<sup>14</sup> with respect to motor vehicles.<sup>15</sup>

3. For the purposes of this Article,

**Preferential Handling Procedure** means a simplified conformity assessment procedure conducted exclusively for imported motor vehicles up to a designated number for each type, in accordance with the notification of the Minister of Land, Infrastructure, Transport and Tourism.

## **Article 5**

To the extent that an Appendix Party maintains and applies any laws or regulations at the central level of government with respect to zoning applicable to the establishment of distribution or repair facilities for motor vehicles, it shall ensure such laws or regulations are applied in a transparent and non-discriminatory manner.<sup>16</sup>

## **Article 6**

An Appendix Party may apply, during the transition period only, a transitional safeguard measure on originating motor vehicles from the other Appendix Party classified under headings 87.03 or 87.04 in accordance with the provisions set out in Chapter 6 (Trade Remedies), with the following procedural modifications:

- (a) In lieu of the definition of transition period provided in Article 6.1 (Definitions), the following definition shall apply:

**transition period** means the period beginning on the date of entry into force of this Agreement with respect to Japan and the United States and ending on the date

---

<sup>14</sup> For greater certainty, a financial incentive measure of a central government body includes such a measure that is implemented by other entities, including local government bodies.

<sup>15</sup> For greater certainty, this paragraph does not apply with respect to motor vehicles for which documents for the Preferential Handling Procedure are received by the relevant authority prior to the date of entry into force of this Agreement with respect to Japan and the United States.

<sup>16</sup> The United States does not have laws or regulations with respect to zoning described in this paragraph.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

that is 10 years after the end of the tariff elimination period for the good set out in Annex 2-D (Tariff Elimination Schedule).

- (b) In lieu of paragraph 2 of Article 6.4 (Standards for a Transitional Safeguard Measure), the following shall apply:

Neither Appendix Party may apply a transitional safeguard measure for a period exceeding two years, except that the period may be extended by up to two years if the competent authorities of the importing Appendix Party determine, in conformity with the procedures provided for in Article 6.5 (Investigation Procedures and Transparency Requirements), that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of the transitional safeguard measure, including the period of initial application and any extension thereof, shall not exceed four years.

- (c) Paragraphs 4 and 6 of Article 6.4 (Standards for a Transitional Safeguard Measure) shall not apply.

- (d) In lieu of paragraphs 1 and 2 of Article 6.7 (Compensation), the following shall apply:

- (i) An Appendix Party applying a transitional safeguard measure shall consult with the other Appendix Party in order to mutually agree on appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the transitional safeguard measure. The Appendix Party shall provide an opportunity for such consultations no later than 30 days after the application of the transitional safeguard measure;
- (ii) If the consultations under subparagraph (d)(i) do not result in an agreement on trade liberalizing compensation within 30 days after the consultations begin, the Appendix Party whose goods are subject to the transitional safeguard measure may suspend the application of substantially equivalent concessions to the Appendix Party applying the transitional safeguard measure; and
- (iii) The right of suspension referred to in subparagraph (d)(ii) shall not be exercised for the first 24 months during which a transitional safeguard measure is in effect, provided that the transitional safeguard measure conforms to the provisions of this Agreement.

**Tariff schedules and appendices are subject to legal review, transposition and verification by the Parties. The only authentic tariff commitments are those that are set out in the Tariff Elimination Annex that accompanies the final, signed Agreement.**

- (i) (A) a measure at issue is inconsistent with an Appendix Party's obligations under this Agreement;
- (B) an Appendix Party has otherwise failed to carry out its obligations under this Agreement; or
- (C) an Appendix Party's measure is causing nullification or impairment in the sense of Article 28.3.1(c); and
- (ii) the non-conformity or the nullification or impairment that the panel has determined to exist has materially affected the sale, offering for sale, purchase, transportation, distribution or use of originating motor vehicles from the complaining Appendix Party,

the complaining Appendix Party may suspend the application to the responding Appendix Party of benefits or take action in accordance with paragraphs 11 through 17.

- (b) Unless the Appendix Parties agree otherwise, if in its final report the panel determines that the non-conformity or the nullification or impairment that the panel has determined to exist under subparagraph (a)(i) has not materially affected the sale, offering for sale, purchase, transportation, distribution or use of originating motor vehicles from the complaining Appendix Party, the procedures provided for in Articles 28.18.3 through 18.7, 28.19 (Non-Implementation-Compensation and Suspension of Benefits) and 28.20 (Compliance Review) shall apply, *mutatis mutandis*.

