**Article 3.4: Treatment of Recovered Materials Used in Production of a Remanufactured Good**

1. Each Party shall provide that a recovered material derived in the territory of one or more of the Parties is treated as originating when it is used in the production of, and incorporated into, a remanufactured good.

2. For greater certainty:

- (a) a remanufactured good is originating only if it satisfies the applicable requirements of Article 3.2 (Originating Goods); and
- (b) a recovered material that is not used or incorporated in the production of a remanufactured good is originating only if it satisfies the applicable requirements of Article 3.2 (Originating Goods).

**Article 3.5: Regional Value Content**

1. Each Party shall provide that a regional value content requirement specified in this Chapter, including related Annexes, to determine whether a good is originating, is calculated as follows:

- a) Focused Value Method: Based on the Value of Specified Non-Originating Materials

$$RVC = \frac{\text{Value of the Good} - \text{FVNM}}{\text{Value of the Good}} \times 100$$

- b) Build-down Method: Based on Value of Non-Originating Materials

$$RVC = \frac{\text{Value of the Good} - \text{VNM}}{\text{Value of the Good}} \times 100$$

- c) Build-up Method: Based on Value of Originating Materials

$$RVC = \frac{\text{VOM}}{\text{Value of the Good}} \times 100$$

or

- d) Net Cost Method (for Automotive Goods Only)

$$RVC = \frac{\text{NC} - \text{VNM}}{\text{NC}} \times 100$$

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**  
**Subject to Authentication of English, Spanish and French Versions**

**RVC** is the regional value content of a good, expressed as a percentage;

**VNM** is the value of non-originating materials, including materials of undetermined origin, used in the production of the good;

**NC** is the net cost of the good determined in accordance with Article 3.9 (Net Cost);

**FVNM** is the value of non-originating materials, including materials of undetermined origin, specified in the applicable product-specific-rule (PSR) in Annex 3-D (Product-Specific Rules of Origin) and used in the production of the good. For greater certainty, non-originating materials that are not specified in the applicable PSR in Annex 3-D (Product-Specific Rules of Origin) are not taken into account for the purpose of determining FVNM; and

**VOM** is the value of originating materials used in the production of the good in the territory of one or more of the Parties.

2. Each Party shall provide that all costs considered for the calculation of regional value content are recorded and maintained in conformity with the Generally Accepted Accounting Principles applicable in the territory of a Party where the good is produced.

**Article 3.6: Materials Used in Production**

1. Each Party shall provide that if a non-originating material undergoes further production such that it satisfies the requirements of this Chapter, the material is treated as originating when determining the originating status of the subsequently produced good, regardless of whether that material was produced by the producer of the good.

2. Each Party shall provide that if a non-originating material is used in the production of a good, the following may be counted as originating content for the purpose of determining whether the good meets a regional value content requirement:

- (a) the value of processing of the non-originating materials undertaken in the territory of one or more of the Parties; and
- (b) the value of any originating material used in the production of the non-originating material undertaken in the territory of one or more of the Parties.

**Article 3.7: Value of Materials Used in Production**

Each Party shall provide that for the purposes of this Chapter, the value of a material is:

- (a) for a material imported by the producer of the good, the transaction value of the material at the time of importation, including the costs incurred in the international shipment of the good;

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**  
**Subject to Authentication of English, Spanish and French Versions**

- (b) for a material acquired in the territory where the good is produced:
  - (i) the price paid or payable by the producer in the Party where the producer is located;
  - (ii) the value as determined for an imported material in subparagraph (a); or
  - (iii) the earliest ascertainable price paid or payable in the territory of the Party; or
- (c) for a material that is self-produced:
  - (i) all the costs incurred in the production of the material, which includes general expenses; and
  - (ii) an amount equivalent to the profit added in the normal course of trade, or equal to the profit that is usually reflected in the sale of goods of the same class or kind as the self-produced material that is being valued.

**Article 3.8: Further Adjustments to the Value of Materials**

1. Each Party shall provide that for an originating material, the following expenses may be added to the value of the material, if not included under Article 3.7 (Value of Materials Used in Production):

- (a) the costs of freight, insurance, packing and all other costs incurred to transport the material to the location of the producer of the good;
- (b) duties, taxes and customs brokerage fees on the material, paid in the territory of one or more of the Parties, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, which include credit against duty or tax paid or payable; and
- (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of reusable scrap or by-product.

2. Each Party shall provide that, for a non-originating material or material of undetermined origin, the following expenses may be deducted from the value of the material:

- (a) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer of the good;
- (b) duties, taxes and customs brokerage fees on the material paid in the territory of one or more of the Parties, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, which include credit against duty or tax paid or payable; and

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of reusable scrap or by-product.
3. If the cost or expense listed in paragraph 1 or 2 is unknown or documentary evidence of the amount of the adjustment is not available, then no adjustment is allowed for that particular cost.

**Article 3.9: Net Cost**

1. If Annex 3-D (Product-Specific Rules of Origin) specifies a regional value content requirement to determine whether an automotive good of subheading 8407.31 through 8407.34, 8408.20, heading 84.09, heading 87.01 through 87.08 or heading 87.11 is originating, each Party shall provide that the requirement to determine origin of that good based on the Net Cost Method is calculated as set out under Article 3.5 (Regional Value Content).

2. For the purposes of this Article:

- (a) **net cost** means total cost minus sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost; and
- (b) **net cost of the good** means the net cost that can be reasonably allocated to the good, using one of the following methods:
  - (i) calculating the total cost incurred with respect to all automotive goods produced by that producer, subtracting any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs that are included in the total cost of all those goods, and then reasonably allocating the resulting net cost of those goods to the good;
  - (ii) calculating the total cost incurred with respect to all automotive goods produced by that producer, reasonably allocating the total cost to the good, and then subtracting any sales promotion, marketing and after-sales service costs; royalties, shipping and packing costs, and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or
  - (iii) reasonably allocating each cost that forms part of the total cost incurred with respect to the good, so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs, provided that the allocation of all those costs is consistent with the provisions regarding the reasonable allocation of costs set out in Generally Accepted Accounting Principles.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and  
Consistency**  
**Subject to Authentication of English, Spanish and French Versions**

3. Each Party shall provide that, for the purposes of the Net Cost Method for motor vehicles of heading 87.01 through 87.06 or heading 87.11, the calculation may be averaged over the producer's fiscal year using any one of the following categories, on the basis of all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of another Party:

- (a) the same model line of motor vehicles in the same class of motor vehicles produced in the same plant in the territory of a Party;
- (b) the same class of motor vehicles produced in the same plant in the territory of a Party;
- (c) the same model line of motor vehicles produced in the territory of a Party; or
- (d) any other category as the Parties may decide.

4. Each Party shall provide that, for the purposes of the Net Cost Method in paragraphs 1 and 2, for automotive materials of subheading 8407.31 through 8407.34, 8408.20, heading 84.09, 87.06, 87.07, or 87.08, produced in the same plant, a calculation may be averaged:

- (a) over the fiscal year of the motor vehicle producer to whom the good is sold;
- (b) over any quarter or month; or
- (c) over the fiscal year of the producer of the automotive material,

provided that the good was produced during the fiscal year, quarter or month forming the basis for the calculation, in which:

- (i) the average in subparagraph (a) is calculated separately for those goods sold to one or more motor vehicle producers; or
- (ii) the average in subparagraph (a) or (b) is calculated separately for those goods that are exported to the territory of another Party.

5. For the purposes of this Article:

- (a) **class of motor vehicles** means any one of the following categories of motor vehicles:
  - (i) motor vehicles classified under subheading 8701.20, motor vehicles for the transport of 16 or more persons classified under subheading 8702.10 or 8702.90, and motor vehicles classified under subheading 8704.10, 8704.22, 8704.23, 8704.32 or 8704.90, or heading 87.05 or 87.06;

- (ii) motor vehicles classified under subheading 8701.10 or subheadings 8701.30 through 8701.90;
  - (iii) motor vehicles for the transport of 15 or fewer persons classified under subheading 8702.10 or 8702.90, and motor vehicles classified under subheading 8704.21 or 8704.31;
  - (iv) motor vehicles classified under subheadings 8703.21 through 8703.90; or
  - (v) motor vehicles classified under heading 87.11.
- (b) **model line of motor vehicles** means a group of motor vehicles having the same platform or model name;
- (c) **non-allowable interest costs** means interest costs incurred by a producer that exceed 700 basis points above the yield on debt obligations of comparable maturities issued by the central level of government of the Party in which the producer is located;
- (d) **reasonably allocate** means to apportion in a manner appropriate under Generally Accepted Accounting Principles;
- (e) **royalty** means payments of any kind, including payments under technical assistance or similar agreements, made as consideration for the use or right to use any copyright; literary, artistic or scientific work; patent; trademark; design; model; plan; secret formula or process, excluding those payments under technical assistance or similar agreements that can be related to specific services such as:
  - (i) personnel training, without regard to where that training is performed; or

- (a) the documentation related to the importation, including the certification of origin that served as the basis for the claim; and

- (e) other procedures as may be decided by the importing Party and the Party where an exporter or producer of the good is located.

2. If an importing Party conducts a verification, it shall accept information directly from the importer, exporter or producer.

3. If a claim for preferential tariff treatment is based on a certification of origin completed by the exporter or producer and, in response to a request for information by an importing Party under paragraph 1(a), the importer does not provide information to the importing Party or the information provided is not sufficient to support a claim for preferential tariff treatment, the importing Party shall request information from the exporter or producer, under paragraph 1(b) or 1(c) before it may deny the claim for preferential tariff treatment. The importing Party shall complete the verification, including any additional request to the exporter or producer under paragraph 1(b) or 1(c), within the time provided in paragraph 6(e).<sup>6</sup>

<sup>6</sup> For greater certainty, a Party is not required to request information from the exporter or producer to support a claim for preferential tariff treatment or complete a verification through the exporter or producer if the claim for preferential tariff treatment is based on the importer's certification of origin.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**  
**Subject to Authentication of English, Spanish and French Versions**

5. If an importing Party has initiated a verification in accordance with paragraph 1(b) or 1(c), it shall inform the importer of the initiation of the verification.
6. For a verification under paragraphs 1(a) through 1(c), the importing Party shall:
  - (a) ensure that a written request for information, or for documentation to be reviewed during a verification visit, is limited to information and documentation to determine whether the good is originating;
  - (b) describe the information or documentation in sufficient detail to allow the importer, exporter or producer to identify the information and documentation necessary to respond;
  - (c) allow the importer, exporter or producer at least 30 days from the date of receipt of the written request for information under paragraph 1(a) or 1(b) to respond;
  - (d) allow the exporter or producer 30 days from the date of receipt of the written request for a visit under paragraph 1(c) to consent or refuse the request; and
  - (e) make a determination following a verification as expeditiously as possible and no later than 90 days after it receives the information necessary to make the determination, including, if applicable, any information received under paragraph 9, and no later than 365 days after the first request for information or other action under paragraph 1. If permitted by its law, a Party may extend the 365 day period in exceptional cases, such as where the technical information concerned is very complex.
7. If an importing Party makes a verification request under paragraph 1(b), it shall, on request of the Party where the exporter or producer is located and in accordance with the importing Party's laws and regulations, inform that Party. The Parties concerned shall decide the manner and timing of informing the Party where the exporter or producer is located of the verification request. In addition, on request of the importing Party, the Party where the exporter or producer is located may, as it deems appropriate and in accordance with its laws and regulations, assist with the verification. This assistance may include providing a contact point for the verification, collecting information from the exporter or producer on behalf of the importing Party, or other activities in order that the importing Party may make a determination as to whether the good is originating. The importing Party shall not deny a claim for preferential tariff treatment solely on the ground that the Party where the exporter or producer is located did not provide requested assistance.
8. If an importing Party initiates a verification under paragraph 1(c), it shall, at the time of the request for the visit, inform the Party where the exporter or producer is located and provide the opportunity for the officials of the Party where the exporter or producer is located to accompany them during the visit.

  - (b) provide the importer, exporter or producer that provided information during the verification or certified that the good was originating with the results of the verification and the reasons for that result.
11. During verification, the importing Party shall allow the release of the good, subject to payment of duties or provision of security as provided for in its law. If as a result of the verification the importing Party determines that the good is an originating good, it shall grant preferential tariff treatment to the good and refund any excess duties paid or release any security provided, unless the security also covers other obligations.
12. If verifications of identical goods by a Party indicate a pattern of conduct by an importer, exporter or producer of false or unsupported representations relevant to a claim that a good imported into its territory qualifies as an originating good, the Party may withhold preferential tariff treatment to identical goods imported, exported or produced by that person until that person demonstrates that the identical goods qualify as originating. For the purposes of this paragraph, “identical goods” means goods that are the same in all respects relevant to the particular rule of origin that qualifies the goods as originating.
13. For the purpose of a verification request, it is sufficient for a Party to rely on the contact information of an exporter, producer or importer in a Party provided in a certification of origin.

**Article 3.28: Determinations on Claims for Preferential Tariff Treatment**

  - (e) the importer, exporter or producer fails to comply with the requirements of this Chapter.
3. If an importing Party denies a claim for preferential tariff treatment, it shall issue a determination to the importer that includes the reasons for the determination.
4. A Party shall not reject a claim for preferential tariff treatment for the sole reason that the invoice was issued in a non-Party. If an invoice is issued in a non-Party, a Party shall require that the certification of origin be separate from the invoice.

**Article 3.29: Refunds and Claims for Preferential Tariff Treatment after Importation**

1. Each Party shall provide that an importer may apply for preferential tariff treatment and a refund of any excess duties paid for a good if the importer did not make a claim for preferential tariff treatment at the time of importation, provided that the good would have qualified for preferential tariff treatment when it was imported into the territory of the Party.
2. As a condition for preferential tariff treatment under paragraph 1, the importing Party may require that the importer:
- (a) make a claim for preferential tariff treatment;

**Section Note 1: Chemical Reaction Rule**

Notwithstanding the applicable product-specific rules of origin, a good of chapter 28 through 38 that is the product of a chemical reaction is an originating good if the chemical reaction occurred in the territory of one or more of the Parties.

For the purposes of this rule, a “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not chemical reactions:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

**Section Note 2: Purification Rule**

Notwithstanding the applicable product-specific rules of origin, a good of chapter 28 through 35 or chapter 38, that is subject to purification is an originating good if that purification occurs in the territory of one or more of the Parties and results in the elimination of not less than 80 per cent of the content of existing impurities.

**Section Note 3: Mixing and Blending Rule**

Notwithstanding the applicable product-specific rules of origin, a good of chapter 30 or 31, heading 33.02 or 37.07, is an originating good if, in the territory of one or more of the Parties, the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications results in the production of a good having physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials.

<b>Section Note 5: Standards Materials Rule</b>	
Notwithstanding the applicable product-specific rules of origin, a standards material of chapter 28 through 38, except for a good of heading 35.01 through 35.05 or subheading 3824.60, is an originating good if the production of such good occurs in the territory of one or more of the Parties.	
For the purposes of this rule, a “standards material” (including a standard solution) is a preparation suitable for analytical, calibrating or referencing uses with precise degrees of purity or proportions certified by the manufacturer.	
<b>Section Note 6: Isomer Separation Rule</b>	
Notwithstanding the applicable product-specific rules of origin, a good of chapter 28 through 38 is an originating good if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or more of the Parties.

**CHAPTER 4**

**TEXTILES AND APPAREL**

**Article 4.1: Definitions**

For purposes of this Chapter:

**textile or apparel good** means a good listed in Annex A (Textiles and Apparel Product - Specific Rules of Origin).

**customs offence** means any act committed for the purpose of, or having the effect of, avoiding a Party's laws or regulations pertaining to the terms of this Agreement governing importations or exportations of textile or apparel goods amongst the Parties, specifically those that violate a customs law or regulation for restrictions or prohibitions on imports or exports, duty evasion, falsification of documents relating to the importation or exportation of goods, fraud or smuggling.

**transition period** means the period beginning at entry into force of the Agreement between the Parties concerned until five years after the date on which the importing Party eliminates duties on that good for that exporting Party pursuant to this Agreement.

**Article 4.2: Rules of Origin and Related Matters**

*Application of Chapter 4*

1. Except as provided in this Chapter, including the Annexes thereto, Chapter 3 (Rules of Origin and Origin Procedures) applies to textile and apparel goods.

*De Minimis*

2. A textile or apparel good in Annex A (Textiles and Apparel Product - Specific Rules of Origin) classified outside of Chapters 61 through 63 that is not an originating good because the materials used in the production of the good that do not undergo an applicable change in tariff classification set out in Annex A (Textiles and Apparel Product - Specific Rules of Origin), shall nonetheless be considered to be an originating good if the total weight of all such materials is not more than ten percent of the total weight of the good.

3. A textile or apparel good of Chapters 61 through 63 that is not an originating good because the fibers or yarns used in the production of the component of the good that determine the tariff classification of the good that do not undergo an applicable change in tariff classification set out in Annex A (Textiles and Apparel Product - Specific Rules of Origin), shall nonetheless be considered to be an originating good if the total weight of all such fibers or yarns is not more than ten per cent of the total weight of that component.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

4. Notwithstanding paragraphs 2 and 3, a good of paragraph 2 containing elastomeric yarn or a good of paragraph 3 containing elastomeric yarn in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of one or more of the Parties.<sup>1 2</sup>

*Treatment of Sets*

5. Notwithstanding the textile and apparel specific rules of origin set out in Annex A (Textiles and Apparel Product - Specific Rules of Origin), textile and apparel goods classifiable as goods put up in sets for retail sale as provided for in Rule 3 of the General Rules for the Interpretation of the Harmonized System shall not be regarded as originating goods unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed 10 percent of the value of the set.

6. For the purposes of paragraph 5:

- a) the value of non-originating goods in the set is calculated in the same manner as the value of non-originating materials in Chapter 3 (Rules of Origin and Origin Procedures) and
- b) the value of the set is calculated in the same manner as the value of the good in Chapter 3 (Rules of Origin and Origin Procedures).

*Treatment of Short Supply List*

7. Each Party shall provide that, for purposes of determining whether a good is originating under Chapter 3, Article 2(c), a material listed in Appendix 1 (Short Supply List) to Annex A (Textiles and Apparel Product - Specific Rules of Origin) is originating provided the material meets any requirement, including any end use requirement, specified in the Appendix 1 (Short Supply List) to Annex A (Textiles and Apparel Product - Specific Rules of Origin).

8. Where a claim that a good is originating relies on incorporation of a material on Appendix 1 (Short Supply List) to Annex A (Textiles and Apparel Product - Specific Rules of Origin), the importing Party may require in the importation documentation, such as a certification of origin, the number or description of the material on Appendix 1 (Short Supply List) to Annex A (Textiles and Apparel Product - Specific Rules of Origin).

---

<sup>1</sup> For greater certainty, a Party shall not construe paragraph 4 to require a material on the short supply list to be produced from elastomeric yarns wholly formed in the territory of one or more of the Parties.

<sup>2</sup> For purposes of paragraph 4, wholly formed means all production processes and finishing operations, beginning with the extrusion of filaments, strips, film, or sheet, and including drawing to fully orient a filament or slitting a film or sheet into strip, or the spinning of all fibers into yarn, or both, and ending with a finished yarn or plied yarn.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

9. Non-originating materials marked as temporary in Appendix 1 (Short Supply List) to Annex A (Textiles and Apparel Product - Specific Rules of Origin) may be considered as originating under paragraph 7 for 5 years from entry into force of this Agreement.

*Treatment for Certain Handmade or Folkloric Goods*

10. An importing Party may identify particular textile or apparel goods of an exporting Party to be eligible for duty-free or preferential tariff treatment that the importing and exporting Parties mutually agree fall within:

- (a) hand-loomed fabrics of a cottage industry;
- (b) hand-printed fabrics with a pattern created with a wax-resistance technique;
- (c) hand-made cottage industry goods made of such hand-loomed or hand-printed fabrics; or
- (d) traditional folklore handicraft goods

provided that any requirements agreed by the importing and exporting Parties for such treatment are met.

**Article 4.3: Emergency Actions**

1. Subject to the provisions of this Article if, as a result of the reduction or elimination of a customs duty provided for in this Agreement, a textile or apparel good benefiting from preferential tariff treatment under this Agreement is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the importing Party may, to the extent and for such time as may be necessary to prevent or remedy such damage and to facilitate adjustment, take emergency action in accordance with paragraph 6, consisting of an increase in the rate of duty on the good of the exporting Party or Parties to a level not to exceed the lesser of:

- (a) the most-favoured-nation (MFN) applied rate of customs duty in effect at the time the action is taken; and
- (b) the MFN applied rate of customs duty in effect on the day immediately preceding the date of entry into force of this Agreement for that Party.

2. Nothing in this article shall be construed to limit a Party's rights and obligations under Article XIX of the GATT 1994, the WTO Agreement on Safeguards, or Chapter 6 (Trade Remedies).

3. In determining serious damage, or actual threat thereof, the importing Party:

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (a) shall examine the effect of increased imports from the exporting Party or Parties of a textile or apparel good benefiting from preferential tariff treatment under this Agreement on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits and investment, none of which either alone or combined with other factors, shall necessarily be decisive; and
- (b) shall not consider changes in technology or consumer preference in the importing Party as factors supporting a determination of serious damage or actual threat thereof.

4. The importing Party may take an emergency action under this Article only following its publication of procedures that identify the criteria for a finding of serious damage and only following an investigation by its competent authorities. Such an investigation must use data based on the factors described in 3(a) that serious damage or actual threat thereof is demonstrably caused by increased imports of the product concerned as a result of this Agreement.

5. The importing Party shall submit to the exporting Party or Parties, without delay, written notice of the initiation of the investigation provided for in paragraph 4, as well as of its intent to take emergency action, and, on the request of the exporting Party or Parties, shall enter into consultations with that Party or Parties regarding the matter. The importing Party shall provide the exporting party full details of the emergency action to be taken. The Parties concerned shall begin consultations without delay and, unless otherwise decided, shall complete them within 60 days of receipt of the request. After completion of the consultations, the importing Party shall notify the exporting Party of any decision. If it decides to apply a safeguard measure, the notification shall include the details of the measure, including when it will take effect.

6. The following conditions and limitations shall apply to any emergency action taken under this Article:

- (a) no emergency action may be maintained for a period exceeding two years with a possible extension for an additional two years;
- (b) no emergency action against a good may be taken or maintained beyond the transition period;
- (c) no emergency action may be taken by an importing Party against any particular good of another Party or Parties more than once; and
- (d) on termination of the emergency action, the importing Party shall accord to the good that was subject to the emergency action the tariff treatment that would have been in effect but for the action.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

7. The Party taking an emergency action under this Article shall provide to the exporting Party or Parties against whose goods the measure is taken mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the emergency action. Such concessions shall be limited to textile and apparel goods, unless the Parties concerned otherwise agree. If the Parties concerned are unable to agree on compensation within 60 days or a longer period agreed by the Parties concerned, the Party or Parties against whose good the emergency action is taken may take tariff action having trade effects substantially equivalent to the trade effects of the emergency action taken under this Article. Such tariff action may be taken against any goods of the Party taking the emergency action. The Party taking the tariff action shall apply the tariff action only for the minimum period necessary to achieve the substantially equivalent trade effects. The importing Party's obligation to provide trade compensation and the exporting Party's right to take tariff action shall terminate when the emergency action terminates.

8. A Party may not take or maintain an emergency action under this Article against a textile or apparel good that is subject, or becomes subject, to a transitional safeguard measure under Chapter 6 (Trade Remedies), or a safeguard measure that a Party takes pursuant to Article XIX of the GATT 1994, or the WTO Agreement on Safeguards.

9. The investigations referred to in this Article shall be carried out according to procedures established by each Party. Each Party shall, upon entry into force of this Agreement or before it initiates an investigation, notify the other Parties of these procedures.

10. Each Party shall, in any year where it takes or maintains an emergency action under this Article, provide a report on such actions to the other Parties.

**Article 4.4: Cooperation**

1. Each Party shall, in accordance with its laws and regulations, cooperate with other Parties for the purposes of enforcing or assisting in the enforcement of their respective measures concerning customs offences for trade in textile or apparel goods among the Parties, including ensuring the accuracy of claims for preferential tariff treatment under this Agreement.

2. Each Party shall take appropriate measures, which may include legislative, administrative, judicial, or other action for:

- (a) enforcement of its laws, regulations and procedures related to customs offences, and
- (b) cooperation with an importing Party in the enforcement of its laws regulations and procedures related to prevention of customs offences.

3. For the purposes of paragraph 2, "appropriate measures" means measures a Party takes, in accordance with its laws, regulations, and procedures, such as:

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (a) providing its government officials with the legal authority to meet the obligations under this Chapter;
  - (b) enabling its law enforcement officials to identify and address customs offences;
  - (c) establishing or maintaining criminal, civil or administrative penalties that are aimed at deterring customs offences;
  - (d) undertaking appropriate enforcement action where it believes, based on a request from another Party that includes relevant facts, that a customs offence has occurred or is occurring in the requested Party's territory with regard to a textile or apparel good, including in free trade zones of the requested Party; and
  - (e) cooperating with another Party, on request, to establish facts regarding customs offences in the requested Party's territory with regard to a textile or apparel good, including in free trade zones of the requested Party.
4. A Party may request information from another Party where it has relevant facts indicating a customs offence is occurring or is likely to occur, such as historical evidence.
5. Any request under paragraph 4 shall be made in writing, by electronic means or any other method that acknowledges receipt, and shall include a brief statement of the matter at issue, the cooperation requested, the relevant facts indicating a customs offence, and sufficient information for the requested Party to respond in accordance with its laws and regulations.
6. To enhance cooperative efforts under this Article between Parties to prevent and address customs offences, a Party that receives a request under paragraph 4 shall, subject to its laws, regulations, and procedures, including those related to confidentiality referred to in Article 9.4 provide to the requesting Party, upon receipt of a request in accordance with paragraph 5, available information on the existence of an importer, exporter, or producer, goods of an importer, exporter, or producer, or other matters related to this Chapter. The information may include any available correspondence, reports, bills of lading, invoices, order contracts, or other information regarding enforcement of laws or regulations related to the request.
7. A Party may provide information requested in this article on paper or in electronic form.
8. Each Party shall establish or maintain contact points for cooperation under this Chapter. Each Party shall notify the other Parties of its contact points upon entry into force of this Agreement and shall notify the other Parties promptly of any subsequent changes.

**Article 4.5: Monitoring**

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

1. Each Party shall establish or maintain programs or practices to identify and address textiles and apparel customs offences. This may include programs or practices to ensure the accuracy of claims for preferential tariff treatment for textile and apparel goods under this Agreement.
2. Through such programs or practices, the Party may collect or share information related to textiles or apparel goods for use for risk management purposes.
3. In addition to paragraphs 1 and 2, some Parties have bilateral agreements that apply between those Parties.

**Article 4.6: Verification**

1. An importing Party may conduct a verification with respect to a textile or apparel good pursuant to Article 3.27.1(a), 3.27.1(b), or 3.27.1(e) (Verification) and their associated procedures to verify whether a good qualifies for preferential tariff treatment or through a request for a site visit as described in this Article.<sup>3</sup>
2. An importing Party may request a site visit under this article from an exporter or producer of textile or apparel goods to verify whether:
  - (a) a textile or apparel good qualifies for preferential tariff treatment under this Agreement; or
  - (b) customs offences are occurring or have occurred.
3. During a site visit under this article, an importing Party may request access to:
  - (a) records and facilities relevant to the claim for preferential tariff treatment; or
  - (b) records and facilities relevant to the customs offences being verified.
4. Where an importing Party seeks to conduct a site visit under paragraph 2, it shall notify the host Party, no later than 20 days before the visit, regarding:
  - (a) the proposed dates;
  - (b) the number of exporters and producers to be visited in appropriate detail to facilitate the provision of any assistance, but need not specify the names of the exporters or producers to be visited;

---

<sup>3</sup> For the purposes of this Article, the information collected in accordance with this Article shall be used for the purpose of ensuring the effective implementation of this Chapter. A Party shall not use these procedures to collect information for other purposes.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (c) whether assistance by the host Party will be requested and what type;
- (d) where relevant, the customs offences being verified under paragraph 2(b), including relevant factual information available at the time of the notification related to the specific offences, which may include historical information; and
- (e) whether the importer claimed preferential tariff treatment.

5. Upon receipt of information on a proposed visit under paragraph 2, the host Party may request information from the importing Party to facilitate planning of the visit, such as logistical arrangements or provision of requested assistance.

6. Where an importing Party seeks to conduct a site visit under paragraph 2, it shall provide the host Party, as soon as practicable and prior to the date of the first visit to an exporter or producer under this article, with a list of the names and addresses of the exporters or producers it proposes to visit.

7. Where an importing Party seeks to conduct a site visit under paragraph 2:

- (a) Officials of the host Party may accompany the importing Party during the site visit.

- (c) The importing and host Parties shall limit communication regarding the site visit to relevant government officials and shall not inform the exporter or producer outside the government of the host Party in advance of a visit or provide any other verification or enforcement information not publicly available whose disclosure could undermine the effectiveness of the action.
- (d) The importing Party shall request permission from the exporter, or producer<sup>4</sup> for access to the relevant records or facilities, no later than the time of the visit. Unless advance notice would undermine the effectiveness of the site visit, the importing Party shall request permission with appropriate advance notice.
- (e) Where the exporter or producer of textile or apparel goods denies such permission or access, the visit will not occur. The importing Party shall give

consideration to any reasonable alternative dates proposed, taking into account the availability of relevant employees or facilities of the person visited.

8. Upon completion of a site visit under paragraph 2, the importing Party shall:
- (a) upon request of the host Party, inform the host Party of its preliminary findings.
  - (b) upon receiving a written request from the host Party, provide to the host Party, no later than 90 days from the date of the request, a written report of the results of the visit, including any findings. If the report is not in English, the importing Party shall provide a translation of it in English upon request of that exporter or producer.
9. In cases where advance notice was not given under paragraph 7(d), such importer, exporter, or producer may request an additional 30 days.
10. The importing Party shall not reject a claim for preferential tariff treatment on the sole grounds that the host Party does not provide the requested assistance or information under this article.
12. While a verification is being conducted under Article 6, the importing Party may take appropriate measures under procedures established in its laws and regulations, including suspending or denying the application of preferential tariff treatment to textile or apparel goods of the exporter or producer subject to a verification.
13. Where verifications of identical goods by a Party indicate a pattern of conduct by an exporter or producer of false or unsupported representations that a good imported into its territory qualifies for preferential tariff treatment, the Party may withhold preferential tariff treatment for identical textile or apparel goods imported, exported or produced by such a person until it is demonstrated to the importing Party that the identical goods qualify for preferential tariff treatment. For the purpose of this paragraph, identical goods means goods that are the same in all respects relevant to the particular rule of origin that qualifies the goods as originating.

- (b) if, pursuant to a verification under this Chapter, it has not received sufficient information to determine that the good qualifies as originating; or
- (c) if, pursuant to a verification under this Chapter, access or permission for the visit is denied, the importing Party is prevented from completing the visit on the proposed date and the exporter or producer does not provide an alternative date acceptable to the importing Party, or the exporter or producer does not provide access to the relevant records or facilities during a visit.

**Article 4.8: Committee on Textile and Apparel Trade Matters**

1. The Parties hereby establish a Committee on Textile and Apparel Trade Matters, comprised of representatives of each Party.
2. The Committee on Textile and Apparel Trade Matters will meet at least once within one year of entry into force of the Agreement, and thereafter at such times as the Parties decide and on request of the Commission. **Article 5.3: Advance Rulings**

1. Each Party shall issue, prior to the importation of a good of a Party into its territory, a written advance ruling at the written request of an importer in its territory, or an exporter or producer in the territory of another Party,<sup>1</sup> with regard to:<sup>2</sup>

- (a) tariff classification;
- (b) the application of customs valuation criteria for a particular case in accordance with the Customs Valuation Agreement;
- (c) whether a good is originating in accordance with Chapter 3 (Rules of Origin and Origin Procedures); and
- (d) such other matters as the Parties may decide.

2. Each Party shall issue an advance ruling as expeditiously as possible and in no case later than 150 days after it receives a request, provided that the requester has submitted all the information that the receiving Party requires to make the advance ruling. This includes a sample of the good for which the requester is seeking an advance ruling if requested by the receiving Party. In issuing an advance ruling, the Party shall take into account the facts and circumstances that the requester has provided. For greater certainty, a Party may decline to issue an advance ruling if the facts and circumstances forming the basis of the advance ruling are the subject of administrative or judicial review. A Party that declines to issue an advance ruling shall promptly notify the requester in writing, setting out the relevant facts and circumstances and the basis for its decision to decline to issue the advance ruling.

---

<sup>1</sup> For greater certainty, an importer, exporter or producer may submit a request for an advance ruling through a duly authorised representative.

<sup>2</sup> For greater certainty, a Party is not required to provide an advance ruling when it does not maintain measures of the type subject to the ruling request.

3. Each Party shall provide that its advance rulings shall take effect on the date that they are issued or on another date specified in the ruling, and remain in effect for at least three years, provided that the law, facts and circumstances on which the ruling is based remain unchanged. If a Party's law provides that an advance ruling becomes ineffective after a fixed period of time, that Party shall endeavour to provide procedures that allow the requester to renew the ruling expeditiously before it becomes ineffective, in situations in which the law, facts and circumstances on which the ruling was based remain unchanged.
4. After issuing an advance ruling, the Party may modify or revoke the advance ruling if there is a change in the law, facts or circumstances on which the ruling was based, if the ruling was based on inaccurate or false information, or if the ruling was in error.
5. A Party may apply a modification or revocation in accordance with paragraph 4 after it provides notice of the modification or revocation and the reasons for it.
6. No Party shall apply a revocation or modification retroactively to the detriment of the requester unless the ruling was based on inaccurate or false information provided by the requester.
7. Each Party shall ensure that requesters have access to administrative review of advance rulings.
8. Subject to any confidentiality requirements in its law, each Party shall endeavour to make its advance rulings publicly available including online.

**Article 5.4: Response to Requests for Advice or Information**

On request from an importer in its territory, or an exporter or producer in the territory of another Party, a Party shall expeditiously provide advice or information relevant to the facts contained in the request on:

- (a) the requirements for qualifying for quotas, such as tariff rate quotas;
- (b) the application of duty drawback, deferral or other types of relief that reduce, refund or waive customs duties;
- (c) the eligibility requirements for goods under Article 2.6 (Goods Re-entered after Repair and Alteration);
- (d) country of origin marking, if it is a prerequisite for importation; and
- (e) other matters as the Parties may decide.

**Article 5.5: Review and Appeal**

1. Each Party shall ensure that any person to whom it issues a determination<sup>3</sup> on a customs matter has access to:

- (a) administrative review of the determination, independent<sup>4</sup> of the employee or office that issued the determination; and
- (b) judicial review of the determination.<sup>5</sup>

2. Each Party shall ensure that an authority that conducts a review under paragraph 1 notifies the parties to the matter in writing of its decision, and the reasons for the decision. A Party may require a request as a condition for providing the reasons for a decision in the review.

**Article 5.6: Automation**

1. Each Party shall:

- (a) endeavour to use international standards with respect to procedures for the release of goods;
- (b) make electronic systems accessible to customs users;
- (c) employ electronic or automated systems for risk analysis and targeting;
- (d) endeavour to implement common standards and elements for import and export data in accordance with the World Customs Organization (WCO) Data Model;
- (e) take into account, as appropriate, WCO standards, recommendations, models and methods developed through the WCO or APEC; and
- (f) work toward developing a set of common data elements that are drawn from the WCO Data Model and related WCO recommendations as well as guidelines to facilitate government to government electronic sharing of data for purposes of analysing trade flows.

2. Each Party shall endeavour to provide a facility that allows importers and exporters to electronically complete standardised import and export requirements at a single entry point.

<sup>3</sup> For the purposes of this Article, a determination, if made by Peru, means an administrative act.

<sup>4</sup> The level of administrative review may include any authority supervising the customs administration.

<sup>5</sup> Brunei Darussalam may comply with this paragraph by establishing or maintaining an independent body to provide impartial review of the determination.

**Article 5.7: Express Shipments**

1. Each Party shall adopt or maintain expedited customs procedures for express shipments while maintaining appropriate customs control and selection. These procedures shall:

- (a) provide for information necessary to release an express shipment to be submitted and processed before the shipment arrives;
- (b) allow a single submission of information covering all goods contained in an express shipment, such as a manifest, through, if possible, electronic means;<sup>6</sup>
- (c) to the extent possible, provide for the release of certain goods with a minimum of documentation;
- (d) under normal circumstances, provide for express shipments to be released within six hours after submission of the necessary customs documents, provided the shipment has arrived;
- (e) apply to shipments of any weight or value recognising that a Party may require formal entry procedures as a condition for release, including declaration and supporting documentation and payment of customs duties, based on the good's weight or value; and
- (f) provide that, under normal circumstances, no customs duties will be assessed on express shipments valued at or below a fixed amount set under the Party's law.<sup>7</sup> Each Party shall review the amount periodically taking into account factors that it may consider relevant such as rates of inflation, effect on trade facilitation, impact on risk management, administrative cost of collecting duties compared to the amount of duties, cost of cross-border trade transactions, impact on SMEs or other factors related to the collection of customs duties.

2. If a Party does not provide the treatment in paragraph 1(a) through (f) to all shipments, that Party shall provide a separate<sup>8</sup> and expedited customs procedure that provides that treatment for express shipments.

---

<sup>6</sup> For greater certainty, additional documents may be required as a condition for release.

<sup>7</sup> Notwithstanding this Article, a Party may assess customs duties, or may require formal entry documents, for restricted or controlled goods such as goods subject to import licensing or similar requirements.

<sup>8</sup> For greater certainty, "separate" does not mean a specific facility or lane.

**Article 5.8: Penalties**

1. Each Party shall adopt or maintain measures that allow for the imposition of a penalty by a Party's customs administration for a breach of its customs laws, regulations or procedural requirements, including those governing tariff classification, customs valuation, country of origin and claims for preferential treatment under this Agreement.
2. Each Party shall ensure that a penalty imposed by its customs administration for a breach of a customs law, regulation or procedural requirement is imposed only on the person legally responsible for the breach.
3. Each Party shall ensure that the penalty imposed by its customs administration is dependent on the facts and circumstances<sup>9</sup> of the case and is commensurate with the degree and severity of the breach.
4. Each Party shall ensure that it maintains measures to avoid conflicts of interest in the assessment and collection of penalties and duties. No portion of the remuneration of a government official shall be calculated as a fixed portion or percentage of any penalties or duties assessed or collected.
5. Each Party shall ensure that if a penalty is imposed by its customs administration for a breach of a customs law, regulation or procedural requirement, an explanation in writing is provided to the person upon whom the penalty is imposed specifying the nature of the breach and the law, regulation or procedure used for determining the penalty amount.
6. If a person voluntarily discloses to a Party's customs administration the circumstances of a breach of a customs law, regulation or procedural requirement prior to the discovery of the breach by the customs administration, the Party's customs administration shall, if appropriate, consider this fact as a potential mitigating factor when a penalty is established for that person.
7. Each Party shall provide in its laws, regulations or procedures, or otherwise give effect to, a fixed and finite period within which its customs administration may initiate proceedings<sup>10</sup> to impose a penalty relating to a breach of a customs law, regulation or procedural requirement.
8. Notwithstanding paragraph 7, a customs administration may impose, outside of the fixed and finite period, a penalty where this is in lieu of judicial or administrative tribunal proceedings.

**Article 5.9: Risk Management**

---

<sup>9</sup> Facts and circumstances shall be established objectively according to each Party's law.

<sup>10</sup> For greater certainty, "proceedings" means administrative measures by the customs administration and does not include judicial proceedings.

**Subject to Legal Review in English, Spanish and French

1. Each Party shall adopt or maintain a risk management system for assessment and targeting that enables its customs administration to focus its inspection activities on high-risk goods and that simplifies the clearance and movement of low-risk goods.
2. In order to facilitate trade, each Party shall periodically review and update, as appropriate, the risk management system specified in paragraph 1.

**Article 5.10: Release of Goods**

1. Each Party shall adopt or maintain simplified customs procedures for the efficient release of goods in order to facilitate trade between the Parties. This paragraph shall not require a Party to release a good if its requirements for release have not been met.
2. Pursuant to paragraph 1, each Party shall adopt or maintain procedures that:
  - (a) provide for the release of goods within a period no longer than that required to ensure compliance with its customs laws and, to the extent possible, within 48 hours of the arrival of the goods;
  - (b) provide for the electronic submission and processing of customs information in advance of the arrival of the goods in order to expedite the release of goods from customs control upon arrival;
  - (c) allow goods to be released at the point of arrival without temporary transfer to warehouses or other facilities; and
  - (d) allow an importer to obtain the release of goods prior to the final determination of customs duties, taxes and fees by the importing Party's customs administration when these are not determined prior to or promptly upon arrival, provided that the good is otherwise eligible for release and any security required by the importing Party has been provided or payment under protest, if required by a Party, has been made. Payment under protest refers to payment of duties, taxes and fees if the amount is in dispute and procedures are available to resolve the dispute.
3. If a Party allows for the release of goods conditioned on a security, it shall adopt or maintain procedures that:
  - (a) ensure that the amount of the security is no greater than that required to ensure that obligations arising from the importation of the goods will be fulfilled;
  - (b) ensure that the security shall be discharged as soon as possible after its customs administration is satisfied that the obligations arising from the importation of the goods have been fulfilled; and
  - (c) allow importers to provide security using non-cash financial instruments, and

including, in appropriate cases where an importer frequently enters goods,  
instruments covering multiple entries.

**Article 5.11: Publication**

1. Each Party shall make publicly available including online its customs laws, regulations, and general administrative procedures and guidelines, to the extent possible in the English language.
2. Each Party shall designate or maintain one or more enquiry points to address enquiries from interested persons concerning customs matters and shall make information concerning the procedures for making such enquiries publicly available online.
3. To the extent possible, each Party shall publish in advance regulations of general application governing customs matters that it proposes to adopt and shall provide interested persons the opportunity to comment before the Party adopts the regulation.

**Article 5.12: Confidentiality**

1. If a Party provides information to another Party in accordance with this Chapter and designates the information as confidential, the other Party shall keep the information confidential. The Party that provides the information may require the other Party to furnish written assurance that the information will be held in confidence, used only for the purposes specified in the other Party's request for information, and not disclosed without the specific permission of the Party that provided the information or the person that provided the information to that Party.
2. A Party may decline to provide information requested by another Party if that Party has failed to act in accordance with paragraph 1.
3. Each Party shall adopt or maintain procedures for protecting from unauthorised disclosure confidential information submitted in accordance with the administration of the Party's customs laws, including information the disclosure of which could prejudice the competitive position of the person providing the information.

1. A Party may apply a transitional safeguard measure described in paragraph 2, during the transition period only, if as a result of the reduction or elimination of a customs duty pursuant to this Agreement:
- (a) an originating good of another Party, individually, is being imported into the Party's territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions, as to cause or threaten to cause serious injury to the domestic industry that produces a like or directly competitive good; or
  - (b) an originating good of two or more Parties, collectively, is being imported into the Party's territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions, as to cause or threaten to cause serious injury to the domestic industry that produces a like or directly competitive good, provided that the Party applying the transitional safeguard measure demonstrates, with respect to the imports from each such Party against which the transitional safeguard measure is applied, that imports of the originating good from each of those Parties have increased, in absolute terms or relative to domestic production, since the date of entry into force of this Agreement for those Parties.

2. If the conditions in paragraph 1 are met, the Party may, to the extent necessary to prevent or remedy serious injury and to facilitate adjustment:

- (a) suspend the further reduction of any rate of customs duty provided for under this Agreement on the good; or
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
  - (i) the most-favoured-nation applied rate of customs duty in effect at the time the measure is applied; and
  - (ii) the most-favoured-nation applied rate of customs duty in effect on the day immediately preceding the date of entry into force of this Agreement for that Party.

The Parties understand that neither tariff rate quotas nor quantitative restrictions would be a permissible form of transitional safeguard measure.

**Article 6.4: Standards for a Transitional Safeguard Measure**

1. A Party shall maintain a transitional safeguard measure only for such period of time as may be necessary to prevent or remedy serious injury and to facilitate adjustment.

2. That period shall not exceed two years, except that the period may be extended by up to one year if the competent authority of the Party that applies the measure determines, in conformity with the procedures set out in Article 6.5 (Investigation Procedures and Transparency Requirements), that the transitional safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment.

3. No Party shall maintain a transitional safeguard measure beyond the expiration of the transition period.

4. In order to facilitate adjustment in a situation where the expected duration of a transitional safeguard measure is over one year, the Party that applies the measure shall progressively liberalise it at regular intervals during the period of application.

5. On the termination of a transitional safeguard measure, the Party that applied the measure shall apply the rate of customs duty set out in the Party's Schedule to Annex 2-D (Tariff Elimination) as if that Party had never applied the transitional safeguard measure.

6. No Party shall apply a transitional safeguard measure more than once on the same good.

**Article 6.5: Investigation Procedures and Transparency Requirements**

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

1. A Party shall apply a transitional safeguard measure only following an investigation by the Party's competent authorities in accordance with Article 3 and Article 4.2(c) of the Safeguards Agreement; to this end, Article 3 and Article 4.2(c) of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.

2. In the investigation described in paragraph 1, the Party shall comply with the requirements of Article 4.2(a) and Article 4.2(b) of the Safeguards Agreement; to this end, Article 4.2(a) and Article 4.2(b) of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.

**Article 6.6: Notification and Consultation**

1. A Party shall promptly notify the other Parties, in writing, if it:

- (a) initiates a transitional safeguard investigation under this Chapter;
- (b) makes a finding of serious injury, or threat of serious injury, caused by increased imports, as set out in Article 6.3 (Imposition of a Transitional Safeguard Measure);
- (c) takes a decision to apply or extend a transitional safeguard measure; and
- (d) takes a decision to modify a transitional safeguard measure previously undertaken.

2. A Party shall provide to the other Parties a copy of the public version of the report of its competent authorities that is required under Article 6.5.1 (Investigation Procedures and Transparency Requirements).

3. When a Party makes a notification pursuant to paragraph 1(c) that it is applying or extending a transitional safeguard measure, that Party shall include in that notification:

- (a) evidence of serious injury, or threat of serious injury, caused by increased imports of an originating good of another Party or Parties as a result of the reduction or elimination of a customs duty pursuant to this Agreement;
- (b) a precise description of the originating good subject to the transitional safeguard measure including its heading or subheading under the HS Code, on which the schedules of tariff commitments in Annex 2-D (Tariff Elimination) are based;
- (c) a precise description of the transitional safeguard measure;

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (d) the date of the transitional safeguard measure's introduction, its expected duration and, if applicable, a timetable for progressive liberalisation of the measure;; and
- (e) in the case of an extension of the transitional safeguard measure, evidence that the domestic industry concerned is adjusting.

4. On request of a Party whose good is subject to a transitional safeguard proceeding under this Chapter, the Party that conducts that proceeding shall enter into consultations with the requesting Party to review a notification under paragraph 1 or any public notice or report that the competent investigating authority issued in connection with the proceeding.