11. If a final report that contains a determination described in paragraph 10(a) is presented to the Appendix Parties under paragraph 8(d) on or after the date on which customs duties imposed by the complaining Appendix Party on originating motor vehicles from the responding Appendix Party classified under heading 87.03, Harmonized Tariff Schedule of the United States ("HTSUS") 8704.21.00, HTSUS 8704.22.50, HTSUS 8704.23.00, HTSUS 8704.31.00, HTSUS 8704.32.00 or HTSUS 8704.90.00 have begun to be reduced in accordance with Annex 2-D, taking into account any delay of implementation of the tariff elimination period as a result of previous action taken pursuant to paragraph 14(a)(i), the complaining Appendix Party may increase the rate of customs duty on those motor vehicles:

- (a) to a level not to exceed the prevailing most-favored-nation applied rate of customs duty on those motor vehicles, for a period of up to 90 days after the release of the final report under paragraph 8(d); and,
- (b) thereafter, to a level not to exceed the prevailing most-favored-nation applied rate of customs duty on those motor vehicles, less 50 percent of the difference between that rate and the rate of customs duty on those motor vehicles set out in Annex 2-D, as adjusted to take into account any delay of implementation of the

provided that the complaining Appendix Party shall not suspend the application to the responding Appendix Party of benefits under this paragraph following a determination by the panel under paragraph 13.

12. (a) At any time after release of a final report that contains a determination described in paragraph 10(a), the complaining Appendix Party may provide written notice to the responding Appendix Party that it intends to suspend the application to the responding Appendix Party of benefits, or to take action under paragraph 14(a)(i). The notice shall specify the level of benefits that the complaining Appendix Party proposes to suspend under paragraph 14(a)(ii) or (b), or the level of benefits for the purposes of taking action under paragraph 14(a)(i). The complaining Appendix Party may request that the panel be reconvened to determine the level of benefits up to which it may suspend under paragraph 14(a)(ii) or (b), or the level of benefits for the purposes of taking action under paragraph 14(a)(i), at any time after it provides a notice under this paragraph.
- (b) If the responding Appendix Party considers that the level of benefits proposed to be suspended or that has been suspended under paragraph 14(a)(ii) or (b), or the level of benefits for the purposes of taking action under paragraph 14(a)(i), is manifestly excessive, or that it has eliminated the non-conformity or the nullification or impairment that the panel has determined to exist, it may request that the panel be reconvened to consider the matter.
- (c) Regardless of whether the complaining Appendix Party has provided a notice under subparagraph (a), the responding Appendix Party may request that the panel be reconvened to determine the level of benefits under paragraph 13:
  - (i) if the complaining Appendix Party has increased the rate of customs duty under paragraph 11; or
  - (ii) for the purposes of the determination of the length of time by which the complaining Appendix Party may delay implementation of the tariff elimination period under paragraph 14(a)(i).
- (d) An Appendix Party shall deliver any request to reconvene the panel in writing to the other Appendix Party.

13. Unless the Appendix Parties agree otherwise, the panel shall reconvene as soon as possible after delivery of a request under paragraph 12 and shall present to the Appendix Parties its determination of the level of benefits that the complaining Appendix Party may suspend within 90 days after it reconvenes. The panel shall determine the level of benefits that the complaining Appendix Party may suspend under paragraph 14(a)(ii) or (b), or the level of benefits for the purposes of taking action under paragraph 14(a)(i), as the sum of:

- (b) the level of benefits referred to in subparagraph (a) multiplied by the ratio of the average of the total value of annual imports of originating motor vehicles from the responding Appendix Party classified under heading 87.03 into the complaining Appendix Party in the most recent four years to the average of the total value of annual imports of originating motor vehicles from the complaining Appendix Party classified under heading 87.03 into the responding Appendix Party in the most recent four years, to the extent that the sum of this amount and the level of benefits referred to in subparagraph (a) does not exceed the amount that is the sum of 3.75 percent of the average of the total value of annual imports of originating motor vehicles from Japan classified under heading 87.03 into the United States in the most recent four years and 37.5 percent of the average of the total value of annual imports of originating motor vehicles from Japan classified under HTSUS 8704.21.00, HTSUS 8704.22.50, HTSUS 8704.23.00, HTSUS 8704.31.00, HTSUS 8704.32.00 and HTSUS 8704.90.00 into the United States in the most recent four years.