#### **Article 6.7 Compensation**

1. A Party applying a transitional safeguard measure shall, after consultations with each Party against whose good the transitional safeguard measure is applied, provide mutually agreed trade liberalising compensation in the form of concessions that have substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the transitional safeguard measure. The Party shall provide an opportunity for those consultations no later than 30 days after the application of the transitional safeguard measure.

2. If the consultations under paragraph 1 do not result in an agreement on trade liberalising compensation within 30 days, any Party against whose good the transitional safeguard measure is applied may suspend the application of substantially equivalent concessions to the trade of the Party applying the transitional safeguard measure.

3. A Party against whose good the transitional safeguard measure is applied shall notify the Party applying the transitional safeguard measure in writing at least 30 days before it suspends concessions in accordance with paragraph 2.

4. The obligation to provide compensation under paragraph 1 and the right to suspend concessions under paragraph 2 terminates on the termination of the transitional safeguard measure.

### **Section B: Antidumping and Countervailing Duties**

2. Nothing in this Agreement shall confer any rights or impose any obligations on the Parties with regard to proceedings or measures taken pursuant to Article VI of GATT 1994, the AD Agreement or the SCM Agreement.
3. No Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for any matter arising under this Section or Annex 6-A (Practices Relating to Antidumping and Countervailing Duty Proceedings).

**Annex 6-A: Practices Relating to Antidumping and Countervailing Duty Proceedings**

The Parties recognise, in Article 6.8 (Antidumping and Countervailing Duties), the right of the Parties to apply trade remedy measures consistent with Article VI of GATT 1994, the AD Agreement and the SCM Agreement, the Parties recognise the following practices<sup>1</sup> as promoting the goals of transparency and due process in trade remedy proceedings:

- (a) Upon receipt by a Party's investigating authorities of a properly documented antidumping or countervailing duty application with respect to imports from another Party, and no later than seven days before initiating an investigation, the Party provides written notification of its receipt of the application to the other Party.
- (b) In any proceeding in which the investigating authorities determine to conduct an in-person verification of information that is provided by a respondent<sup>2</sup>, and that is pertinent to the calculation of antidumping duty margins or the level of a countervailable subsidy, the investigating authorities promptly notify each respondent of their intent, and:
  - (i) provide to each respondent at least 10 working days advance notice of the dates on which the authorities intend to conduct an in-person verification of the information;
  - (ii) at least five working days prior to an in-person verification, provide to the respondent a document that sets out the topics the respondent should be prepared to address during the verification and that describes the types of supporting documentation to be made available for review; and
  - (iii) after an in-person verification is completed, and subject to the protection of confidential information<sup>3</sup>, issue a written report that describes the methods and procedures followed in carrying out the verification and the extent to which the information provided by the respondent was supported by the documents reviewed during the verification. The report is made

<sup>1</sup> The practices included in this Annex do not constitute a comprehensive list of practices relating to antidumping and countervailing duty proceedings. No inference shall be drawn from the inclusion or exclusion of a particular aspect of such proceedings in this list.

<sup>2</sup> For the purposes of this paragraph, "respondent" means a producer, manufacturer, exporter, importer, and, where appropriate, a government or government entity, that is required by a Party's investigating authorities to respond to an antidumping or countervailing duty questionnaire.

<sup>3</sup> For the purposes of this Annex, "confidential information" includes information which is provided on a confidential basis and which is by its nature confidential, for example, because its disclosure would be of significant competitive advantage to a competitor or because its disclosure would have a significantly adverse effect upon a person supplying the information or upon a person from whom that person acquired the information.

available to all interested parties in sufficient time for the parties to defend their interests.

- (c) A Party's investigating authorities maintain a public file for each investigation and review that contains:
  - (i) all non-confidential documents that are part of the record of the investigation or review; and
  - (ii) to the extent feasible without revealing confidential information, non-confidential summaries of confidential information that is contained in the record of each investigation or review. To the extent that individual information is not susceptible of summarisation, it may be aggregated by the investigating authority.

The public file and a list of all documents that are contained in the record of the investigation or review are physically available for inspection and copying during the investigating authorities' normal business hours or electronically available for download<sup>4</sup>.

- (d) If, in an antidumping or countervailing duty action that involves imports from another Party, a Party's investigating authorities determine that a timely response to a request for information does not comply with the request, the investigating authorities inform the interested party that submitted the response of the nature of the deficiency and, to the extent practicable in light of time limits established to complete the antidumping or countervailing duty action, provide that interested party with an opportunity to remedy or explain the deficiency. If that interested party submits further information in response to that deficiency and the investigating authorities find that the response is not satisfactory, or that the response is not submitted within the applicable time limits, and if the investigating authorities disregard all or part of the original and subsequent responses, the investigating authorities explain in the determination or other written document the reasons for disregarding the information.
- (e) Before a final determination is made, the investigating authorities inform all interested parties of the essential facts that form the basis of the decision whether to apply definitive measures. Subject to the protection of confidential information, the investigating authorities may use any reasonable means to disclose the essential facts, which includes a report summarising the data in the record, a draft or preliminary determination or some combination of those reports or determinations, to provide interested parties an opportunity to respond to the disclosure of essential facts.

**Article 7.3: Scope**

of these authorities and identify its primary representative within 60 days of the date of entry into force of this Agreement for that Party. Each Party shall keep this information up to date.

**Article 7.7: Adaptation to Regional Conditions, Including Pest- or Disease-Free Areas and Areas of Low Pest or Disease Prevalence**

1. The Parties recognise that adaptation to regional conditions, including regionalisation, zoning and compartmentalisation, is an important means to facilitate trade.
2. The Parties shall take into account the relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations.
3. The Parties may cooperate on the recognition of pest- or disease-free areas, and areas of low pest or disease prevalence with the objective of acquiring confidence in the procedures followed by each Party for the recognition of pest- or disease-free areas, and areas of low pest or disease prevalence.
4. When an importing Party receives a request for a determination of regional conditions from an exporting Party and determines that the information provided by the exporting Party is sufficient, it shall initiate an assessment within a reasonable period of time.
5. When an importing Party commences an assessment of a request for a determination of regional conditions under paragraph 4, that Party shall promptly, on request of the exporting Party, explain its process for making the determination of regional conditions.
6. On request of the exporting Party, the importing Party shall inform the exporting Party of the status of the assessment of the exporting Party's request for a determination of regional conditions.
7. When an importing Party adopts a measure that recognises specific regional conditions of an exporting Party, the importing Party shall communicate that measure to the exporting Party in writing and implement the measure within a reasonable period of time.
8. The importing and exporting Parties involved in a particular determination may also decide in advance the risk management measures that will apply to trade between them in the event of a change in the status.
9. The Parties involved in a determination recognising regional conditions are encouraged, if mutually agreed, to report the outcome to the Committee.
10. If the evaluation of the evidence provided by the exporting Party does not result in a determination to recognise pest- or disease-free areas, or areas of low pest and disease prevalence, the importing Party shall provide the exporting Party with the rationale for its determination.
11. If there is an incident that results in the importing Party modifying or revoking the determination recognising regional conditions, on request of the exporting Party, the Parties involved shall cooperate to assess whether the determination can be reinstated.

**Article 7.8: Equivalence**

1. The Parties acknowledge that recognition of the equivalence of sanitary and phytosanitary measures is an important means to facilitate trade. Further to Article 4 of the SPS Agreement, the Parties shall apply equivalence to a group of measures or on a systems-wide basis, to the extent feasible and appropriate. In determining the equivalence of a specific sanitary or phytosanitary measure, group of measures or on a systems-wide basis, each Party shall take into account the relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations.

2. On request of the exporting Party, the importing Party shall explain the objective and rationale of its sanitary or phytosanitary measure and clearly identify the risk the sanitary or phytosanitary measure is intended to address.

3. When an importing Party receives a request for an equivalence assessment and determines that the information provided by the exporting Party is sufficient, it shall initiate the equivalence assessment within a reasonable period of time.

4. When an importing Party commences an equivalence assessment, that Party shall promptly, on request of the exporting Party, explain its equivalence process and plan for making the equivalence determination and, if the determination results in recognition, for enabling trade.

5. In determining the equivalence of a sanitary or phytosanitary measure, an importing Party shall take into account available knowledge, information and relevant experience, as well as the regulatory competence of the exporting Party.

6. The importing Party shall recognise the equivalence of a sanitary or phytosanitary measure if the exporting Party objectively demonstrates to the importing Party that the exporting Party's measure:

- (a) achieves the same level of protection as the importing Party's measure; or
- (b) has the same effect in achieving the objective as the importing Party's measure.<sup>2</sup>

7. When an importing Party adopts a measure that recognises the equivalence of an exporting Party's specific sanitary or phytosanitary measure, group of measures or measures on a systems-wide basis, the importing Party shall communicate the measure it has adopted to the exporting Party in writing and implement the measure within a reasonable period of time.

8. The Parties involved in an equivalence determination that results in recognition are encouraged, if mutually agreed, to report the outcome to the Committee.

---

<sup>2</sup> No Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for this subparagraph.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

9. If an equivalence determination does not result in recognition by the importing Party, the importing Party shall provide the exporting Party with the rationale for its decision.

**Article 7.9: Science and Risk Analysis**

1. The Parties recognise the importance of ensuring that their respective sanitary and phytosanitary measures are based on scientific principles.

2. Each Party shall ensure that its sanitary and phytosanitary measures either conform to the relevant international standards, guidelines or recommendations or, if its sanitary and phytosanitary measures do not conform to international standards, guidelines or recommendations, that they are based on documented and objective scientific evidence that is rationally related to the measures, while recognising the Parties' obligations regarding assessment of risk under Article 5 of the SPS Agreement.<sup>3</sup>

3. Recognising the Parties' rights and obligations under the relevant provisions of the SPS Agreement, nothing in this Chapter shall be construed to prevent a Party from:

- (a) establishing the level of protection it determines to be appropriate;
- (b) establishing or maintaining an approval procedure that requires a risk analysis to be conducted before the Party grants a product access to its market; or
- (c) adopting or maintaining a sanitary or phytosanitary measure on a provisional basis.

4. Each Party shall:

- (a) ensure that its sanitary and phytosanitary measures do not arbitrarily or unjustifiably discriminate between Parties where identical or similar conditions prevail, including between its own territory and that of other Parties; and
- (b) conduct its risk analysis in a manner that is documented and that provides interested persons and other Parties an opportunity to comment, in a manner to be determined by that Party<sup>4</sup>.

5. Each Party shall ensure that each risk assessment it conducts is appropriate to the circumstances of the risk at issue and takes into account reasonably available and relevant scientific data, including qualitative and quantitative information.

6. When conducting its risk analysis, each Party shall:

---

<sup>3</sup> No Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for this paragraph.

<sup>4</sup> For greater certainty, paragraph 4(b) applies only to a risk analysis for a sanitary or phytosanitary measure that constitutes a sanitary or phytosanitary regulation for the purposes of Annex B of the SPS Agreement.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (a) take into account relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations;
- (b) consider risk management options that are not more trade restrictive<sup>5</sup> than required, including the facilitation of trade by not taking any measure, to achieve the level of protection that the Party has determined to be appropriate; and
- (c) select a risk management option that is not more trade restrictive than required to achieve the sanitary or phytosanitary objective, taking into account technical and economic feasibility.

7. If an importing Party requires a risk analysis to evaluate a request from an exporting Party to authorise importation of a good of that exporting Party, the importing Party shall provide, on request of the exporting Party, an explanation of the information required for the risk assessment. On receipt of the required information from the exporting Party, the importing Party shall endeavour to facilitate the evaluation of the request for authorisation by scheduling work on this request in accordance with the procedures, policies, resources, and laws and regulations of the importing Party.

8. On request of the exporting Party, the importing Party shall inform the exporting Party of the progress of a specific risk analysis request, and of any delay that may occur during the process.

9. If the importing Party, as a result of a risk analysis, adopts a sanitary or phytosanitary measure that allows trade to commence or resume, the importing Party shall implement the measure within a reasonable period of time.

10. Without prejudice to Article 7.14 (Emergency Measures), no Party shall stop the importation of a good of another Party solely for the reason that the importing Party is undertaking a review of its sanitary or phytosanitary measure, if the importing Party permitted the importation of that good of the other Party when the review was initiated.

**Article 7.10: Audits<sup>6</sup>**

1. To determine an exporting Party's ability to provide required assurances and meet the sanitary and phytosanitary measures of the importing Party, each importing Party shall have the right, subject to this Article, to audit the exporting Party's competent authorities and associated or designated inspection systems. That audit may include an assessment of the

---

<sup>5</sup> For the purposes of paragraphs 6(b) and 6(c), a risk management option is not more trade-restrictive than required unless there is another option reasonably available, taking into account technical and economic feasibility, that achieves the appropriate level of sanitary or phytosanitary protection and is significantly less restrictive to trade.

<sup>6</sup> For greater certainty, nothing in this Article prevents an importing Party from performing an inspection of a facility for the purposes of determining if the facility conforms with the importing Party's sanitary or phytosanitary requirements or conforms with sanitary or phytosanitary requirements that the importing Party has determined to be equivalent to its sanitary or phytosanitary requirements.

competent authorities' control programmes, including: if appropriate, reviews of the inspection and audit programmes; and on-site inspections of facilities.

2. An audit shall be systems-based and designed to check the effectiveness of the regulatory controls of the competent authorities of the exporting Party.

3. In undertaking an audit, a Party shall take into account relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations.

4. Prior to the commencement of an audit, the importing Party and exporting Party involved shall discuss the rationale and decide: the objectives and scope of the audit; the criteria or requirements against which the exporting Party will be assessed; and the itinerary and procedures for conducting the audit.

5. The auditing Party shall provide the audited Party the opportunity to comment on the findings of the audit and take any such comments into account before the auditing Party makes its conclusions and takes any action. The auditing Party shall provide a report setting out its conclusions in writing to the audited Party within a reasonable period of time.

6. A decision or action taken by the auditing Party as a result of the audit shall be supported by objective evidence and data that can be verified, taking into account the auditing Party's knowledge of, relevant experience with, and confidence in, the audited Party. This objective evidence and data shall be provided to the audited Party on request.

7. The costs incurred by the auditing Party shall be borne by the auditing Party, unless both Parties decide otherwise.

8. The auditing Party and audited Party shall each ensure that procedures are in place to prevent the disclosure of confidential information that is acquired during the audit process.

**Article 7.11: Import Checks**

1. Each Party shall ensure that its import programmes are based on the risks associated with importations, and the import checks are carried out without undue delay.<sup>7</sup>

2. A Party shall make available to another Party, on request, information on its import procedures and its basis for determining the nature and frequency of import checks, including the factors it considers to determine the risks associated with importations.

3. A Party may amend the frequency of its import checks as a result of experience gained through import checks or as a result of actions or discussions provided for in this Chapter.

---

<sup>7</sup> For greater certainty, nothing in this Article prohibits a Party from performing import checks to obtain information to assess risk or to determine the need for, develop or periodically review a risk-based import programme.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

4. An importing Party shall provide to another Party, on request, information regarding the analytical methods, quality controls, sampling procedures and facilities that the importing Party uses to test a good. The importing Party shall ensure that any testing is conducted using appropriate and validated methods in a facility that operates under a quality assurance programme that is consistent with international laboratory standards. The importing Party shall maintain physical or electronic documentation regarding the identification, collection, sampling, transportation and storage of the test sample, and the analytical methods used on the test sample.
5. An importing Party shall ensure that its final decision in response to a finding of non-conformity with the importing Party's sanitary or phytosanitary measure, is limited to what is reasonable and necessary, and is rationally related to the available science.
6. If an importing Party prohibits or restricts the importation of a good of another Party on the basis of an adverse result of an import check, the importing Party shall provide a notification about the adverse result to at least one of the following: the importer or its agent; the exporter; the manufacturer; or the exporting Party.
7. When the importing Party provides a notification pursuant to paragraph 6, it shall:
- (a) include:
    - (i) the reason for the prohibition or restriction;
    - (ii) the legal basis or authorisation for the action; and
    - (iii) information on the status of the affected goods and, if appropriate, on their disposition;
  - (b) do so in a manner consistent with its laws, regulations and requirements as soon as possible and no later than seven days<sup>8</sup> after the date of the decision to prohibit or restrict, unless the good is seized by a customs administration; and
  - (c) if the notification has not already been provided through another channel, transmit the notification by electronic means, if practicable.
8. An importing Party that prohibits or restricts the importation of a good of another Party on the basis of an adverse result of an import check shall provide an opportunity for a review of the decision and consider any relevant information submitted to assist in the review. The review request and information should be submitted to the importing Party within a reasonable period of time.<sup>9</sup>

---

<sup>8</sup> For the purposes of this paragraph, the term "days" does not include national holidays of the importing Party.

<sup>9</sup> For greater certainty, nothing in this Article prevents an importing Party from disposing of goods which are found to have an infectious pathogen or pest that, if urgent action is not taken, can spread and cause damage to human, animal or plant life or health in the Party's territory.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

9. If an importing Party determines that there is a significant, sustained or recurring pattern of non-conformity with a sanitary or phytosanitary measure, the importing Party shall notify the exporting Party of the non-conformity.

10. On request, an importing Party shall provide to the exporting Party available information on goods from the exporting Party that were found not to conform to an sanitary or phytosanitary measure of the importing Party.

**Article 7.12: Certification**

1. The Parties recognise that assurances with respect to sanitary or phytosanitary requirements may be provided through means other than certificates and that different systems may be capable of meeting the same sanitary or phytosanitary objective.

2. If an importing Party requires certification for trade in a good, the Party shall ensure that the certification requirement is applied, in meeting the Party's sanitary or phytosanitary objectives, only to the extent necessary to protect human, animal or plant life or health.

3. In applying certification requirements, an importing Party shall take into account relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations.

4. An importing Party shall limit attestations and information it requires on the certificates to essential information that is related to the sanitary or phytosanitary objectives of the importing Party.

5. An importing Party should provide to another Party, on request, the rationale for any attestations or information that the importing Party requires to be included on a certificate.

6. The Parties may agree to work cooperatively to develop model certificates to accompany specific goods traded between the Parties, taking into account relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations.

7. The Parties shall promote the implementation of electronic certification and other technologies to facilitate trade.

**Article 7.13: Transparency<sup>10</sup>**

1. The Parties recognise the value of sharing information about their sanitary and phytosanitary measures on an ongoing basis, and of providing interested persons and other Parties with the opportunity to comment on their proposed sanitary and phytosanitary measures.

---

<sup>10</sup> For greater certainty, this Article applies only to a sanitary or phytosanitary measure that constitutes a sanitary or phytosanitary regulation for the purposes of Annex B of the SPS Agreement.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

2. In implementing this Article, each Party shall take into account relevant guidance of the WTO SPS Committee and international standards, guidelines and recommendations.
3. A Party shall notify a proposed sanitary or phytosanitary measure that may have an effect on the trade of another Party, including any that conforms to international standards, guidelines or recommendations, by using the WTO SPS notification submission system as a means of notifying the other Parties.
4. Unless urgent problems of human, animal or plant life or health protection arise or threaten to arise, or the measure is of a trade-facilitating nature, a Party shall normally allow at least 60 days for interested persons and other Parties to provide written comments on the proposed measure after it makes the notification under paragraph 3. If feasible and appropriate, the Party should allow more than 60 days. The Party shall consider any reasonable request from an interested person or another Party to extend the comment period. On request of another Party, the Party shall respond to the written comments of the other Party in an appropriate manner.
5. The Party shall make available to the public, by electronic means in an official journal or on a website, the proposed sanitary or phytosanitary measure notified under paragraph 3, the legal basis for the measure, and the written comments or a summary of the written comments that the Party has received from the public on the measure.
6. If a Party proposes a sanitary or phytosanitary measure which does not conform to an international standard, guideline or recommendation, the Party shall provide to another Party, on request, and to the extent permitted by the confidentiality and privacy requirements of the Party's law, the relevant documentation that the Party considered in developing the proposed measure, including documented and objective scientific evidence that is rationally related to the measure, such as risk assessments, relevant studies and expert opinions.
7. A Party that proposes to adopt a sanitary or phytosanitary measure shall discuss with another Party, on request and if appropriate and feasible, any scientific or trade concerns that the other Party may raise regarding the proposed measure and the availability of alternative, less trade-restrictive approaches for achieving the objective of the measure.
8. Each Party shall publish, preferably by electronic means, notices of final sanitary or phytosanitary measures in an official journal or website.
9. Each Party shall notify the other Parties of final sanitary or phytosanitary measures through the WTO SPS notification submission system. Each Party shall ensure that the text or the notice of a final sanitary or phytosanitary measure specifies the date on which the measure takes effect and the legal basis for the measure. A Party shall also make available to another Party, on request, and to the extent permitted by the confidentiality and privacy requirements of the Party's law, significant written comments and relevant documentation considered to support the measure that were received during the comment period.
10. If a final sanitary or phytosanitary measure is substantively altered from the proposed measure, a Party shall also include in the notice of the final sanitary or phytosanitary measure that it publishes, an explanation of:

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (a) the objective and rationale of the measure and how the measure advances that objective and rationale; and
- (b) any substantive revisions that it made to the proposed measure.

11. An exporting Party shall notify the importing Party through the contact points referred to in Article 7.6 (Competent Authorities and Contact Points) in a timely and appropriate manner:

- (a) if it has knowledge of a significant sanitary or phytosanitary risk related to the export of a good from its territory;
- (b) of urgent situations where a change in animal or plant health status in the territory of the exporting Party may affect current trade;
- (c) of significant changes in the status of a regionalised pest or disease;
- (d) of new scientific findings of importance which affect the regulatory response with respect to food safety, pests or diseases; and
- (e) of significant changes in food safety, pest or disease management, control or eradication policies or practices that may affect current trade.

12. If feasible and appropriate, a Party should provide an interval of more than six months between the date it publishes a final sanitary or phytosanitary measure and the date on which the measure takes effect, unless the measure is intended to address an urgent problem of human, animal or plant life or health protection or the measure is of a trade-facilitating nature.

13. A Party shall provide to another Party, on request, all sanitary or phytosanitary measures related to the importation of a good into that Party's territory.

**Article 7.14: Emergency Measures**

1. If a Party adopts an emergency measure that is necessary for the protection of human, animal or plant life or health, the Party shall promptly notify the other Parties of that measure through the primary representative and the relevant contact point referred to in Article 7.6 (Competent Authorities and Contact Points). The Party that adopts the emergency measure shall take into consideration any information provided by other Parties in response to the notification.

2. If a Party adopts an emergency measure, it shall review the scientific basis of that measure within six months and make available the results of the review to any Party on request. If the emergency measure is maintained after the review, because the reason for its adoption remains, the Party should review the measure periodically.

**Article 7.15: Cooperation**

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

1. The Parties shall explore opportunities for further cooperation, collaboration and information exchange between the Parties on sanitary and phytosanitary matters of mutual interest, consistent with this Chapter. Those opportunities may include trade facilitation initiatives and technical assistance. The Parties shall cooperate to facilitate the implementation of this Chapter.

2. The Parties shall cooperate and may jointly identify work on sanitary and phytosanitary matters with the goal of eliminating unnecessary obstacles to trade between the Parties.

**Article 7.16: Information Exchange**

A Party may request information from another Party on a matter arising under this Chapter. A Party that receives a request for information shall endeavour to provide available information to the requesting Party within a reasonable period of time, and if possible, by electronic means.

**Article 7.17: Cooperative Technical Consultations**

1. If a Party has concerns regarding any matter arising under this Chapter with another Party, it shall endeavour to resolve the matter by using the administrative procedures that the other Party's competent authority has available. If the relevant Parties have bilateral or other mechanisms available to address the matter, the Party raising the matter shall endeavour to resolve the matter through those mechanisms, if it considers that it is appropriate to do so. A Party may have recourse to the Cooperative Technical Consultations (CTC) set out in paragraph 2 at any time it considers that the continued use of the administrative procedures or bilateral or other mechanisms would not resolve the matter.

2. One or more Parties (requesting Party) may initiate CTC with another Party (responding Party) to discuss any matter arising under this Chapter that the requesting Party considers may adversely affect its trade by delivering a request to the primary representative of the responding Party. The request shall be in writing and identify the reason for the request, including a description of the requesting Party's concerns about the matter, and set out the provisions of this Chapter that relate to the matter.

3. Unless the requesting Party and the responding Party (the consulting Parties) agree otherwise, the responding Party shall acknowledge the request in writing within seven days of the date of its receipt.

4. Unless the consulting Parties agree otherwise, the consulting Parties shall meet within 30 days of the responding Party's acknowledgement of the request to discuss the matter identified in the request, with the aim of resolving the matter within 180 days of the request if possible. The meeting shall be in person or by electronic means.

5. The consulting Parties shall ensure the appropriate involvement of relevant trade and regulatory agencies in meetings held pursuant to this Article.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

6. All communications between the consulting Parties in the course of CTC, as well as all documents generated for CTC, shall be kept confidential unless the consulting Parties agree otherwise and without prejudice to the rights and obligations of any Party under this Agreement, the WTO Agreement or any other international agreement to which it is a party.

7 The requesting Party may cease CTC proceedings under this Article and have recourse to dispute settlement under Chapter 28 (Dispute Settlement) if:

- (a) the meeting referred to in paragraph 4 does not take place within 37 days of the date of the request, or such other timeframe as the consulting Parties may agree under paragraphs 3 and 4; or
- (b) the meeting referred to in paragraph 4 has been held.

8. No Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for a matter arising under this Chapter without first seeking to resolve the matter through CTC in accordance with this Article.

**Article 7.18: Dispute Settlement**

1. Unless otherwise provided in this Chapter, Chapter 28 (Dispute Settlement) shall apply to this Chapter, subject to the following:

- (a) with respect to Article 7.8 (Equivalence), Article 7.10 (Audits) and Article 7.11 (Import Checks), Chapter 28 (Dispute Settlement) shall apply with respect to a responding Party as of one year after the date of entry into force of this Agreement for that Party; and
- (b) with respect to Article 7.9 (Science and Risk Analysis), Chapter 28 (Dispute Settlement) shall apply with respect to a responding Party as of two years after the date of entry into force of this Agreement for that Party.

2. In a dispute under this Chapter that involves scientific or technical issues, a panel should seek advice from experts chosen by the panel in consultation with the Parties involved in the dispute. To this end, the panel may, if it deems appropriate, establish an advisory technical experts group, or consult the relevant international standard setting organisations, at the request of either Party to the dispute or on its own initiative.

### **TECHNICAL BARRIERS TO TRADE**

#### **Article 8.1: Definitions**

1. For the purposes of this Chapter:

The definitions of the terms used in this Chapter contained in Annex 1 of the TBT *Agreement*, including the chapeau and explanatory notes of Annex 1, are incorporated into this Chapter and shall form part of this Chapter *mutatis mutandis*.

**consular transactions** means requirements that products of a Party intended for export to the territory of another Party must first be submitted to the supervision of the consul of the importing Party in the territory of the exporting Party for the purpose of obtaining consular invoices or consular visas for conformity assessment documentation;

**marketing authorisation** means the process or processes by which a Party approves or registers a product in order to authorize its marketing, distribution or sale in the Party's territory. The process or processes may be described in a Party's domestic law or regulations in various ways, including "marketing authorisation", "authorisation", "approval", "registration", "sanitary authorisation", "sanitary registration" and "sanitary approval" for a product. Marketing authorisation does not include notification procedures;

**mutual recognition agreement** means a binding government to government agreement for recognition of the results of conformity assessment conducted against the appropriate technical regulations or standards in one or more sectors, including government to government agreements to implement the APEC *Mutual Recognition Arrangement for Conformity Assessment of Telecommunications Equipment* and the *Electrical and Electronic Equipment Mutual Recognition Arrangement* and other agreements that may be entitled "mutual recognition arrangements" but nonetheless provide for the recognition of conformity assessment conducted against appropriate technical regulations or standards in one or more sectors;

**mutual recognition arrangement** means an international or regional arrangement (including a multilateral recognition arrangement) between accreditation bodies recognising the equivalence of accreditation systems (based on peer review) or between conformity assessment bodies recognising the results of conformity assessment;

**TBT Agreement** means the WTO *Agreement on Technical Barriers to Trade*; and

**verify** means action to confirm the veracity of individual conformity assessment results, such as requesting information from the conformity assessment body or the body that accredited, approved, licensed or otherwise recognised the conformity assessment body, but does not include requirements that subject a product to conformity assessment in the territory of the importing Party that duplicate the conformity assessment procedures already conducted with respect to the product in the territory of the exporting Party or a third party, except on a random or infrequent basis for the purpose of surveillance, or in response to information indicating non-compliance.

## **Article 8.2: Objective**

The objective of this Chapter, including its Annexes, is to facilitate trade, including by eliminating unnecessary technical barriers to trade, enhancing transparency, and promoting greater regulatory cooperation and good regulatory practice.

## **Article 8.3: Scope**

1. This Chapter applies to the preparation, adoption and application of all technical regulations, standards and conformity assessment procedures of central government bodies (and, where explicitly provided for technical regulations, standards and conformity assessment procedures of governments on the level directly below that of the central government) that may affect trade in goods between the Parties, except as provided in paragraphs 3 and 4.

*1bis.* Each Party shall take such reasonable measures, within its authority, to encourage observance by local government bodies on the level directly below that of the central government within its territory which are responsible for the preparation, adoption and application of technical regulations, standards and conformity assessment procedures with Articles 8.5 (International Standards, Guides and Recommendations), 8.6 (Conformity Assessment Procedures), 8.7 (Compliance Period for Technical Regulations and Conformity Assessment Procedures), and each of the Annexes to this Chapter.

2. All references in this Chapter to technical regulations, standards and conformity assessment procedures shall be construed to include any amendments thereto and any addition to the rules or the product coverage thereof, except amendments and additions of an insignificant nature.

3. This Chapter does not apply to technical specifications prepared by governmental entities for production or consumption requirements of such entities but such specifications are covered by Chapter 15 (Government Procurement).

4. This Chapter does not apply to sanitary and phytosanitary measures but such measures are covered by Chapter 7 (Sanitary and Phytosanitary Measures).

5. For greater certainty, nothing in this Chapter shall prevent a Party from adopting or maintaining technical regulations or standards, in accordance with its rights and obligations under this Agreement, the TBT Agreement and any other relevant international obligations.

#### **Article 8.4: Incorporation of Certain Provisions of the TBT Agreement**

1. The following provisions of the TBT Agreement are hereby incorporated into and made part of this Agreement, *mutatis mutandis*:

- (a) Articles 2.1, 2.2, 2.4, 2.5, 2.9, 2.10, 2.11, 2.12;
- (b) Articles 5.1, 5.2, 5.3, 5.4, 5.6, 5.7, 5.8, 5.9; and
- (c) Paragraphs D, E and F of Annex 3.

2. No Party shall have recourse to dispute settlement under Chapter 28 (Dispute Settlement) for a dispute that exclusively alleges violation of the provisions of the TBT Agreement incorporated into paragraph 1 of this Article.

#### **Article 8.5: International Standards, Guides and Recommendations**

1. The Parties acknowledge the important role that international standards, guides and recommendations can play in supporting greater regulatory alignment, good regulatory practice and reducing unnecessary barriers to trade.

2. In this respect, and further to Articles 2.4 and 5.4 and Annex 3 of the TBT Agreement, in determining whether an international standard, guide or recommendation within the meaning of Articles 2 and 5 and Annex 3 of the TBT Agreement exists, each Party shall apply the *Decision of the TBT Committee on Principles for the Development of International Standards, Guides and Recommendations With Relation to Articles 2, 5 and Annex 3 of the TBT Agreement* (G/TBT/1/Rev.10), issued by the WTO Committee on Technical Barriers to Trade.

3. The Parties shall cooperate with each other, where feasible and appropriate, to ensure that international standards, guides and recommendations that are likely to become a basis for technical regulations and conformity assessment procedures do not create unnecessary obstacles to international trade.

#### **Article 8.6: Conformity Assessment**

1. Further to Article 6.4 of the TBT Agreement, each Party shall accord to conformity assessment bodies located in the territory of another Party treatment no less

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

favourable than that it accords to conformity assessment bodies located in its own territory or in the territory of any other Party. In order to ensure that it accords such treatment, each Party shall apply to conformity assessment bodies located in the territory of another Party the same or equivalent procedures, criteria and other conditions that it may apply where it accredits, approves, licenses or otherwise recognises conformity assessment bodies in its own territory.

2. Paragraphs 1 and 4 shall not preclude a Party from undertaking solely within specified government bodies located in its own territory or in another Party's territory, conformity assessment in relation to specific products, subject to its obligations under the TBT Agreement.

3. Where a Party undertakes conformity assessment pursuant to paragraph 2, and further to Article 5.2 and Article 5.4 of the TBT Agreement concerning limitation on information requirements, the protection of legitimate commercial interests and the adequacy of review procedures, the Party shall, upon the request of another Party explain:

- (a) how the information required is necessary to assess conformity and determine fees;
- (b) how the Party ensures that the confidentiality of the information is respected in a manner that ensures legitimate commercial interests are protected; and
- (c) the procedure to review complaints concerning the operation of the conformity assessment procedure and to take corrective action when a complaint is justified.

4. Further to Article 6.4 of the TBT Agreement, where a Party maintains procedures, criteria and other conditions as set out in paragraph 1 and requires test results, certifications, and/or inspections as positive assurance that a product conforms to a standard or technical regulation, it:

- (a) shall not require the conformity assessment body testing or certifying the product, or the conformity assessment body conducting an inspection, to be located within its territory;
- (b) shall not impose requirements on conformity assessment bodies located outside its territory that would effectively require such conformity assessment bodies to operate an office in that Party's territory; and
- (c) shall permit conformity assessment bodies in other Parties' territories to apply to the Party for a determination that they comply with any procedures, criteria and other conditions the Party requires to deem them competent or otherwise approve them to test or certify the product or conduct an inspection.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

5. Paragraphs 1 and 4(c) shall not preclude a Party from using mutual recognition agreements to accredit, approve, license or otherwise recognise conformity assessment bodies located outside its territory, subject to its obligations under the TBT Agreement.

6. Nothing in paragraphs 1, 4 and 5 precludes a Party from verifying the results of conformity assessment procedures undertaken by conformity assessment bodies located outside its territory.

7. Further to paragraph 6, in order to enhance confidence in the continued reliability of conformity assessment results from each other's territories, the Parties may request information on matters pertaining to conformity assessment bodies located outside its territory.

8. Further to Article 9.1 of the TBT Agreement, a Party shall consider adopting provisions to approve conformity assessment bodies that hold accreditation for the technical regulations or standards of the importing Party with an accreditation body that is a signatory to an international or regional mutual recognition arrangement.<sup>1</sup> Parties recognise that such arrangements can address the key considerations in approving conformity assessment bodies, including technical competence, independence, and the avoidance of conflicts of interest.

9. Further to Article 9.2 of the TBT Agreement, a Party shall not refuse to accept, or take actions which have the effect of, directly or indirectly, requiring or encouraging the refusal of acceptance by other Parties or persons of conformity assessment results from a conformity assessment body because the accreditation body that accredited the conformity assessment body:

- (a) operates in the territory of a Party where there is more than one accreditation body;
- (b) is a non-governmental body;
- (c) is domiciled in the territory of a Party that does not maintain a procedure for recognising accreditation bodies<sup>2</sup>;
- (d) does not operate an office in the Party's territory; or
- (e) is a for-profit entity.

10. For greater clarity, nothing in paragraph 9 prohibits a Party from refusing to accept conformity assessment results from a conformity assessment body where it can

---

<sup>1</sup> The Committee on Technical Barriers to Trade shall be responsible for developing and maintaining a list of such arrangements.

<sup>2</sup> Provided that the accreditation body is recognised internationally, consistent with the provisions in paragraph 8.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

substantiate such refusal, provided that such actions are not inconsistent with the *TBT Agreement* and this Chapter.

11. A Party shall publish, preferably by electronic means, any procedures, criteria and other conditions that it may use as the basis for determining whether conformity assessment bodies are competent to receive accreditation, approval, licensing, or other recognition including where such recognition is granted pursuant to mutual recognition agreements.

12. Where a Party accredits, approves, licenses or otherwise recognises bodies assessing conformity to a particular technical regulation or standard in its territory, and refuses to accredit, approve, license, or otherwise recognise a body assessing conformity with that technical regulation or standard in the territory of another Party, or declines to use a mutual recognition arrangement, it shall, on request of the other Party, explain the reasons for its refusal.

13. Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of another Party, it shall, on the request of the other Party, explain the reasons for its decision.

14. Further to Article 6.3 of the TBT Agreement, where a Party declines a request of another Party to enter into negotiations for the conclusion of an agreement for mutual recognition of results of each other's conformity assessment procedures, it shall on the request of that other Party, explain the reasons for its decision.

15. Further to Article 5.2.5 of the TBT Agreement, any conformity assessment fees imposed by a Party shall be limited in amount to the approximate cost of services rendered.

16. No Party shall require consular transactions, including related fees and charges, in connection with conformity assessment<sup>3</sup>.

## **Article 8.7 Transparency**

1. Each Party shall allow persons of the other Parties to participate in the development of technical regulations, standards and conformity assessment procedures by its central government bodies.<sup>4</sup> Each Party shall allow persons of the other Parties to participate in the development of these measures on terms no less favourable than those it accords to its own persons.

---

<sup>3</sup> For greater certainty, this paragraph shall not apply to a Party verifying conformity assessment documents during a marketing authorisation or reauthorisation process.

<sup>4</sup> A Party satisfies this obligation by, for example, providing interested persons a reasonable opportunity to provide comments on the measure it proposes to develop and taking those comments into account in the development of the measure.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

2. Each Party is encouraged to consider methods to provide additional transparency in the development of technical regulations, standards and conformity assessment procedures, including through the use of electronic tools and public outreach or consultations.

3. Where appropriate, each Party shall encourage non-governmental bodies in its territory to observe the requirements in paragraphs 1 and 2.

4. Each Party shall publish all proposals for new technical regulations and conformity assessment procedures and proposals for amendments to existing technical regulations and conformity assessment procedures, and all final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures, of central government bodies.

*4bis.* For greater certainty, proposals for technical regulations and conformity assessment procedures may take the form, as determined by the Party, of, but are not limited to: policy proposals; discussion documents; summaries of proposed technical regulations and conformity assessment procedures; or the draft text of proposed technical regulations and conformity assessment procedures. Each Party shall ensure such proposals contain sufficient detail about the likely content of the proposed technical regulations and conformity assessment procedures so as to adequately inform interested persons and other Parties about whether and how their trade interests might be affected.

*4ter.* Each Party shall publish, preferably by electronic means, in a single official journal or website all proposals for new technical regulations and conformity assessment procedures and proposals for amendments to existing technical regulations and conformity assessment procedures, and all new final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures, of central government bodies, that a Party is required to notify or publish under the TBT Agreement or this Chapter, and that may have a significant effect on trade.<sup>5</sup>

5. Each Party shall take such reasonable measures as may be available to it to ensure that all proposals for new technical regulations and conformity assessment procedures and proposals for amendments to existing technical regulations and conformity assessment procedures, and all final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures, of local governments on the level directly below that of the central government are published.

---

<sup>5</sup> For greater certainty, a Party may comply with this obligation by ensuring that all proposals for new technical regulations and conformity assessment procedures and proposals for amendments to existing technical regulations and conformity assessment procedures, and all new final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures, that a Party is required to notify or publish under the TBT Agreement or this Chapter, and that may have a significant effect on trade, are published on, or otherwise accessible through, the WTO's official website.

*5bis.* Each Party shall ensure that all final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures, and to the extent practicable all proposals for new technical regulations and conformity assessment procedures and proposals for amendments to existing technical regulations and conformity assessment procedures, of local governments on the level directly below that of the central government are accessible through official websites or journals, preferably consolidated into a single website.

6. Each Party shall notify WTO Members according to the procedures established under Article 2.9 and Article 5.6 of the TBT Agreement, of proposals for new technical regulations and conformity assessment procedures that are in accordance with the technical content of relevant international standards, guides or recommendations, if any, and that may have a significant effect on trade.

*6bis.* Notwithstanding paragraph 6, where urgent problems of safety, health, environmental protection or national security arise or threaten to arise for a Party, that Party may notify WTO Members of a new technical regulation or conformity assessment procedure that is in accordance with the technical content of relevant international standards, guides or recommendations, if any, upon the adoption of the regulation or procedure according to the procedures established under Article 2.10 or Article 5.7 of the TBT Agreement.

7. Each Party shall endeavour to notify WTO Members of proposals for new technical regulations and conformity assessment procedures that are in accordance with the technical content of relevant international standards, guides and recommendations, if any, and that may have a significant effect on trade, of its local governments on the level directly below that of the central government.

8. For the purposes of determining whether a proposed technical regulation or conformity assessment procedure may have a “significant effect on trade of other Members” and should be notified pursuant to Article 2.9, Article 2.10, Article 3.2, Article 5.6, Article 5.7 or Article 7.2 of the TBT Agreement or this Chapter, a Party shall consider, *inter alia*, the relevant *Decisions and Recommendations Adopted by the WTO Committee on Technical Barriers to Trade Since 1 January 1995* (G/TBT/1/Rev. 10).

9. Any Party publishing a notice and filing a notification in accordance with Article 2.9, Article 3.2, Article 5.6 or Article 7.2 of the TBT Agreement or this Chapter shall:

- (a) include in the notification an explanation of the objectives of the proposal and how it would address those objectives; and
- (b) transmit the notification and the proposal electronically to the other Parties through their enquiry points established in accordance with Article 10 of the TBT Agreement, at the same time as it notifies WTO Members.

10. Each Party shall normally allow 60 days after it transmits a proposal under paragraph 9 for another Party or an interested person of another Party to provide comments in writing on the proposal. A Party shall consider any reasonable request from another Party or an interested person of another Party for extending the comment period. A Party that is able to provide a time limit beyond 60 days, such as 90 days, is encouraged to do so.

11. Each Party is encouraged to provide sufficient time between the end of the comment period and the adoption of the notified technical regulation or conformity assessment procedure for its consideration of, and preparation of responses to, the comments received.

12. Each Party shall endeavour to notify WTO Members of the final text of a technical regulation or conformity assessment procedure at the time the text is adopted or published, as an addendum to the original notification of the proposed measure filed under Article 2.9, Article 3.2, Article 5.6 or Article 7.2 of the TBT Agreement or this Chapter.

13. A Party filing a notification in accordance with Articles 2.10 or 5.7 of the *TBT Agreement* and this Chapter, shall at the same time transmit the notification and text of the technical regulation or conformity assessment procedure electronically to the other Parties through the enquiry points referenced in paragraph 9(b) above.

14. No later than the date of publication of a final technical regulation or conformity assessment procedures that may have a significant effect on trade each Party shall, preferably by electronic means:<sup>6</sup>

- (a) make publically available an explanation of the objectives and how the final technical regulation or conformity assessment procedure achieves them;
- (b) provide as soon as possible but no later than 60 days after receiving a request from another Party a description of alternative approaches that the Party considered in developing the final technical regulation or conformity assessment procedure, if any, and the merits of the approach that the Party selected;
- (c) make publicly available the Party's responses to significant or substantive issues presented in comments received on the proposal for the technical regulation or conformity assessment procedure; and
- (d) provide as soon as possible but no later than 60 days after receiving a request from another Party, a description of significant revisions, if any,

---

<sup>6</sup> For greater certainty, no Party shall be required to provide a description of alternative approaches or significant revisions under subparagraphs (b) or (d) prior to the date of publication of the final technical regulation or conformity assessment procedure.

that the Party made to the proposal for the technical regulation or conformity assessment procedure, including those made in response to comments.

15. Further to Annex 3(J) of the TBT Agreement, each Party shall ensure that the publication of its central government standardizing body's work programme containing the standards it is currently preparing and the standards it has adopted is available through the central government standardising body's website or the website referenced in paragraph 4<sup>ter</sup> of this Article.

#### **Article 8.8: Compliance Period for Technical Regulations and Conformity Assessment Procedures**

1. For the purposes of applying Article 2.12 and Article 5.9 of the TBT Agreement, the term "reasonable interval" means normally a period of not less than six months, except when this would be ineffective in fulfilling the legitimate objectives pursued.

2. When feasible and appropriate, each Party shall endeavour to provide an interval of more than six months between the publication of final technical regulations and conformity assessment procedures and their entry into force.

3. Further to paragraphs 1 and 2 and for greater clarity, in setting a "reasonable interval" for a specific technical regulation or conformity assessment procedure, each Party shall ensure that it provides suppliers with a reasonable amount of time under the circumstances, to be able to demonstrate the conformity of their goods with the relevant requirements of the technical regulation or standard by the date of entry into force of the technical regulation or conformity assessment procedure. In doing so, each Party shall endeavour to take into account the resources available to suppliers.

#### **Article 8.9: Cooperation and Trade Facilitation**

1. Further to Article 5, Article 6 and Article 9 of the TBT Agreement, the Parties recognise that a broad range of mechanisms exist to facilitate the acceptance of conformity assessment results. In this regard, a Party may:

- (a) implement mutual recognition of the results of conformity assessment procedures performed by bodies located in each other's territory with respect to specific technical regulations;
- (b) recognise existing regional and international mutual recognition arrangements between or among accreditation bodies or conformity assessment bodies;
- (c) use accreditation to qualify conformity assessment bodies, particularly international systems of accreditation;

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (d) designate conformity assessment bodies or recognise the other Party's designation of conformity assessment bodies;
- (e) unilaterally recognise the results of conformity assessment procedures performed in the other Party's territory; and
- (f) accept a supplier's declaration of conformity.

2. The Parties recognise that a wide range of mechanisms exist to support greater regulatory alignment and to eliminate unnecessary technical barriers to trade in the region, including:

- (a) regulatory dialogue and cooperation to, *inter alia*:
  - (i) exchange information on regulatory approaches and practices;
  - (ii) promote the use of good regulatory practices to improve the efficiency and effectiveness of technical regulations, standards and conformity assessment procedures;
  - (iii) provide technical advice and assistance, on mutually agreed terms and conditions, to improve practices related to the development, implementation and review of technical regulations, standards, conformity assessment procedures and metrology; or
  - (iv) provide technical assistance and cooperation, on mutually agreed terms and conditions, to build capacity and support the implementation of this Chapter;
- (b) greater alignment of national standards with relevant international standards, except where inappropriate or ineffective;
- (c) facilitation of the greater use of relevant international standards, guides and recommendations as the basis for technical regulations and conformity assessment procedures; and
- (d) promotion of the acceptance as equivalent technical regulations of another Party.

3. With respect to the mechanisms listed in paragraphs 1 and 2, the Parties recognise that the choice of the appropriate mechanism in a given regulatory context will depend on a variety of factors, such as the product and sector involved, the volume and direction of trade, the relationship between Parties' respective regulators, the legitimate objectives pursued and the risks of non-fulfilment of those objectives.

4. The Parties shall intensify their exchange and collaboration on mechanisms to facilitate the acceptance of conformity assessment results, to support greater regulatory alignment and to eliminate unnecessary technical barriers to trade in the region.
5. A Party shall, upon request of another Party, give due consideration to any sector specific proposal for cooperation under this Chapter.
6. Further to Article 2.7 of the TBT Agreement, a Party shall, upon the request of another Party, explain the reasons why it has not accepted a technical regulation of that Party as equivalent.
7. The Parties shall encourage cooperation between their respective organisations responsible for standardisation, conformity assessment, accreditation and metrology, whether they be public or private, with a view to addressing issues covered by this Chapter.

**Article 8.10: Information Exchange and Technical Discussions**

1. A Party may request another Party to provide information on any matter arising under this Chapter. A Party so requested shall provide such information within a reasonable period of time, and where possible, by electronic means.
  2. A Party may request technical discussions with another Party with the aim of resolving any matter arising under this Chapter.
- 2bis.* With respect to technical regulations or conformity assessment procedures of local governments on the level directly below that of the central government that may have a significant effect on trade, a Party may request technical discussions with another Party regarding such matters.
3. The relevant Parties shall discuss the matter raised within 60 days of the request. If a requesting Party believes that the matter is urgent, it may request that any discussions take place within a shorter time frame. In such cases, the responding Party shall give positive consideration to such a request.
  4. The Parties shall endeavour to resolve the matter as expeditiously as possible, recognising that the time required to resolve a matter will depend on a variety of factors, and that it may not be possible to resolve every matter through technical discussions.
  5. Unless the Parties participating in the technical discussions otherwise agree, the discussions and any information exchanged in the course of the discussions, shall be confidential and without prejudice to the rights and obligations of the participating Parties under this Agreement, the WTO Agreement, or any other agreement to which both Parties are a party.

6. Requests for information or technical discussions and communications shall be conveyed through the respective Chapter Coordinators.

#### **Article 8.11: Committee on Technical Barriers to Trade**

1. The Parties hereby establish the Committee on Technical Barriers to Trade (the Committee), which shall comprise representatives of each Party.

2. Through the Committee, the Parties shall intensify their joint work in the fields of technical regulations, conformity assessment procedures and standards with a view to facilitating trade between and among the Parties.

3. The Committee's functions may include:

- (a) monitoring the implementation and operation of this Chapter, including its Annexes and any other commitments agreed under this Chapter, and identifying any potential amendments to or interpretations of such commitments pursuant to the Chapter 27 (Administrative and Institutional Provisions);
- (b) monitoring any technical discussions on matters arising under the Chapter requested pursuant to paragraphs 2 or *2bis* of Article 8.10 (Information Exchange and Technical Discussions);
- (c) agreeing to priority areas of mutual interest for future work under this Chapter and considering proposals for new sector specific or other initiatives;
- (d) encouraging cooperation between and among the Parties in matters pertaining to this Chapter, including the development, review, or modification of technical regulations, standards and conformity assessment procedures;
- (e) encouraging cooperation between and among non-governmental bodies in the Parties' territories, as well as cooperation between governmental and non-governmental bodies in the Parties' territories in matters pertaining to this Chapter;
- (f) facilitating the identification of technical capacity needs;
- (g) encouraging the exchange of information between and among Parties and their relevant non-governmental bodies, where appropriate, on the development of common approaches regarding matters under discussion in non-governmental, regional, plurilateral and multilateral bodies or systems that develop standards, guides, recommendations, policies or other procedures relevant to this Chapter;

**Subject to Legal Review in English, Spanish and French

- (h) at a Party's request, encouraging the exchange of information among the Parties regarding specific technical regulations, standards and conformity assessment procedures of non-Parties as well as systemic issues, with a view to fostering a common approach;
  - (i) taking any other steps the Parties consider will assist them in implementing this Chapter and the TBT Agreement;
  - (j) reviewing this Chapter in light of any developments under the TBT Agreement, and developing recommendations for amendments to this Chapter in light of those developments; and
  - (k) reporting to the TPP Commission on the implementation and operation of this Chapter.
4. The Committee may establish working groups to carry out these functions.
5. Each Party shall designate a Chapter Coordinator, and shall provide the other Parties with the name of its designated Chapter Coordinator, the contact details of the relevant officials in that organisation, including telephone, fax, email and other relevant details.
6. A Party shall notify the other Parties promptly of any change of its Chapter Coordinator or any amendments to the details of the relevant officials.
7. The responsibilities of each Chapter Coordinator shall include:
- (a) communicating with the other Parties' Chapter Coordinators, including facilitating discussions, requests and the timely exchange of information on matters arising under this Chapter;
  - (b) communicating with and coordinating the involvement of relevant government agencies, including regulatory authorities, in its territories on relevant matters pertaining to this Chapter;
  - (c) consulting and, where appropriate, coordinating with interested persons in its territory on relevant matters pertaining to this Chapter; and
  - (d) additional responsibilities as the Committee may specify.
8. The Committee shall meet within one year of the date of entry into force of this Agreement and thereafter as agreed by the Parties. The Committee shall carry out its work through communication means agreed by the Parties, which may include e-mail, teleconference, video-conference, meetings at the margins of other regional or international fora, or other means.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

9. Decisions of the Committee shall be taken by consensus.
10. In determining what activities the Committee shall undertake, the Parties shall consider work that is being undertaken in other fora, with a view to ensuring that any activities undertaken by the Committee do not unnecessarily duplicate that work.

**Article 8.12: Annexes**

1. Except for the Annexes on Proprietary Formulas for Prepackaged Foods and Food Additives, Cosmetics Products, Medical Devices and Pharmaceutical Products, where scope is defined in each respective Annex, the Annexes shall have the same scope as set out in Article 8.2: Scope as germane to the product specified within each relevant Annex.
2. The rights and obligations set out in each Annex to this chapter apply only to the sector specified in the applicable Annex, and shall not affect any Party's rights and obligations under any other Annex.
3. Unless the Parties otherwise agree, no later than five years after the date of entry into force of this Agreement, and thereafter at least once every five years, unless the Parties otherwise agree, the Committee shall:
  - (a) review implementation of the Annexes, with a view to strengthen or improve them and, where appropriate, make recommendations to enhance alignment of the Parties' respective standards, technical regulations and conformity assessment procedures in the sectors covered by the Annexes; and
  - (b) consider whether the development of annexes concerning other sectors would further the objectives of this Chapter or the Agreement and decide whether to recommend to the Commission that the Parties initiate negotiations to conclude annexes covering such sectors.

## **ANNEX 8-A: WINE AND DISTILLED SPIRITS**

### *Scope*

1. This Annex applies to wine and distilled spirits.
2. For the purposes of this Annex:

**container** means any bottle, barrel, cask, or other closed receptacle, irrespective of size or of the material from which it is made, used for the sale of wine or distilled spirits at retail;

**distilled spirits** means a potable alcoholic distillate, including spirits of wine, whiskey, rum, brandy, gin, tequila, mezcal and all dilutions or mixtures thereof for consumption;

**label** means any brand, mark, pictorial or other descriptive matter that is written, printed, stencilled, marked, embossed or impressed on, or firmly affixed to the primary container of wine or distilled spirits;

**oenological practices** means winemaking materials, processes, treatments, and techniques, but does not include labelling, bottling, or packaging for final sale;

**single field of vision** means any part of the surface of a primary container, excluding its base and cap, that can be seen without having to turn the container;

**supplier** means a producer, importer, exporter, bottler or wholesaler;

**wine** means a beverage that is produced by the complete or partial alcoholic fermentation exclusively of fresh grapes, grape must, or products derived from fresh grapes in accordance with oenological practices that the country in which the wine was produced authorises under its domestic laws and regulations.<sup>7</sup>

3. Each Party shall make information about its domestic laws and regulations concerning wine and distilled spirits publicly available.
4. A Party may require that suppliers ensure that any statements that the Party requires to be placed on wine and distilled spirits labels are:
  - (a) clear, specific, truthful, accurate, and not misleading to the consumer; and
  - (b) legible to the consumer; and that such labels be firmly affixed.

---

<sup>7</sup> For the United States, wine means a beverage that is produced by the complete or partial alcoholic fermentation exclusively of fresh grapes, grape must, or products derived from fresh grapes in accordance with oenological practices that the country in which the wine was produced authorises under its domestic laws and regulations, and that contains an alcohol content of not less than 7 percent and not more than 24 percent.

for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

5. For greater certainty, with respect to paragraphs 4, 6 and 11, where there is more than one label on a container of imported wine or distilled spirits, a Party may require that each label be visible and not obscure mandatory information on the other label.

6. Where a Party requires a supplier to indicate information on a distilled spirits label, the Party shall permit the supplier to indicate such information on a supplementary label affixed to the distilled spirits container. Each Party shall permit a supplier to affix the supplementary label on the container of the imported distilled spirits after importation but prior to offering the product for sale in the Party's territory, and may require that the supplier affix the supplementary label prior to release from customs. For greater certainty, a Party may require that information indicated on a supplementary label be clear, specific, truthful, accurate, legible, not misleading to the consumer, and firmly affixed to the container, as provided in paragraph 4.

7. Each Party shall permit the alcoholic content by volume to be indicated on a wine or distilled spirits label to be expressed by alc/vol (e.g., 12% alc/vol or alc12%vol), and to be indicated in percentage terms to a maximum of one decimal point (e.g., 12%, 12.0%, 12.1%, 12.2%).

8. Each Party shall permit suppliers to use the term "wine" as a product name. Each Party may require suppliers to indicate further information on wine labels concerning the type, category, class, or classification of the wine.

9. With respect to wine labels, each Party shall permit the information set out in subparagraphs 11 (a) to (d) below to be presented in a single field of vision for containers of wine. If these items are presented in a single field of vision, then the Party's requirements with respect to placement of these four items shall have been met. Each Party shall accept any of these items that appear outside a single field of vision provided its laws, regulations and requirements have been satisfied.

10. Notwithstanding paragraph 9, a Party may require net contents to be displayed on the principal display panel for a subset of less commonly used container sizes if specifically required by that Party's domestic laws or regulation.

11. If a Party requires a wine label to indicate information other than:

- (a) the product name;
- (b) country of origin;
- (c) net contents; or
- (d) alcohol content,

it shall permit the supplier to indicate the information on a supplementary label affixed to the wine container. Each Party shall permit the supplier to affix the supplementary label

on the container of the imported wine after importation but prior to offering the product for sale in the Party's territory, and may require that the supplier affix the supplementary label prior to release from customs. For greater certainty, a Party may require that information indicated on a supplementary label be clear, specific, truthful, accurate, legible, not misleading to the consumer, and firmly affixed to the container, as provided in paragraph 4.

12. Where a Party has more than one official language, it may require that information on a wine or distilled spirits label appear in equal prominence in each official language.

13. Each Party shall permit suppliers to place lot identification codes on wine and distilled spirits containers, provided that they are clear, specific, truthful, accurate and not misleading. Each Party may impose penalties for the removal or deliberate defacement of any lot identification code provided by the supplier and placed on the container. In doing so, each Party shall permit suppliers to determine:

- (a) where to place the lot identification codes on the containers, provided that such codes do not cover up other essential information printed on the label; and
- (b) the specific font size, readable phrasing, and formatting for the codes provided that lot identification codes are legible by either physical or electronic means.

14. No Party shall require a supplier to indicate any of the following information on wine or distilled spirits containers, labels or packaging:

- (a) date of production or manufacture;
- (b) date of expiration;
- (c) date of minimum durability; or
- (d) sell by date,

except that a Party may require suppliers to indicate a date of minimum durability or date of expiration on products<sup>8</sup> that on account of their packaging or container (such as bag-in-box wines or individual serving size wines), or the addition of perishable ingredients, could have a shorter date of minimum durability than would normally be expected by the consumer.

15. No Party shall require a supplier to place a translation of a trademark or trade name on a wine or distilled spirits container, label or packaging.

---

<sup>8</sup> For Peru, all distilled spirits with less than 10% alc/vol must have a date of minimum durability.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

16. Each Party shall not prevent imports of wine from other Parties solely on the basis that the wine labels include the following descriptors or adjectives describing the wine or relating to wine-making: chateau, classic, clos, cream, crusted/crusting, fine, late bottled vintage, noble, reserve, ruby, special reserve, solera, superior, sur lie, tawny, vintage, and vintage character.<sup>9 10 11</sup>

17. No Party shall require a supplier to disclose an oenological practice on a wine label or container except to meet a legitimate human health or safety objective with respect to the relevant oenological practice.

18. Each Party shall permit wine to be labelled as Icewine, ice wine, ice-wine, or a similar variation of those terms, only if the wine is made exclusively from grapes naturally frozen on the vine.<sup>12, 13</sup>

19. Each Party shall endeavour to base its quality and identity requirements for any specific type, category, class, or classification of distilled spirits solely on minimum ethyl alcohol content and the raw materials, added ingredients, and production procedures used to produce that specific type, category, class or classification of distilled spirits.

20. A Party shall not require imported wine or distilled spirits to be certified by an official certification body of the Party in whose territory the wine or distilled spirits were produced or by a certification body recognised by the Party in whose territory the wine or distilled spirits were produced regarding:

- (a) vintage, varietal, and regional claims for wine; or
- (b) raw materials and production processes for distilled spirits,

except that the Party may require that wine or distilled spirits be certified regarding (a) or (b) if the Party in whose territory the wine or distilled spirits were produced requires such certification, that wine be certified regarding (a) if the Party has a reasonable and

---

<sup>9</sup> This paragraph shall not apply to a Party if the Party has entered into an agreement with another country or group of countries no later than February 2003 that requires the Party to restrict the use of such terms on labels of wine sold in its territory.

<sup>10</sup> Nothing in this paragraph shall be construed to require Canada to apply this paragraph in a manner inconsistent with its obligations under Article A(3) of Annex V of the *EU-Canada Wine Agreement*.

<sup>11</sup> Nothing in this paragraph shall be construed to require Malaysia to apply this paragraph in a manner inconsistent with its Regulation 18(1A) of the *Food Regulations 1985* under the *Food Act 1983*.

<sup>12</sup> For Japan, this obligation will be met through implementation of “the standard on labelling of domestic wine” by its domestic producers, dated 23 December 1986, and any amendments thereto.

<sup>13</sup> The obligation in this paragraph will become effective for New Zealand three years after the date on which this Agreement enters into force for New Zealand. Once effective, New Zealand shall implement the obligation by ensuring that wine exported from New Zealand is labelled as icewine, ice wine, ice-wine, or a similar variation of these terms, only if such wine is made exclusively from grapes naturally frozen on the vine.

legitimate concern about a vintage, varietal, or regional claim for wine, and that distilled spirits be certified regarding (b) if certification is necessary to verify claims such as age, origin or standards of identity.

21. Where certification of wine is deemed necessary by a Party to protect human health and safety or to achieve other legitimate objectives, that Party shall consider the *Codex Alimentarius Guidelines for Design, Production, Issuance and Use of Generic Official Certificates* (CAC/GL 38-2001), in particular the use of the generic model official certificate, as amended from time-to-time, concerning official and officially recognised certificates.

22. A Party shall normally permit a wine or distilled spirits supplier to submit any required certification, test result or sample solely with the initial shipment of a particular brand, producer and lot. If a Party requires a supplier to submit a sample of the product for the purpose of the Party's procedure to assess conformity to its technical regulation or standard, it shall not require a sample quantity larger than is strictly necessary to complete the relevant conformity assessment procedure. Nothing in this provision precludes a Party from undertaking verification of test results or certification, for example, where a Party has information that a particular product may be non-compliant.

23. Except where problems of health and safety arise or threaten to arise for a Party, a Party shall not normally apply any final technical regulation, standard or conformity assessment procedure to wine or distilled spirits that have been placed on the market in the Party's territory before the date on which the technical regulation, standard or conformity assessment procedure enters into force, provided that said products are sold within a period that has been stipulated by the relevant authority, after the technical regulation, standard or conformity assessment procedure enters into force.

24. Each Party shall endeavour to assess other Parties' laws, regulations and requirements in respect of oenological practices, with the aim of reaching agreements providing for the mutual acceptance by the Parties of each other's respective mechanisms for regulating oenological practices, where appropriate.

## ANNEX 8-B: INFORMATION AND COMMUNICATIONS TECHNOLOGY PRODUCTS

### Section A: Information and Communication Technology (ICT) Products that Use Cryptography

1. This section applies to information and communication technology (ICT) products that use cryptography. For greater certainty, for purposes of this section, a “product” is a good and does not include financial instruments.

2. For the purposes of this section:

**cryptography** means the principles, means or methods for the transformation of data in order to hide its information content, prevent its undetected modification or prevent its unauthorized use; and is limited to the transformation of information using one or more secret parameters (e.g., crypto variables) or associated key management;

**encryption** means the conversion of data (plaintext) into a form that cannot be easily understood without subsequent re-conversion (ciphertext) through the use of a cryptographic algorithm;

**cryptographic algorithm** or **cipher** means a mathematical procedure or formula for combining a key with plaintext to create a ciphertext; and

**key** means a parameter used in conjunction with a cryptographic algorithm that determines its operation in such a way that an entity with knowledge of the key can reproduce or reverse the operation, while an entity without knowledge of the key cannot.

3. With respect to a product that uses cryptography and is designed for commercial applications, no Party may impose or maintain a technical regulation or conformity assessment procedure that requires a manufacturer or supplier of the product, as a condition of the manufacture, sale, distribution, import or use of the product, to:

- (a) transfer or provide access to a particular technology, production process, or other information (such as a private key or other secret parameter, algorithm specification or other design detail), that is proprietary to the manufacturer or supplier and relates to the cryptography in the product, to the Party or a person in the Party’s territory;
- (b) partner with a person in its territory; or
- (c) use or integrate a particular cryptographic algorithm or cipher,

other than where the manufacture, sale, distribution, import or use of the product is by or for the government of the Party.

4. Paragraph 3 shall not apply to: (a) requirements that a Party adopts or maintains relating to access to networks that are owned or controlled by the government, including those of central banks; or (b) measures taken pursuant to supervisory, investigatory or examination authority relating to financial institutions or markets. For greater certainty, nothing in this Section shall be construed to prevent law enforcement authorities from requiring service suppliers using encryption they control from providing, pursuant to legal procedures, unencrypted communications.

## **Section B: Electromagnetic Compatibility of Information Technology Equipment (ITE) Products**

1. This section applies to the electromagnetic compatibility of information technology equipment (ITE) products.

2. For the purposes of this section:

**ITE product** means any device or system or component thereof that has a primary function of entry, storage, display, retrieval, transmission, processing, switching, or control (or combinations thereof) of data or telecommunication messages by means other than radio transmission or reception and, for greater certainty, excludes any product or component thereof that has a primary function of radio transmission or reception;

**electromagnetic compatibility** means the ability of an equipment or system to function satisfactorily in its electromagnetic environment without introducing intolerable electromagnetic disturbances with respect to any other device or system in that environment; and

**supplier's declaration of conformity** means an attestation by a supplier that a product meets a specified standard or technical regulation based on an evaluation of the results of conformity assessment procedures.

3. If a Party requires positive assurance that an ITE product meets a standard or technical regulation for electromagnetic compatibility, it shall accept a supplier's declaration of conformity.<sup>14</sup>

4. The Parties recognise that a Party may require testing (e.g. by an independent accredited laboratory) in support of a supplier's declaration of conformity, registration of the supplier's declaration of conformity, or submission of evidence necessary to support the supplier's declaration of conformity.

5. Nothing in paragraph 3 prevents a Party from verifying a supplier's declaration of conformity.

---

<sup>14</sup> Nothing in this paragraph shall be construed to require Mexico to apply this paragraph in a manner inconsistent with its Ley Federal Sobre Metrología y Normalización.

6. Paragraph 3 shall not apply with respect to any product:
  - (a) that a Party regulates as a medical device, or a medical device system, or a component of a medical device or medical device system; or
  - (b) for which the Party demonstrates that there is a high risk that the product will cause harmful electromagnetic interference with a safety or radio transmission or reception device or system.

### **Section C: Regional Cooperation Activities on Telecommunications Equipment**

1. This section applies to telecommunications equipment.
2. The Parties are encouraged to implement the APEC Mutual Recognition Arrangement for Conformity Assessment of Telecommunications Equipment (MRA-TEL) and the APEC Mutual Recognition Arrangement for Equivalence of Technical Requirements (MRA-ETR) with respect to each other or other arrangements to facilitate trade in telecommunications equipment.

## **ANNEX 8-C: PHARMACEUTICALS**

1. This Annex applies to the preparation, adoption and application of technical regulations, standards, conformity assessment procedures, marketing authorisation and notification procedures<sup>15</sup> of central government bodies, other than technical specifications prepared by governmental entities for production or consumption requirements of such entities and sanitary or phytosanitary measures, that may affect trade in pharmaceuticals products between the Parties. A Party's obligations under this Annex apply to any product that the Party defines as a pharmaceutical product pursuant to paragraph 2. For the purpose of this Annex, preparation of a standard, technical regulation, conformity assessment procedure or marketing authorisation includes, as appropriate, the evaluation of the risks involved, the need to adopt a measure to address those risks, review of relevant scientific or technical information, and consideration of the characteristics or design of possible alternative approaches.

1 *bis*. Recognising that each Party is required to define the scope of products covered by this Annex pursuant to paragraph 2, for purposes of this Annex, a pharmaceutical product may include a human drug or biologic that is intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease or condition in humans or intended to affect the structure or any function of the body of a human.

2. Each Party shall define the scope of the products subject to its statutes and regulations for pharmaceutical products in its territory and make such information publicly available. Recognising that each Party is required to define the scope of products covered by this Annex pursuant to paragraph 2, for purposes of this Annex, a pharmaceutical product may include a human drug or biologic that is intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease or condition in humans or intended to affect the structure or any function of the body of a human.

3. Each Party shall identify the agency or agencies that are authorised to regulate pharmaceutical products in its territory and make such information publicly available.

4. Where more than one agency is authorised to regulate pharmaceutical products within the territory of a Party, the Party shall examine whether there is overlap or duplication in scope of those authorities and take reasonable measures to eliminate unnecessary duplication of any regulatory requirements resulting for pharmaceutical products.

5. The Parties shall seek to collaborate through relevant international initiatives, such as those aimed at harmonization, as well as regional initiatives in support of such

---

<sup>15</sup> The application of this Annex to marketing authorisations is without prejudice to whether a marketing authorisation meets the definition of a standard, technical regulation or conformity assessment procedure.

international initiatives, as appropriate, to improve the alignment of their respective pharmaceutical products regulations and regulatory activities.

6. Each Party shall consider relevant scientific or technical guidance documents developed through international collaborative efforts with respect to pharmaceutical products when developing or implementing regulations for marketing authorisations of pharmaceuticals products. Each Party is encouraged to consider regionally-developed scientific or technical guidance documents that are aligned with such efforts, as appropriate.

*6bis.* Each Party shall observe the obligations in Articles 2.1 and 5.1.1 of the TBT Agreement with respect to any marketing authorisation or notification procedure or element thereof that it prepares, adopts or applies for pharmaceutical products that do not fall within the definition of a technical regulation or conformity assessment procedure.

7. Each Party recognises that the responsibility of providing sufficient information on which a Party makes regulatory determinations on a pharmaceutical product rests with the applicant.

*7bis.* Each Party shall make its determination on whether to grant marketing authorisation for a specific pharmaceutical product on the basis of:

- (a) information, including, where appropriate, pre-clinical and clinical data, on safety and efficacy;
- (b) information on manufacturing quality of the product;
- (c) labelling information related to safety, efficacy and use of the product; and
- (d) other matters that may directly affect the health or safety of the user of the product.

To this end, no Party shall require sale or related financial data concerning the marketing of the product as part of such a determination. Further, each Party shall endeavour not to require pricing data as part of the determination.

8. Each Party shall administer any marketing authorisation process it maintains for pharmaceutical products in a timely, reasonable, objective, transparent, and impartial manner, and identify and manage any conflicts of interest so as to mitigate any associated risks.

- (a) Each Party shall provide an applicant seeking marketing authorisation for a pharmaceutical product with its determination regarding marketing authorisation within a reasonable period of time. The Parties recognise that the reasonable period of time required to make a marketing authorisation determination may be affected by factors such as the novelty of a product or legitimate regulatory implications that may arise.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (b) If a Party determines that a marketing authorisation application for a pharmaceutical product under review in its jurisdiction has deficiencies that have led or will lead to a non-authorisation decision, that Party shall inform the applicant seeking marketing authorisation and provide reasons why the application is deficient.
- (c) If a Party requires marketing authorisation for a pharmaceutical product, the Party shall ensure that any marketing authorisation determinations are subject to an appeal or review process that may be invoked at the request of the applicant seeking market authorisation. For greater certainty, the Party may maintain an appeal or review process that is either internal to the regulatory body responsible for the marketing authorisation determination, such as a dispute resolution or review process, or external to the regulatory body.
- (d) Where a Party requires periodic reauthorisation for a pharmaceutical product that has previously received marketing authorisation by the Party, the Party shall allow the pharmaceutical product to remain on its market under the conditions of the previous marketing authorisation pending its decision on the periodic reauthorisation, except where a Party identifies a significant health or safety concern.<sup>16</sup>

For greater certainty, the Parties recognise that an application for reauthorisation that is not timely filed, that contains insufficient information, or that is otherwise inconsistent with a Party's requirements is deficient for purposes of the reauthorisation decision

9. When developing regulatory requirements for pharmaceutical products, each Party shall consider its available resources and technical capacity so as to minimise the implementation of requirements that could:

- (a) inhibit the effectiveness of the procedure for ensuring the safety, efficacy or manufacturing quality of pharmaceutical products; or
- (b) lead to substantial delays in marketing authorisation regarding pharmaceutical products for sale on its market.

---

<sup>16</sup> Viet Nam may comply with its obligations under this paragraph by allowing for applications for reauthorisation to be filed within the 12 month period, prior to the expiry date of the marketing authorisation, or within a period prior to the expiry date of the marketing authorisation that is six months longer than the period provided for in Viet Nam's Ministry of Health Circular on Registration of Drugs, or subsequent relevant instrument, for the Ministry to grant a reauthorisation or re-registration application for a previously registered pharmaceutical product, whichever is longer.

10. No Party shall require that a pharmaceutical product receive marketing authorisation from the country of manufacture as a condition for the product receiving marketing authorisation from the Party.<sup>17</sup>

11. With respect to applications for marketing authorisation for pharmaceutical products, each Party shall accept for review safety, efficacy, and manufacturing quality information submitted by a person seeking marketing authorisation in a format that is consistent with the principles found in the *International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use* Common Technical Document (CTD), including any amendments thereto, recognising that the CTD does not necessarily address all aspects relevant to a Party's determination to approve marketing authorisation for a particular product.<sup>18</sup>

12. The Parties shall seek to improve their collaboration on pharmaceutical inspection, and to that end each Party shall, with respect to the inspection of pharmaceuticals products within the territory of another Party:

- (a) notify that Party prior to conducting an inspection, unless there are reasonable grounds to believe that doing so could prejudice the effectiveness of the inspection;
- (b) where practicable, permit representatives of that Party's competent authority to observe such inspection; and
- (c) notify that Party of its findings as soon as possible following an inspection and, if the findings will be publicly released, no later than a reasonable time before any such release. However, the inspecting Party is not required to notify its findings if it considers that its findings are confidential and should not be disclosed.

*12bis:* The Parties shall seek to apply relevant scientific guidance documents developed through international collaborative efforts with respect to inspection of pharmaceuticals.

## **ANNEX 8-D: COSMETICS**

1. This Annex applies to the preparation, adoption and application of technical regulations, standards, conformity assessment procedures, marketing authorisation and

notification procedures<sup>19</sup> of central government bodies, other than technical specifications prepared by governmental entities for production or consumption requirements of such entities and sanitary or phytosanitary measures, that may affect trade in cosmetic products between the Parties. A Party's obligations under this Annex apply to any product that the Party defines as a cosmetic product pursuant to paragraph 2. For the purpose of this Annex, preparation of a standard, technical regulation, conformity assessment procedure or marketing authorisation includes, as appropriate, the evaluation of the risks involved, the need to adopt a measure to address those risks, review of relevant scientific or technical information, and consideration of the characteristics or design of possible alternative approaches.

*1bis.* Recognising that each Party is required to define the scope of products covered by this Annex pursuant to paragraph 2, for purposes of this Annex, a cosmetic product may include a product intended to be rubbed, poured, sprinkled, or sprayed on, or otherwise applied to the human body including the mucus membrane of the oral cavity and teeth for cleansing, beautifying, protecting, promoting attractiveness, or altering the appearance.

2. Each Party shall define the scope of the products subject to its statutes and regulations for cosmetic products in its territory and make such information publicly available.

3. Each Party shall identify the agency or agencies that are authorised to regulate cosmetic products in its territory and make such information publicly available.

4. Where more than one agency is authorised to regulate cosmetic products within the territory of a Party, the Party shall examine whether there is overlap or duplication in scope of those authorities and eliminate unnecessary duplication of any regulatory requirements resulting for cosmetic products.

5. The Parties shall seek to collaborate through relevant international initiatives, such as those aimed at harmonization, as well as regional initiatives in support of such international initiatives, as appropriate, to improve the alignment of their respective cosmetic products regulations and regulatory activities.

6. Each Party shall consider relevant scientific or technical guidance documents developed through international collaborative efforts with respect to cosmetic products when developing or implementing regulations for cosmetic products. Each Party is encouraged to consider regionally- developed scientific or technical guidance documents that are aligned with such efforts, as appropriate.

---

<sup>19</sup> The application of this Annex to marketing authorisations is without prejudice to whether a marketing authorisation meets the definition of a standard, technical regulation or conformity assessment procedure.

*6bis.* Each Party shall observe the obligations in Article 2.1 and Article 5.1.1 of the TBT Agreement with respect to any marketing authorisation or notification procedure or element thereof that it prepares, adopts or applies for cosmetic products that do not fall within the definition of a technical regulation or conformity assessment procedure.

7. Each Party shall ensure that when regulating cosmetic products it applies a risk-based approach.

*7bis.* Further to paragraph 7, each Party shall, when regulating cosmetic products, take into account that cosmetic products are generally expected to pose less potential risk to human health or safety than medical devices or pharmaceutical products.

*7ter.* No Party shall conduct separate marketing authorisation processes or sub-processes for cosmetic products that differ only with respect to shade extensions or fragrance variants, except where a Party identifies a significant health or safety concern.

8. Each Party shall administer any marketing authorisation process it maintains for cosmetics products in a timely, reasonable, objective, transparent, and impartial manner, and identify and manage any conflicts of interest so as to mitigate any associated risks.

- (a) If a Party requires marketing authorisation for a cosmetic product, that Party shall provide the cosmetic product marketing authorisation applicant with its determination regarding marketing authorisation within a reasonable period of time.
- (b) If a Party requires marketing authorisation for a cosmetic product and it determines that a marketing authorisation application for a cosmetic product under review in its jurisdiction has deficiencies that have led or will lead to a non-authorisation decision, that Party shall inform the applicant seeking marketing authorisation and provide reasons why the application is deficient.
- (c) If a Party requires marketing authorisation for a cosmetic product, the Party shall ensure that any marketing authorisation determinations are subject to an appeal or review process that may be invoked at the request of the applicant seeking market authorisation. For greater certainty, the Party may maintain an appeal or review process that is either internal to the regulatory body responsible for the marketing authorisation determination, such as a dispute resolution or review process, or external to the regulatory body.

- (d) When a Party has granted marketing authorisation for a cosmetic product in its territory, the Party shall not subject the product to periodic re-assessment procedures as a condition of retaining its marketing authorisation.

*8bis.* Where a Party maintains a marketing authorisation process for cosmetic products, that Party shall consider to replace this process with other mechanisms such as voluntary or mandatory notification and post-market surveillance.

9. When developing regulatory requirements for cosmetic products, each Party shall consider its available resources and technical capacity so as to minimise the implementation of requirements that could:

- (a) inhibit the effectiveness of the procedure for ensuring the safety or manufacturing quality of cosmetic products; or
- (b) lead to substantial delays in marketing authorisation regarding cosmetic products for sale on its market.

*9bis.* No Party shall require the submission of marketing information, including with respect to prices or cost, as a condition for the product receiving marketing authorisation.

*9ter.* A Party shall not require a cosmetic product to be labelled with a marketing authorisation or notification number.<sup>20</sup>

10. No Party shall require that a cosmetic product receive marketing authorisation from the country of manufacture, as a condition for the product receiving marketing authorisation from the Party. For greater certainty, this provision does not prohibit a Party from accepting a prior marketing authorisation issued by another regulatory authority as evidence that a product may meet its own requirements.

*10bis.* No Party shall require that a cosmetic product be accompanied by a certificate of free sale as a condition of marketing, distribution or sale in the Party's territory.

<sup>20</sup> This paragraph does not apply to Chile and Peru. Within a period of no more than five years from the date of the entry into force of this Agreement, Chile and Peru shall each review their respective labelling requirements in order to examine whether other regulatory mechanisms can be implemented, in a manner consistent with their obligations under this Chapter and the TBT Agreement. Chile and Peru shall separately report to the Committee about their review upon request of another Party.

11. Where a Party requires a manufacturer or supplier of a cosmetic product to indicate information on the product's label, the Party shall permit the manufacturer or supplier to indicate the required information by relabeling the product or supplementary labelling of the product in accordance with the Party's domestic requirements after importation but prior to offering the product for sale or supply in the Party's territory.

12. No Party shall require animal testing for determining the safety of cosmetic products, unless there is no validated alternative method available to otherwise assess safety. A Party may, however, consider the results of animal testing in determining the safety of a cosmetic product.

13. Where a Party prepares or adopts good manufacturing practice guidelines for cosmetic products, it shall use relevant international standards for cosmetic products, or the relevant parts of them, as a basis for its guidelines except when such international standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued.

14. The Parties shall endeavour to share, subject to domestic laws and regulations, information resulting from post-market surveillance of cosmetic products.

15. Each Party shall endeavour to share information on its findings or the findings of its relevant institutions regarding cosmetics ingredients.

15*bis*. Each Party shall endeavour to avoid re-testing or re-evaluating cosmetic products that differ only with respect to shade extensions or fragrance variants, except when conducted for health or safety purposes.

## **ANNEX 8-E: MEDICAL DEVICES**

1. This Annex applies to the preparation, adoption and application of technical regulations, standards, conformity assessment procedures, marketing authorisation and notification procedures<sup>21</sup> of central government bodies, other than technical specifications prepared by governmental entities for production or consumption requirements of such entities and sanitary or phytosanitary measures, that may affect trade in medical devices products between the Parties. A Party's obligations under this Annex apply to any product that the Party defines as a medical device pursuant to paragraph 2. For the purpose of this Annex, preparation of a standard, technical regulation, conformity assessment procedure or marketing authorisation includes, as appropriate, the evaluation of the risks involved, the need to adopt a measure to address those risks, review of relevant scientific or technical information, and consideration of the characteristics or design of possible alternative approaches.

*1bis.* Recognising that each Party is required to define the scope of products covered by this Annex pursuant to paragraph 2, each Party should define the scope of products subject to its statutes and regulations for medical devices in a manner that is consistent with the meaning assigned to the term "medical device" in the Global Harmonization Task Force Final Document entitled "Definition of the Terms 'Medical Device' and 'In Vitro Diagnostic (IVD) Medical Device'".

2. Each Party shall define the scope of the products subject to its statutes and regulations for medical devices in its territory and make such information publicly available.

3. Each Party shall identify the agency or agencies that are authorized to regulate medical devices in its territory and make such information publicly available.

4. Where more than one agency is authorised to regulate cosmetic products within the territory of a Party, the Party shall examine whether there is overlap or duplication in scope of those authorities and eliminate unnecessary duplication of any regulatory requirements resulting for cosmetic products.

5. The Parties shall seek to collaborate through relevant international initiatives, such as those aimed at harmonization, as well as regional initiatives in support of such international initiatives, as appropriate, to improve the alignment of their respective cosmetic products regulations and regulatory activities.

devices. Each Party is encouraged to consider regionally-developed scientific or technical guidance documents that are aligned with such efforts, as appropriate.

*6bis.* Each Party shall observe the obligations in Article 2.1 and Article 5.1.1 of the TBT Agreement with respect to any marketing authorisation or notification procedure or element thereof that it prepares, adopts or applies for medical devices that do not fall within the definition of a technical regulation or conformity assessment procedure.

7. Recognising that different medical devices pose different levels of risk, each Party shall classify medical devices based on risk, taking into account scientifically relevant factors. Each Party shall ensure that, when it regulates a medical device, it regulates the device consistent with the classification the Party has assigned it.

*7bis.* Each Party recognises that the responsibility of providing sufficient information on which a Party makes regulatory determinations on a medical device rests with the applicant.

8. Each Party shall make its determination on whether to grant marketing authorisation for a specific medical device on the basis of:

- (a) information, including, where appropriate, clinical data, on safety and efficacy;
- (b) information on performance, design and manufacturing quality of the product;
- (c) labelling information related to safety, efficacy, and use of the product; and
- (d) other matters that may directly affect the health or safety of the user of the product.

To this end, no Party shall require sale, pricing, or related financial data concerning the marketing of the product as part of such a determination.

9. Each Party shall administer any marketing authorisation process it maintains for medical devices in a timely, reasonable, objective, transparent, and impartial manner, and identify and manage any conflicts of interest so as to mitigate any associated risks.

- (a) Each Party shall provide an applicant seeking marketing authorisation for a medical device with its determination regarding marketing authorisation within a reasonable period of time. The Parties recognise that the reasonable period of time required to make a marketing authorisation determination may be affected by factors such as the novelty of a product or legitimate regulatory implications that may arise.

- (b) If a Party determines that a marketing authorisation application for a medical device under review in its jurisdiction has deficiencies that have led or will lead to a non-authorisation decision, that Party shall inform the applicant seeking marketing authorisation and provide reasons why the application is deficient.
- (c) If a Party requires marketing authorisation for a medical device, the Party shall ensure that any marketing authorisation determinations are subject to an appeal or review process that may be invoked at the request of the applicant seeking market authorisation. For greater certainty, the Party may maintain an appeal or review process that is either internal to the regulatory body responsible for the marketing authorisation determination, such as a dispute resolution or review process, or external to the regulatory body.
- (d) Where a Party requires periodic re-authorisation for a medical device that has previously received marketing authorisation by the Party, the Party shall allow the medical device to remain on its market under the conditions of the previous marketing authorisation pending its decision on the periodic re-authorisation, except where a Party identifies a significant health or safety concern.

10. When developing regulatory requirements for medical devices, each Party shall consider its available resources and technical capacity so as to minimise the implementation of requirements that could:

- (a) inhibit the effectiveness of the procedure for ensuring the safety, efficacy or manufacturing quality of medical devices; or
- (b) lead to substantial delays in marketing authorisation regarding medical devices for sale on its market.

11. No Party shall require that a medical device receive marketing authorisation from country of manufacture as a condition for the medical device receiving marketing authorisation from the Party.<sup>22</sup>

## **ANNEX 8-F: PROPRIETARY FORMULAS FOR PREPACKAGED FOODS AND FOOD ADDITIVES**

1. This Annex applies to the preparation, adoption and application of technical regulations and standards of central government bodies that are related to prepackaged foods and food additives when sold as such, except that it does not apply to technical specifications prepared by governmental entities for production or consumption requirements of such entities or sanitary or phytosanitary measures.

2. The terms “food,” “food additive,” and “prepackaged” have the same meanings as set forth in the Codex General Standard for the Labelling of Pre-Packaged Food (CODEX STAN 1-1985) and the Codex General Standard for the Labelling of Food Additives When Sold as Such (CODEX STAN 107-1981), as amended from time-to-time.

3. Further to the TBT Agreement regarding the preparation, adoption and application of technical regulations and standards, when gathering information relating to proprietary formulas, each Party shall:

- (a) ensure that its information requirements are limited to what is necessary to achieve its legitimate objective; and
- (b) ensure that the confidentiality of information about products originating in the territory of another Party arising from or supplied in connection with the preparation, adoption, and application of technical regulations and standards is respected in the same way as for domestic products and in such manner that legitimate commercial interests are protected.

If a Party gathers confidential information relating to proprietary formulas, it may use such information in the course of administrative and judicial proceedings in accordance with its law, provided that the Party has procedures to maintain the confidentiality of the information in the course of such proceedings.

4. For greater certainty, nothing in paragraph 3 shall prevent a Party from requiring ingredients to be listed on labels consistent with CODEX STAN 1-1985 and CODEX STAN 107-1981, as amended from time-to-time, except when those standards would be an ineffective or inappropriate means for the fulfilment of a legitimate objective.

## **ANNEX8-G: ORGANIC PRODUCTS**

1. This Annex applies to a Party if that Party is developing or maintains standards, technical regulations, or conformity assessment procedures relating to the production, processing, or labeling of products as organic for sale or distribution within its territory.
2. Parties are encouraged to take steps to:
  - (a) exchange information on matters relating to organic production, certification of organic products, and related control systems, as appropriate; and
  - (b) cooperate with each other to develop, improve, and strengthen international guidelines, standards, and recommendations related to trade in organic products.
3. Where a Party maintains requirements relating to the production, processing, or labeling of products as organic, it shall enforce such requirements.
4. Each Party is encouraged to consider, as expeditiously as possible, a request for recognition or equivalence of the standards, technical regulations, or conformity assessment procedures relating to the production, processing, or labeling of products as organic of another Party. Each Party is encouraged to accept as equivalent or recognise the standards, technical regulations, or conformity assessment procedures relating to the production, processing, or labeling of products as organic of that other Party, provided the Party is satisfied that the standards, technical regulations, or conformity assessment procedures of the other Party adequately fulfill the objectives of the Party's standards, technical regulations, or conformity assessment procedures. Where a Party does not accept as equivalent or recognise the standards, technical regulations, or conformity assessment procedures relating to the production, processing, or labeling of products as organic of another Party, it shall, on the request of that other Party, explain its reasons.
5. Parties are encouraged to participate in technical exchanges to support improvement and greater alignment of standards, technical regulations, or conformity assessment procedures relating to the production, processing, or labeling of products as organic.

**CHAPTER 9**

**INVESTMENT**

**Section A**

**Article 9.1: Definitions**

For the purposes of this Chapter:

**Centre** means the International Centre for Settlement of Investment Disputes (ICSID) established by the ICSID Convention;

**claimant** means an investor of a Party that is a party to an investment dispute with another Party. If that investor is a natural person, who is a permanent resident of a Party and a national of another Party, that natural person may not submit a claim to arbitration against that latter Party;

**covered investment** means, with respect to a Party, an investment in its territory of an investor of another Party in existence as of the date of entry into force of this Agreement for those Parties or established, acquired, or expanded thereafter;

**disputing parties** means the claimant and the respondent;

**disputing party** means either the claimant or the respondent;

**enterprise** means an enterprise as defined in Article 1.3 (General Definitions), and a branch of an enterprise;

**enterprise of a Party** means an enterprise constituted or organised under the law of a Party, or a branch located in the territory of a Party and carrying out business activities there;<sup>1</sup>

**freely usable currency** means “freely usable currency” as determined by the International Monetary Fund under its *Articles of Agreement*;

**ICC Arbitration Rules** means the arbitration rules of the International Chamber of Commerce;

---

<sup>1</sup> For greater certainty, the inclusion of a “branch” in the definitions of “enterprise” and “enterprise of a Party” is without prejudice to a Party’s ability to treat a branch under its laws as an entity that has no independent legal existence and is not separately organised.

**Subject to Legal Review in English, Spanish and French

**ICSID Additional Facility Rules** means the *Rules Governing the Additional Facility for the Administration of Proceedings by the Secretariat of the International Centre for Settlement of Investment Disputes*;

**ICSID Convention** means the *Convention on the Settlement of Investment Disputes between States and Nationals of other States*, done at Washington, March 18, 1965;

**Inter-American Convention** means the *Inter-American Convention on International Commercial Arbitration*, done at Panama, January 30, 1975;

**investment** means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

- (a) an enterprise;
- (b) shares, stock and other forms of equity participation in an enterprise;
- (c) bonds, debentures, other debt instruments and loans;<sup>2,3</sup>
- (d) futures, options and other derivatives;
- (e) turnkey, construction, management, production, concession, revenue-sharing and other similar contracts;
- (f) intellectual property rights;
- (g) licences, authorisations, permits and similar rights conferred pursuant to the Party's law;<sup>4</sup> and

---

<sup>2</sup> Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt, such as claims to payment that are immediately due and result from the sale of goods or services, are less likely to have such characteristics.

<sup>3</sup> A loan issued by one Party to another Party is not an investment.

<sup>4</sup> Whether a particular type of licence, authorisation, permit or similar instrument (including a concession to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the Party's law. Among such instruments that do not have the characteristics of an investment are those that do not create any rights protected under the Party's law. For greater certainty, the foregoing is without prejudice to whether any asset associated with such instruments has the characteristics of an investment.

- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens and pledges,

but investment does not mean an order or judgment entered in a judicial or administrative action.

**investment agreement** means a written agreement<sup>5</sup> that is concluded and takes effect after the date of entry into force of this Agreement<sup>6</sup> between an authority at the central level of government<sup>7</sup> of a Party and a covered investment or an investor of another Party and that creates an exchange of rights and obligations, binding on both parties under the law applicable under Article 9.24(2) (Governing Law), on which the covered investment or the investor relies in establishing or acquiring a covered investment other than the written agreement itself, and that grants rights to the covered investment or investor:

- (a) with respect to natural resources that a national authority controls, such as oil, natural gas, rare earth minerals, timber, gold, iron ore and other similar resources,<sup>8</sup> including for their exploration, extraction, refining, transportation, distribution or sale;
- (b) to supply services on behalf of the Party for consumption by the general public for: power generation or distribution, water treatment or distribution,

---

<sup>5</sup> “Written agreement” refers to an agreement in writing, negotiated and executed by both parties, whether in a single instrument or in multiple instruments. For greater certainty:

- (a) a unilateral act of an administrative or judicial authority, such as a permit, licence, authorisation, certificate, approval, or similar instrument issued by a Party in its regulatory capacity, or a subsidy or grant, or a decree, order or judgment, standing alone; and
- (b) an administrative or judicial consent decree or order,

shall not be considered a written agreement.

<sup>6</sup> For greater certainty, a written agreement that is concluded and takes effect after the entry into force of this Agreement does not include the renewal or extension of an agreement in accordance with the provisions of the original agreement, and on the same or substantially the same terms and conditions as the original agreement, which has been concluded and entered in force prior to the entry into force of this Agreement.

<sup>7</sup> For the purposes of this definition, “authority at the central level of government” means, for unitary states, an authority at the ministerial level of government. Ministerial level of government means government departments, ministries or other similar authorities at the central level of government, but does not include: (a) a governmental agency or organ established by a Party’s constitution or a particular legislation that has a separate legal personality from government departments, ministries or other similar authorities under a Party’s law, unless the day to day operations of that agency or organ are directed or controlled by government departments, ministries or other similar authorities; or (b) a governmental agency or organ that acts exclusively with respect to a particular region or province.

<sup>8</sup> For the avoidance of doubt, this subparagraph does not include an investment agreement with respect to land, water or radio spectrum.

telecommunications, or other similar services supplied on behalf of the Party for consumption by the general public;<sup>9</sup> or

- (c) to undertake infrastructure projects, such as the construction of roads, bridges, canals, dams or pipelines or other similar projects; provided, however, that the infrastructure is not for the exclusive or predominant use and benefit of the government;

**investment authorisation**<sup>10</sup> means an authorisation that the foreign investment authority of a Party<sup>11</sup> grants to a covered investment or an investor of another Party;

**investor of a non-Party** means, with respect to a Party, an investor that attempts to make,<sup>12</sup> is making, or has made an investment in the territory of that Party, that is not an investor of a Party;

**investor of a Party** means a Party, or a national or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of another Party;

**LCIA Arbitration Rules** means the arbitration rules of the London Court of International Arbitration;

**negotiated restructuring** means the restructuring or rescheduling of a debt instrument that has been effected through (a) a modification or amendment of that debt instrument, as provided for under its terms, or (b) a comprehensive debt exchange or other similar process in which the holders of no less than 75 per cent of the aggregate principal amount of the outstanding debt under that debt instrument have consented to the debt exchange or other process;

---

<sup>9</sup> For the avoidance of doubt, this subparagraph does not cover correctional services, healthcare services, education services, childcare services, welfare services or other similar social services.

<sup>10</sup> For greater certainty, the following are not encompassed within this definition: (i) actions taken by a Party to enforce laws of general application, such as competition, environmental, health or other regulatory laws; (ii) non-discriminatory licensing regimes; and (iii) a Party's decision to grant to a covered investment or an investor of another Party a particular investment incentive or other benefit, that is not provided by a foreign investment authority in an investment authorisation.

<sup>11</sup> For the purposes of this definition, "foreign investment authority" means, as of the date of entry into force of this Agreement: (a) for Australia, the Treasurer of the Commonwealth of Australia under Australia's foreign investment policy including the *Foreign Acquisitions and Takeovers Act 1975*; (b) for Canada, the Minister of Industry, but only when issuing a notice under Section 21 or 22 of the *Investment Canada Act*; (c) for Mexico, the National Commission of Foreign Investments (*Comisión Nacional de Inversiones Extranjeras*); and (d) for New Zealand, the Minister of Finance, the Minister of Fisheries or the Minister for Land Information, to the extent that they make a decision to grant consent under the *Overseas Investment Act 2005*.

<sup>12</sup> For greater certainty, the Parties understand that, for the purposes of the definitions of "investor of a non-Party" and "investor of a Party", an investor "attempts to make" an investment when that investor has taken concrete action or actions to make an investment, such as channelling resources or capital in order to set up a business, or applying for a permit or licence.

**New York Convention** means the *Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York, June 10, 1958;

**non-disputing Party** means a Party that is not a party to an investment dispute;

**protected information** means confidential business information or information that is privileged or otherwise protected from disclosure under a Party's law, including classified government information;

**respondent** means the Party that is a party to an investment dispute;

**Secretary-General** means the Secretary-General of ICSID; and

**UNCITRAL Arbitration Rules** means the arbitration rules of the United Nations Commission on International Trade Law.

**Article 9.2: Scope**

1. This Chapter shall apply to measures adopted or maintained by a Party relating to:
  - (a) investors of another Party;
  - (b) covered investments; and
  - (c) with respect to Article 9.9 (Performance Requirements) and Article 9.15 (Investment and Environmental, Health and other Regulatory Objectives), all investments in the territory of that Party.
2. A Party's obligations under this Chapter shall apply to measures adopted or maintained by:
  - (a) the central, regional or local governments or authorities of that Party; and
  - (b) any person, including a state enterprise or any other body, when it exercises any governmental authority delegated to it by central, regional or local governments or authorities of that Party.<sup>13</sup>

---

<sup>13</sup> For greater certainty, governmental authority is delegated under the Party's law, including through a legislative grant or a government order, directive or other action transferring or authorising the exercise of governmental authority.

**Subject to Legal Review in English, Spanish and French

3. For greater certainty, this Chapter shall not bind a Party in relation to an act or fact that took place or a situation that ceased to exist before the date of entry into force of this Agreement for that Party.

**Article 9.3: Relation to Other Chapters**

1. In the event of any inconsistency between this Chapter and another Chapter of this Agreement, the other Chapter shall prevail to the extent of the inconsistency.

2. A requirement of a Party that a service supplier of another Party post a bond or other form of financial security as a condition for the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter shall apply to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that the bond or financial security is a covered investment.

3. This Chapter shall not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter 11 (Financial Services).

**Article 9.4: National Treatment<sup>14</sup>**

1. Each Party shall accord to investors of another Party treatment no less favourable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

3. For greater certainty, the treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favourable than the most favourable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

---

<sup>14</sup> For greater certainty, whether treatment is accorded in “like circumstances” under Article 9.4 (National Treatment) or Article 9.5 (Most-Favoured-Nation Treatment) depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors or investments on the basis of legitimate public welfare objectives.

**Article 9.5: Most-Favoured-Nation Treatment**

1. Each Party shall accord to investors of another Party treatment no less favourable than that it accords, in like circumstances, to investors of any other Party or of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of investors of any other Party or of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.
3. For greater certainty, the treatment referred to in this Article does not encompass international dispute resolution procedures or mechanisms, such as those included in Section B.

**Article 9.6: Minimum Standard of Treatment<sup>15</sup>**

1. Each Party shall accord to covered investments treatment in accordance with applicable customary international law principles, including fair and equitable treatment and full protection and security.
2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligations in paragraph 1 to provide:
  - (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and
  - (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.

**Article 9.21: Selection of Arbitrators**

1. Unless the disputing parties agree otherwise, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.
2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.
3. If a tribunal has not been constituted within a period of 75 days after the date that a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed. The Secretary-General shall not appoint a national of either the respondent or the Party of the claimant as the presiding arbitrator unless the disputing parties agree otherwise.
4. For the purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:
  - (a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;
  - (b) a claimant referred to in Article 9.18.1(a) (Submission of a Claim to Arbitration) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and
  - (c) a claimant referred to in Article 9.18.1(b) (Submission of a Claim to Arbitration) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.
5. In the appointment of arbitrators to a tribunal for claims submitted under Article 9.18.1(a)(i)(B) (Submission of a Claim to Arbitration), Article 9.18.1(b)(i)(B), Article 9.18.1(a)(i)(C) or Article 9.18.1(b)(i)(C), each disputing party shall take into account the expertise or relevant experience of particular candidates with respect to the relevant governing law under Article 9.24.2 (Governing Law). If the parties fail to agree on the appointment of the presiding arbitrator, the Secretary-General shall also take into account the expertise or relevant experience of particular candidates with respect to the relevant governing law under Article 9.24.2.

6. The Parties shall, prior to the entry into force of this Agreement, provide guidance on the application of the Code of Conduct for Dispute Settlement Proceedings under Chapter 28 (Dispute Settlement) to arbitrators selected to serve on investor-State dispute settlement tribunals pursuant to this Article, including any necessary modifications to the Code of Conduct to conform to the context of investor-State dispute settlement. The Parties shall also provide guidance on the application of other relevant rules or guidelines on conflicts of interest in international arbitration. Arbitrators shall comply with that guidance in addition to the applicable arbitral rules regarding independence and impartiality of arbitrators.

**Article 9.22: Conduct of the Arbitration**

1. The disputing parties may agree on the legal place of any arbitration under the arbitration rules applicable under Article 9.18.4 (Submission of a Claim to Arbitration). If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitration rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.

2. A non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.

3. After consultation with the disputing parties, the tribunal may accept and consider written *amicus curiae* submissions regarding a matter of fact or law within the scope of the dispute that may assist the tribunal in evaluating the submissions and arguments of the disputing parties from a person or entity that is not a disputing party but has a significant interest in the arbitral proceedings. Each submission shall identify the author; disclose any affiliation, direct or indirect, with any disputing party; and identify any person, government or other entity that has provided, or will provide, any financial or other assistance in preparing the submission. Each submission shall be in a language of the arbitration and comply with any page limits and deadlines set by the tribunal. The tribunal shall provide the disputing parties with an opportunity to respond to such submissions. The tribunal shall ensure that the submissions do not disrupt or unduly burden the arbitral proceedings, or unfairly prejudice any disputing party.

4. Without prejudice to a tribunal's authority to address other objections as a preliminary question, such as an objection that a dispute is not within the competence of the tribunal, including an objection to the tribunal's jurisdiction, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favour of the claimant may be made under Article 9.28 (Awards) or that a claim is manifestly without legal merit.

- (a) An objection under this paragraph shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial or, in the case of

**Subject to Legal Review in English, Spanish and French

Subject to Authentication of English, Spanish and French Versions**

an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment.

- (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.
- (c) In deciding an objection under this paragraph that a claim submitted is not a claim for which an award in favour of the claimant may be made under Article 9.28 (Awards), the tribunal shall assume to be true the claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in the relevant article of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.
- (d) The respondent does not waive any objection as to competence, including an objection to jurisdiction, or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 or any objection that the dispute is not within the tribunal's competence, including an objection that the dispute is not within the tribunal's jurisdiction. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection, stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When the tribunal decides a respondent's objection under paragraph 4 or 5, it may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

7. For greater certainty, if an investor of a Party submits a claim under this Section, including a claim alleging that a Party breached Article 9.6 (Minimum Standard of Treatment), the investor has the burden of proving all elements of its claims, consistent with general principles of international law applicable to international arbitration.

8. A respondent may not assert as a defence, counterclaim, right of set-off or for any other reason, that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.
9. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 9.18 (Submission of a Claim to Arbitration). For the purposes of this paragraph, an order includes a recommendation.
10. In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties. Within 60 days after the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any comments and issue its decision or award no later than 45 days after the expiration of the 60 day comment period.
11. In the event that an appellate mechanism for reviewing awards rendered by investor-State dispute settlement tribunals is developed in the future under other institutional arrangements, the Parties shall consider whether awards rendered under Article 9.28 (Awards) should be subject to that appellate mechanism. The Parties shall strive to ensure that any such appellate mechanism they consider adopting provides for transparency of proceedings similar to the transparency provisions established in Article 9.23 (Transparency of Arbitral Proceedings).

**Article 9.23: Transparency of Arbitral Proceedings**

1. Subject to paragraphs 2 and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Parties and make them available to the public:
- (a) the notice of intent;
  - (b) the notice of arbitration;
  - (c) pleadings, memorials and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 9.22.2 (Conduct of the Arbitration) and Article 9.22.3 and Article 9.27 (Consolidation);
  - (d) minutes or transcripts of hearings of the tribunal, if available; and
  - (e) orders, awards and decisions of the tribunal.

**Subject to Legal Review in English, Spanish and French

2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. If a disputing party intends to use information in a hearing that is designated as protected information or otherwise subject to paragraph 3 it shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect such information from disclosure which may include closing the hearing for the duration of the discussion of that information.

3. Nothing in this Section, including paragraph 4(d), requires a respondent to make available to the public or otherwise disclose during or after the arbitral proceedings, including the hearing, protected information, or to furnish or allow access to information that it may withhold in accordance with Article 29.2 (Security Exceptions) or Article 29.6 (Disclosure of Information).<sup>33</sup>

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

- (a) subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to any non-disputing Party or to the public any protected information if the disputing party that provided the information clearly designates it in accordance with subparagraph (b);
- (b) any disputing party claiming that certain information constitutes protected information shall clearly designate the information according to any schedule set by the tribunal;
- (c) a disputing party shall, according to any schedule set by the tribunal, submit a redacted version of the document that does not contain the protected information. Only the redacted version shall be disclosed in accordance with paragraph 1; and
- (d) the tribunal, subject to paragraph 3, shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that the information was not properly designated, the disputing party that submitted the information may:
  - (i) withdraw all or part of its submission containing that information; or
  - (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and subparagraph (c).

---

<sup>33</sup> For greater certainty, when a respondent chooses to disclose to the tribunal information that may be withheld in accordance with Article 29.2 (Security Exceptions) or Article 29.6 (Disclosure of Information), the respondent may still withhold that information from disclosure to the public.

**Subject to Legal Review in English, Spanish and French

In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under subparagraph (d)(i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under subparagraph (d)(ii) of the disputing party that first submitted the information.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws. The respondent should endeavour to apply those laws in a manner sensitive to protecting from disclosure information that has been designated as protected information.

**Article 9.24: Governing Law**

1. Subject to paragraph 3, when a claim is submitted under Article 9.18.1(a)(i)(A) (Submission of a Claim to Arbitration) or Article 9.18.1(b)(i)(A), the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.<sup>34</sup>

2. Subject to paragraph 3 and the other provisions of this Section, when a claim is submitted under Article 9.18.1(a)(i)(B) (Submission of a Claim to Arbitration), Article 9.18.1(a)(i)(C), Article 9.18.1(b)(i)(B) or Article 9.18.1(b)(i)(C), the tribunal shall apply:

- (a) the rules of law applicable to the pertinent investment authorisation or specified in the pertinent investment authorisation or investment agreement, or as the disputing parties may agree otherwise; or
- (b) if, in the pertinent investment agreement the rules of law have not been specified or otherwise agreed:
  - (i) the law of the respondent, including its rules on the conflict of laws;<sup>35</sup> and
  - (ii) such rules of international law as may be applicable.

3. A decision of the Commission on the interpretation of a provision of this Agreement under Article 27.2.2(f) (Functions of the Commission) shall be binding on a tribunal, and any decision or award issued by a tribunal must be consistent with that decision.

---

<sup>34</sup> For greater certainty, this provision is without prejudice to any consideration of the domestic law of the respondent when it is relevant to the claim as a matter of fact.

<sup>35</sup> The “law of the respondent” means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case. For greater certainty, the law of the respondent includes the relevant law governing the investment agreement or investment authorisation, including law on damages, mitigation, interest and estoppel.

**Article 9.25: Interpretation of Annexes**

1. If a respondent asserts as a defence that the measure alleged to be a breach is within the scope of a non-conforming measure set out in Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Commission on the issue. The Commission shall submit in writing any decision on its interpretation under Article 27.2.2(f) (Functions of the Commission) to the tribunal within 90 days of delivery of the request.

2. A decision issued by the Commission under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Commission fails to issue such a decision within 90 days, the tribunal shall decide the issue.

**Article 9.26: Expert Reports**

Without prejudice to the appointment of other kinds of experts when authorised by the applicable arbitration rules, a tribunal, on request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning scientific matters raised by a disputing party in a proceeding, subject to any terms and conditions that the disputing parties may agree.

**Article 9.27: Consolidation**

1. If two or more claims have been submitted separately to arbitration under Article 9.18.1 (Submission of a Claim to Arbitration) and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

- (a) the names and addresses of all the disputing parties sought to be covered by the order;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

**Subject to Legal Review in English, Spanish and French

3. Unless the Secretary-General finds within a period of 30 days after the date of receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order agree otherwise, a tribunal established under this Article shall comprise three arbitrators:

- (a) one arbitrator appointed by agreement of the claimants;
- (b) one arbitrator appointed by the respondent; and
- (c) the presiding arbitrator appointed by the Secretary-General, provided that the presiding arbitrator is not a national of the respondent or of a Party of any claimant.

5. If, within a period of 60 days after the date when the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on request of any disputing party sought to be covered by the order, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed.

6. If a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 9.18.1 (Submission of a Claim to Arbitration) have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
- (b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or
- (c) instruct a tribunal previously established under Article 9.21 (Selection of Arbitrators) to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that:
  - (i) that tribunal, on request of a claimant that was not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and
  - (ii) that tribunal shall decide whether a prior hearing shall be repeated.

7. If a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 9.18.1 (Submission of a Claim to Arbitration) and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6. The request shall specify:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 9.21 (Selection of Arbitrators) shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On the application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 9.21 (Selection of Arbitrators) be stayed, unless the latter tribunal has already adjourned its proceedings.

**Article 9.28: Awards**

1. When a tribunal makes a final award, the tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest; and
- (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.

2. For greater certainty, if an investor of a Party submits a claim to arbitration under Article 9.18.1(a) (Submission of a Claim to Arbitration), it may recover only for loss or damage that it has incurred in its capacity as an investor of a Party.

3. A tribunal may also award costs and attorney's fees incurred by the disputing parties in connection with the arbitral proceeding, and shall determine how and by whom those costs and attorney's fees shall be paid, in accordance with this Section and the applicable arbitration rules.

4. For greater certainty, for claims alleging the breach of an obligation under Section A with respect to an attempt to make an investment, when an award is made in favour of the claimant, the only damages that may be awarded are those that the claimant has proven were sustained in the attempt to make the investment, provided that the claimant also proves that the breach was the proximate cause of those damages. If the tribunal determines such claims to be frivolous, the tribunal may award to the respondent reasonable costs and attorney's fees.
5. Subject to paragraph 1, if a claim is submitted to arbitration under Article 9.18.1(b) (Submission of a Claim to Arbitration) and an award is made in favour of the enterprise:
- (a) an award of restitution of property shall provide that restitution be made to the enterprise;
  - (b) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise; and
  - (c) the award shall provide that it is made without prejudice to any right that any person may have under applicable domestic law with respect to the relief provided in the award.
6. A tribunal shall not award punitive damages.
7. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.
8. Subject to paragraph 8 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.
9. A disputing party shall not seek enforcement of a final award until:
- (a) in the case of a final award made under the ICSID Convention:
    - (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or
    - (ii) revision or annulment proceedings have been completed; and
  - (b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to Article 9.18.4(d) (Submission of a Claim to Arbitration):
    - (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside or annul the award; or

**Subject to Legal Review in English, Spanish and French

- (ii) a court has dismissed or allowed an application to revise, set aside or annul the award and there is no further appeal.
- 10. Each Party shall provide for the enforcement of an award in its territory.
- 11. If the respondent fails to abide by or comply with a final award, on delivery of a request by the Party of the claimant, a panel shall be established under Article 28.7 (Establishment of a Panel). The requesting Party may seek in those proceedings:
  - (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and
  - (b) in accordance with Article 28.17 (Initial Report), a recommendation that the respondent abide by or comply with the final award.
- 12. A disputing party may seek enforcement of an arbitration award under the ICSID Convention, the New York Convention or the Inter-American Convention regardless of whether proceedings have been taken under paragraph 11.
- 13. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for the purposes of Article I of the New York Convention and Article I of the Inter-American Convention.

**Article 9.29: Service of Documents**

Delivery of notice and other documents to a Party shall be made to the place named for that Party in Annex 9-D (Service of Documents on a Party Under Section B). A Party shall promptly make publicly available and notify the other Parties of any change to the place referred to in that Annex.

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Article 9.6 (Minimum Standard of Treatment) results from a general and consistent practice of States that they follow from a sense of legal obligation. **Annex 9-B**

**Expropriation**

The Parties confirm their shared understanding that:

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
2. Article 9.7.1 (Expropriation and Compensation) addresses two situations. The first is direct expropriation, in which an investment is nationalised or otherwise directly expropriated through formal transfer of title or outright seizure.
3. The second situation addressed by Article 9.7.1 (Expropriation and Compensation) is indirect expropriation, in which an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
  - (a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:
    - (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
    - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations;<sup>36</sup> and
    - (iii) the character of the government action.
  - (b) Non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health,<sup>37</sup> safety and the environment, do not constitute indirect expropriations, except in rare circumstances.

---

<sup>36</sup> For greater certainty, whether an investor's investment-backed expectations are reasonable depends, to the extent relevant, on factors such as whether the government provided the investor with binding written assurances and the nature and extent of governmental regulation or the potential for government regulation in the relevant sector.

<sup>37</sup> For greater certainty and without limiting the scope of this subparagraph, regulatory actions to protect public health include, among others, such measures with respect to the regulation, pricing and supply of, and reimbursement for, pharmaceuticals (including biological products), diagnostics, vaccines, medical devices, gene therapies and technologies, health-related aids and appliances and blood and blood-related products.

**Expropriation Relating to Land**

1. Notwithstanding the obligations under Article 9.7 (Expropriation and Compensation), where Singapore is the expropriating Party, any measure of direct expropriation relating to land shall be for a purpose and upon payment of compensation at market value, in accordance with the applicable domestic legislation<sup>38</sup> and any subsequent amendments thereto relating to the amount of compensation where such amendments provide for the method of determination of the compensation which is no less favourable to the investor for its expropriated investment than such method of determination in the applicable domestic legislation as at the time of entry into force of this Agreement for Singapore.

2. Notwithstanding the obligations under Article 9.7 (Expropriation and Compensation), where Viet Nam is the expropriating Party, any measure of direct expropriation relating to land shall be: (i) for a purpose in accordance with the applicable domestic legislation;<sup>39</sup> and (ii) upon payment of compensation equivalent to the market value, while recognising the applicable domestic legislation.

---

<sup>38</sup> The applicable domestic legislation is the *Land Acquisition Act* (Cap. 152) as at the date of entry into force of this Agreement for Singapore.

<sup>39</sup> The applicable domestic legislation is Viet Nam's Land Law, Law No. 45/2013/QH13 and Decree 44/2014/ND-CP Regulating Land Prices, as at the date of entry into force of this Agreement for Viet Nam.

**Transfers**

**Chile**

1. Notwithstanding Article 9.8 (Transfers), Chile reserves the right of the Central Bank of Chile (*Banco Central de Chile*) to maintain or adopt measures in conformity with Law 18.840, Constitutional Organic Law of the Central Bank of Chile (*Ley 18.840, Ley Orgánica Constitucional del Banco Central de Chile*), and *Decreto con Fuerza de Ley N°3 de 1997, Ley General de Bancos* (General Banking Act) and *Ley 18.045, Ley de Mercado de Valores* (Securities Market Law), in order to ensure currency stability and the normal operation of domestic and foreign payments. Such measures include, *inter alia*, the establishment of restrictions or limitations on current payments and transfers (capital movements) to or from Chile, as well as transactions related to them, such as requiring that deposits, investments or credits from or to a foreign country, be subject to a reserve requirement (*encaje*).

2. Notwithstanding paragraph 1, the reserve requirements that the Central Bank of Chile can apply pursuant to Article 49 No. 2 of Law 18.840, shall not exceed 30 per cent of the amount transferred and shall not be imposed for a period which exceeds two years.

**DL 600**

**Chile**

1. The obligations and commitments contained in this Chapter do not apply to Decree Law 600, Foreign Investment Statute (*Decreto Ley 600, Estatuto de la Inversión Extranjera*) (hereinafter referred to in this Annex as “DL 600”), or its successors, and to Law 18.657, Foreign Capital Investment Fund Law (*Ley 18.657, Ley de Fondos de Inversión de Capital Extranjero*), with respect to:

- (a) The right of the Foreign Investment Committee of Chile (*Comité de Inversiones Extranjeras*) or its successor to accept or reject applications to invest through an investment contract under DL 600<sup>41</sup> and the right to regulate the terms and conditions of foreign investment under DL 600 and Law 18.657.
- (b) The right to maintain existing requirements that transfers from Chile of proceeds from the sale of all or any part of an investment of an investor of a Party or from the partial or complete liquidation of the investment which may not take place until a period not to exceed:
  - (i) in the case of an investment made pursuant to DL 600, one year from the date of transfer to Chile; or
  - (ii) in the case of an investment made pursuant to Law 18.657,<sup>42</sup> five years from the date of transfers to Chile.
- (c) The right to adopt measures, consistent with this Annex, establishing future special voluntary investment programs in addition to the general regime for foreign investment in Chile, except that any such measures may restrict transfers from Chile of proceeds from the sale of all or any part of an investment of an investor of another Party or from the partial or complete liquidation of the investment for a period not to exceed five years from the date of transfer to Chile.

---

<sup>41</sup> The authorisation and execution of an investment contract under DL 600 by an investor of a Party or a covered investment does not create any right on the part of the investor or the covered investment to engage in particular activities in Chile.

<sup>42</sup> Law 18.657 was derogated on May 1, 2014 by law 20.712. The transfer requirement established under subparagraph (b)(ii) will only be applicable to investments made pursuant to Law 18.657 prior to May 1, 2014 and not to investments made pursuant to Law 20.712.

2. No claim that a restructuring of debt issued by a Party breaches an obligation under Section A shall be submitted to, or if already submitted continue in, arbitration under Section B if the restructuring is a negotiated restructuring at the time of submission, or becomes a negotiated restructuring after that submission, except for a claim that the restructuring violates Article 9.4 (National Treatment) or Article 9.5 (Most-Favoured-Nation Treatment).
3. Notwithstanding Article 9.18.4 (Submission of a Claim to Arbitration), and subject to paragraph 2, an investor of another Party shall not submit a claim under Section B that a restructuring of debt issued by a Party breaches an obligation under Section A, other than Article 9.4 (National Treatment) or Article 9.5 (Most-Favoured-Nation Treatment), unless 270 days have elapsed from the date of receipt by the respondent of the written request for consultations pursuant to Article 9.17.2 (Consultation and Negotiation).<sup>43</sup>

- (a) Article 9.4 (National Treatment), Article 9.5 (Most-Favoured-Nation Treatment), Article 9.9 (Performance Requirements) and Article 9.10 (Senior Management and Board of Directors) shall not apply to an amendment to any non-conforming measure referred to in Article 9.11.1(a) (Non-Conforming Measures) to the extent that the amendment does not decrease the conformity of the measure, as it existed at the date of entry into force of this Agreement for Viet Nam, with Articles 9.4 (National Treatment), Article 9.5 (Most-Favoured-Nation Treatment), Article 9.9 (Performance Requirements) or Article 9.10 (Senior Management and Board of Directors);

**Submission of a Claim to Arbitration**

1. An investor of a Party may not submit to arbitration under Section B a claim that Chile, Peru, Mexico or Viet Nam has breached an obligation under Section A either:

**Investment Agreements**

**A. Agreements with selected international arbitration clauses**

1. An investor of a Party may not submit to arbitration a claim for breach of an investment agreement under Article 9.18.1(a)(i)(C) (Submission of a Claim to Arbitration) or Article 9.18.1(b)(i)(C) if the investment agreement provides the respondent's consent for the investor to arbitrate the alleged breach of the investment agreement and further provides that:

- (a) a claim may be submitted for breach of the investment agreement under at least one of the following alternatives:
  - (i) the ICSID Convention and the ICSID Rules of Procedure for Arbitration Proceedings, provided that both the respondent and the Party of the investor are parties to the ICSID Convention;
  - (ii) the ICSID Additional Facility Rules, provided that either the respondent or the Party of the investor is a party to the ICSID Convention;
  - (iii) the UNCITRAL Arbitration Rules;
  - (iv) the ICC Arbitration Rules; or
  - (v) the LCIA Arbitration Rules; and
- (b) in the case of arbitration not under the ICSID Convention, the legal place of the arbitration shall be:
  - (i) in the territory of a State that is party to the New York Convention; and
  - (ii) outside the territory of the respondent.

2. Notwithstanding Article 9.20.2(b) (Conditions and Limitations on Consent of Each Party), if a claimant submits to arbitration a claim that the respondent has breached:

- (a) an obligation under Section A pursuant to Article 9.18.1(a)(i)(A) (Submission of a Claim to Arbitration) or Article 9.18.1(b)(i)(A); or

**Subject to Legal Review in English, Spanish and French

Subject to Authentication of English, Spanish and French Versions**

- (b) an investment authorisation pursuant to Article 9.18.1(a)(i)(B) or Article 9.18.1(b)(i)(B),

the claimant's submission of a written waiver shall not preclude its right to initiate or continue an arbitration under an investment agreement, if that investment agreement meets the criteria in paragraph 1, with respect to any measure alleged to constitute a breach referred to in Article 9.18.

3. If a claimant:

- (a) submits to arbitration a claim that the respondent has breached an obligation under Section A pursuant to Article 9.18.1(a)(i)(A) (Submission of a Claim to Arbitration) or Article 9.18.1(b)(i)(A) or an investment authorisation pursuant to Article 9.18.1(a)(i)(B) or Article 9.18.1(b)(i)(B); and
- (b) submits a claim to arbitration under an investment agreement that meets the criteria in paragraph 1, and the claims have a question of law or fact in common and arise out of the same events or circumstances,

any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10 of Article 9.27 (Consolidation).

**B. Certain agreements between Peru and covered investments or investors<sup>45</sup>**

1. Pursuant to Legislative Decrees 662 and 757, Peru may enter into agreements known as “stability agreements” with covered investments or investors of another Party.

2. As part of a stability agreement referred to in paragraph 1, Peru accords certain benefits to the covered investment or the investor that is a party to the agreement. These benefits typically include a commitment to maintain the existing income tax regime applicable to such covered investment or investor during a specified period of time.

3. A stability agreement referred to in paragraph 1 may constitute one of multiple written instruments that make up an “investment agreement”, as defined in Article 9.1 (Definitions).<sup>46</sup> If that is the case, a breach of such a stability agreement by Peru may constitute a breach of the investment agreement of which it is a part.

---

<sup>45</sup> The fact that this Annex addresses only agreements entered into by Peru shall not prejudice the determination by a tribunal established under Section B regarding whether an agreement entered into by the government of another Party meets the definition of “investment agreement” in Article 9.1 (Definitions).

<sup>46</sup> For greater certainty, for multiple written instruments to make up an “investment agreement”, as defined in Article 9.1 (Definition), one or more of those instruments must grant rights to the covered investment or the investor as defined in subparagraph (a), (b) or (c) of that definition. A stability agreement may constitute one of multiple written instruments that make up an “investment agreement” even if the stability agreement is not itself the instrument in which such rights are granted.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

4. If a stability agreement does not constitute one of multiple instruments that make up an “investment agreement”, as defined in Article 9.1 (Definitions), a breach of such a stability agreement by Peru shall not constitute a breach of an investment agreement.

**C. Limitation of Mexico’s consent to arbitration**

1. Without prejudice to a claimant’s right to submit other claims pursuant to Article 9.18 (Submission of a Claim to Arbitration), Mexico does not consent to the submission of any claim to arbitration under Article 9.18.1(a)(i)(C) or 9.18.1(b)(i)(C) if the submission to arbitration of that claim would be inconsistent with the following laws with respect to the relevant acts of authority<sup>47</sup>:

- (a) *Hydrocarbons Law*, Articles 20 and 21;
- (b) *Law on Public Works and Related Services*, Article 98, paragraph 2;
- (c) *Public Private Partnerships Law*, Article 139, paragraph 3;
- (d) *Law on Roads, Bridges, and Federal Motor Carriers*, Article 80;
- (e) *Ports Law*, Article 3, paragraph 2;
- (f) *Airports Law*, Article 3, paragraph 2;
- (g) *Regulatory Law of the Railway Service*, Article 4, paragraph 2;
- (h) *Commercial and Navigation Maritimes Law*, Article 264, paragraph 2;
- (i) *Civil Aviation Law*, Article 3, paragraph 2; and
- (j) *Political Constitution of the United Mexican States*, Article 28, paragraph 20, Section VII, and *Federal Telecommunications and Broadcasting Law*, Article 312,

provided, however, that the application of the provisions referred to in subparagraphs (a) through (i) shall not be used as a disguised means to repudiate or breach the investment agreement.

---

<sup>47</sup> For greater certainty, the term “act of authority” includes omissions.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

2. If any law referred to in paragraph 1 is amended to permit the submission to arbitration of such a claim after the entry into force of this Agreement for Mexico, paragraph 1 shall not apply.<sup>48</sup>

**D. Specific Canadian entities under subpart (c) of definition**

For Canada, authority at the central level of government includes entities listed under Schedule III of the *Financial Administration Act* (R.S.C. 1985, c. F-11), and port or bridge authorities, that have concluded an investment agreement under subpart (c) of the definition of “investment agreement” only if the government directs or controls the day to day operations or activities of the entity or authority in carrying out its obligations under the investment agreement.

---

<sup>48</sup> For greater certainty, when any law referred to in paragraph 1 is amended consistent with paragraph 2, any subsequent amendment of that law may not re-establish the applicability of paragraph 1.

**Drafter's Note on Interpretation of "In Like Circumstances" Under  
Article II.4 (National Treatment) and Article II.5 (Most-Favoured-Nation Treatment)**

1. The TPP Investment Negotiating Group and the Chief Negotiators discussed the interpretation of "in like circumstances" under Article II.4 (National Treatment) and Article II.5 (Most-Favoured-Nation Treatment) and confirmed the shared intent of the Parties, as reflected in the text of these articles and the relevant footnote, to ensure that tribunals follow the existing approach set out below.

2. When a claimant challenges a measure as inconsistent with Article II.4 (National Treatment) or Article II.5 (Most-Favoured-Nation Treatment), the claimant bears the burden to prove that the respondent failed to accord to the claimant or the claimant's covered investment treatment no less favourable than it accords, in like circumstances, (a) to its own investors, or their investments, in its territory (Article II.4), or (b) to investors of any other Party or of any non-Party, or their investments, in its territory (Article II.5). Articles II.4 and II.5 do not prohibit all measures that result in differential treatment. Rather, they seek to ensure that foreign investors or their investments are not treated less favourably on the basis of their nationality.

3. The phrase "in like circumstances" ensures that comparisons are made only with respect to investors or investments on the basis of relevant characteristics. This is a fact-specific inquiry requiring consideration of the totality of the circumstances, as reflected in paragraphs 4 and 5. Such circumstances include not only competition in the relevant business or economic sectors, but also such circumstances as the applicable legal and regulatory frameworks and whether the differential treatment is based on legitimate public welfare objectives. Accordingly, the Parties agreed to include a new footnote in the text: "For greater certainty, whether treatment is accorded in 'like circumstances' depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors or investments on the basis of legitimate public welfare objectives."

4. In considering the phrase "in like circumstances", NAFTA tribunals have held that investors or investments that are "in like circumstances" based on the totality of the circumstances have been discriminated against based on their nationality. *See, e.g., Archer Daniels Midland, et al. v. United Mexican States*, ICSID Case No. ARB(AF)/04/05, Award, (21 November 2007), para. 197, (finding a breach of the national treatment obligation after taking into account "all 'circumstances' in which the treatment was accorded . . . in order to identify the appropriate comparator").

5. NAFTA tribunals have also accepted distinctions in treatment between investors or investments that are plausibly connected to legitimate public welfare objectives, and have given important weight to whether investors or investments are subject to like legal requirements. *See, e.g., Grand River Enterprises Six Nations Ltd., et al. v. United States of America*, UNCITRAL, Award (12 January 2011), at paras. 166-167 ("NAFTA tribunals have given significant weight to the legal regimes applicable to particular entities in assessing whether they are in 'like circumstances' under Articles 1102 [National Treatment] or 1103 [Most-Favoured-Nation

Treatment].... The reasoning of these cases shows the identity of the legal regime(s) applicable to a claimant and its purported comparators to be a compelling factor in assessing whether like is indeed being compared to like for purposes of Articles 1102 and 1103.”); *GAMI Investments Inc. v. United Mexican States*, UNCITRAL, Award (15 November 2004), at paras. 111-115 (holding that foreign investor was not “in like circumstances” with domestic investors because the difference in treatment was “plausibly connected with a legitimate goal of policy . . . and was applied neither in a discriminatory manner nor as a disguised barrier to equal opportunity”); *Pope & Talbot Inc. v. Canada*, UNCITRAL, Award on the Merits of Phase 2 (10 April 2001), at paras. 78-79 (the tribunal’s assessment included whether the difference in treatment had a “reasonable nexus to rational government policies” and was not based on nationality).

## **Article 10.2: Scope**

1. This Chapter shall apply to measures adopted or maintained by a Party affecting cross-border trade in services by service suppliers of another Party. Such measures include measures affecting:

  - (b) government procurement;
  - (c) services supplied in the exercise of governmental authority; or
  - (d) subsidies or grants provided by a Party, including government-supported loans, guarantees and insurance.
4. This Chapter does not impose any obligation on a Party with respect to a national of another Party who seeks access to its employment market or who is employed on a permanent basis in its territory, and does not confer any right on that national with respect to that access or employment.
5. This Chapter shall not apply to air services, including domestic and international air transportation services, whether scheduled or non-scheduled, or to related services in support of air services, other than the following:
- (a) aircraft repair and maintenance services during which an aircraft is withdrawn from service, excluding so-called line maintenance;

6. In the event of any inconsistency between this Chapter and a bilateral, plurilateral or multilateral air services agreement to which two or more Parties are party, the air services agreement shall prevail in determining the rights and obligations of those Parties that are party to that air services agreement.

7. If two or more Parties have the same obligations under this Agreement and a bilateral, plurilateral or multilateral air services agreement, those Parties may invoke the dispute settlement procedures of this Agreement only after any dispute settlement procedures in the other agreement have been exhausted.

8. If the *Annex on Air Transport Services* of GATS is amended, the Parties shall jointly review any new definitions with a view to aligning the definitions in this Agreement with those definitions, as appropriate.

**Article 10.3: National Treatment<sup>2</sup>**

1. Each Party shall accord to services and service suppliers of another Party treatment no less favourable than that it accords, in like circumstances, to its own services and service suppliers.

2. **Article 10.4: Most-Favoured-Nation Treatment**

5. As set out in Annex 10-A (Professional Services), the Parties shall endeavour to facilitate trade in professional services, including through the establishment of a Professional Services Working Group.

13. The Working Group shall meet annually, or as agreed by the Parties, to discuss progress towards the objectives in paragraphs 1 through 4. For a meeting to be held, at least two Parties must participate. It is not necessary for representatives of all Parties to participate in order to hold a meeting of the Working Group.

<sup>4</sup> For greater certainty, if an investor of a Party submits a claim to arbitration under Section B of Chapter 9 (Investment): (1) as referenced in Article 9.23.7 (Conduct of the Arbitration), the investor has the burden of proving all elements of its claims, consistent with general principles of international law applicable to international investment arbitration; (2) pursuant to Article 9.23.4, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favour of the claimant may be made under Article 9.29 (Awards); and (3) pursuant to Article 9.23.6, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection and, in determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous and shall provide the disputing parties a reasonable opportunity to comment.

**Article 11.3: National Treatment<sup>5</sup>**

1. Each Party shall accord to investors of another Party treatment no less favourable than that it accords to its own investors, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments in financial institutions in its territory.
2. Each Party shall accord to financial institutions of another Party, and to investments of investors of another Party in financial institutions, treatment no less favourable than that it accords to its own financial institutions, and to investments of its own investors in financial institutions, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments.
3. For greater certainty, the treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favourable than the most favourable treatment accorded, in like circumstances, by that regional level of government to investors, financial institutions and investments of investors in financial institutions, of the Party of which it forms a part.
4. For the purposes of the national treatment obligations in Article 11.6.1 (Cross-Border Trade), a Party shall accord to cross-border financial service suppliers of another Party treatment no less favourable than that it accords to its own financial service suppliers, in like circumstances, with respect to the supply of the relevant service.

**Article 11.4: Most-Favoured-Nation Treatment**

  - (b) financial institutions of another Party, treatment no less favourable than that it accords to financial institutions of any other Party or of a non-Party, in like circumstances;

---

<sup>5</sup> For greater certainty, whether treatment is accorded in “like circumstances” under Article 11.3 (National Treatment) or Article 11.4 (Most-Favoured-Nation Treatment) depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors, investments, financial institutions or financial service suppliers on the basis of legitimate public welfare objectives.

**Article 11.5: Market Access for Financial Institutions**

No Party shall adopt or maintain with respect to financial institutions of another Party or investors of another Party seeking to establish those institutions, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:

**Article 11.6: Cross-Border Trade**

1. Each Party shall permit, under terms and conditions that accord national treatment, cross-border financial service suppliers of another Party to supply the financial services specified in Annex 11-A (Cross-Border Trade).

2. Each Party shall permit persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of another Party located in the territory of a Party other than the permitting Party. This obligation does not require a Party to permit those suppliers to do business or solicit in its territory. A Party may define “doing business” and “solicitation” for the purposes of this obligation provided that those definitions are not inconsistent with paragraph 1.

3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration or authorisation of cross-border financial service suppliers of another Party and of financial instruments.

**Article 11.7: New Financial Services<sup>7</sup>**

Each Party shall permit a financial institution of another Party to supply a new financial service that the Party would permit its own financial institutions, in like circumstances, to supply without adopting a law or modifying an existing law.<sup>8</sup> Notwithstanding Article 11.5(b) (Market Access for Financial Institutions), a Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorisation for the supply of the service. If a Party requires a financial institution to obtain authorisation to supply a new financial service, the Party shall decide within a reasonable period of time whether to issue the authorisation and may refuse the authorisation only for prudential reasons.

If these measures do not conform with the provisions of this Agreement to which this exception applies, they shall not be used as a means of avoiding the Party's commitments or obligations under those provisions.

2. Nothing in this Chapter, Chapter 9 (Investment), Chapter 10 (Cross-Border Trade in Services), Chapter 13 (Telecommunications) including specifically Article 13.24 (Relation to Other Chapters), or Chapter 14 (Electronic Commerce), shall apply to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph shall not affect a Party's obligations under Article 9.10 (Performance Requirements) with respect to measures covered by Chapter 9 (Investment), under Article 9.9 (Transfers) or Article 10.12 (Payments and Transfers).

3. Notwithstanding Article 9.9 (Transfers) and Article 10.12 (Payments and Transfers), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, non-discriminatory and good faith application of measures relating to maintenance of the safety, soundness, integrity, or financial responsibility of financial institutions or cross-border financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.

4. For greater certainty, nothing in this Chapter shall be construed to prevent a Party from adopting or enforcing measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between Parties or between Parties and non-Parties where

8. Each Party's regulatory authorities shall make publicly available the requirements, including any documentation required, for completing an application relating to the supply of financial services.
9. On request of an applicant, a Party's regulatory authority shall inform the applicant of the status of its application. If the authority requires additional information from the applicant, it shall notify the applicant without undue delay.

If a Party requires a financial institution or a cross-border financial service supplier of another Party to be a member of, participate in, or have access to, a self-regulatory organisation in order to provide a financial service in or into its territory, it shall ensure that the self-regulatory organisation observes the obligations contained in Article 11.3 (National Treatment) and Article 11.4 (Most-Favoured-Nation Treatment).

**Article 11.15: Payment and Clearing Systems**

Under terms and conditions that accord national treatment, each Party shall grant financial institutions of another Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This Article is not intended to confer access to the Party's lender of last resort facilities.

**Article 11.16: Expedited Availability of Insurance Services**

The Parties recognise the importance of maintaining and developing regulatory procedures to expedite the offering of insurance services by licensed suppliers. These procedures may include: allowing introduction of products unless those products are disapproved within a reasonable period of time; not requiring product approval or authorisation of insurance lines for insurance other than insurance sold to individuals or compulsory insurance; or not imposing limitations on the number or frequency of product introductions. If a Party maintains regulatory product approval procedures, that Party shall endeavour to maintain or improve those procedures.

**Article 11.17: Performance of Back-Office Functions**

1. The Parties recognise that the performance of the back-office functions of a financial institution in its territory by the head office or an affiliate of the financial institution, or by an unrelated service supplier, either inside or outside its territory, is important to the effective management and efficient operation of that financial institution. While a Party may require financial institutions to ensure compliance with any domestic requirements applicable to those functions, they recognise the importance of avoiding the imposition of arbitrary requirements on the performance of those functions.

2. The Committee shall:

- (a) supervise the implementation of this Chapter and its further elaboration;
- (b) consider issues regarding financial services that are referred to it by a Party; and

- (b) If a Party considers that a non-conforming measure applied by a regional level of government of another Party creates a material impediment to trade or investment by a financial institution, an investor, investments in a financial institution or a cross-border financial service supplier, the Party may request consultations with regard to that measure. These Parties shall enter into consultations with a view to exchanging information on the operation of the measure and to considering whether further steps are necessary and appropriate.
3. Consultations under this Article shall include officials of the authorities specified in Annex 11-D (Authorities Responsible for Financial Services).
4. For greater certainty, nothing in this Article shall be construed to require a Party to derogate from its law regarding sharing of information between financial regulators or the requirements of an agreement or arrangement between financial authorities of the Parties, or to require a regulatory authority to take any action that would interfere with specific regulatory, supervisory, administrative or enforcement matters.

**Article 11.21: Dispute Settlement**

2. If a Party claims that a dispute arises under this Chapter, Article 28.9 (Composition of Panels) shall apply, except that:

The panel shall endeavour to present its initial report pursuant to Article 28.17 (Initial Report) within 150 days after the last panellist is appointed.

5. If a Party seeks to suspend benefits in the financial services sector, a panel that reconvenes to make a determination on the proposed suspension of benefits, in accordance with Article 28.20.6 (Non-Implementation – Compensation and Suspension of Benefits), shall seek the views of financial services experts, as necessary.

**Article 11.22: Investment Disputes in Financial Services**

1. If an investor of a Party submits a claim to arbitration under Section B of Chapter 9 (Investment) challenging a measure relating to regulation or supervision of financial institutions, markets or instruments, the expertise or experience of any particular candidate with respect to financial services law or practice shall be taken into account in the appointment of arbitrators to the tribunal.

2. If an investor of a Party submits a claim to arbitration under Section B of Chapter 9 (Investment), and the respondent invokes Article 11.11 (Exceptions) as a defence, the following provisions of this Article shall apply.

**SECTION C: SUPPLY OF INSURANCE BY POSTAL INSURANCE ENTITIES**

1. This Section sets out additional disciplines that apply if a Party allows its postal insurance entity to underwrite and supply direct insurance services to the general public. The services covered by this paragraph do not include the supply of insurance related to the collection, transport and delivery of letters or packages by a Party's postal insurance entity.

2. No Party shall adopt or maintain a measure that creates conditions of competition that are more favourable to a postal insurance entity with respect to the supply of insurance services described in paragraph 1 as compared to a private supplier of like insurance services in its market, including by:

6. This Section shall not apply to a postal insurance entity in the territory of a Party:

- (b) if sales of direct life and non-life insurance underwritten by the postal insurance entity each account for no more than 10 per cent, respectively, of total annual premium income from direct life and non-life insurance in the Party's market as of January 1, 2013.

7. If a postal insurance entity in the territory of a Party exceeds the percentage threshold referred to in paragraph 6(b) after the date of signature of this Agreement by the Party, the Party shall ensure that the postal insurance entity is:

- (a) regulated and subject to enforcement by the same authorities that regulate and conduct enforcement activities with respect to the supply of insurance services by private suppliers; and

- (b) be a supplier who supplies such services in the territory of the other Party; or

**Article 13.4: Access to and Use of Public Telecommunications Services<sup>3</sup>**

1. Each Party shall ensure that any enterprise of another Party has access to and use of any public telecommunications service, including leased circuits, offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions.

4. Notwithstanding paragraph 3, a Party may take measures that are necessary to ensure the security and confidentiality of messages and to protect the privacy of personal data of end-users of public telecommunications networks or services, provided that those measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.

5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks and services, other than as necessary to:

- (a) safeguard the public service responsibilities of suppliers of public telecommunications networks and services, in particular their ability to make their networks or services generally available to the public; or
- (b) protect the technical integrity of public telecommunications networks or services.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to and use of public telecommunications networks and services may include:

- (a) a requirement to use a specified technical interface, including an interface protocol, for connection with those networks or services;
- (b) a requirement, when necessary, for the inter-operability of those networks and services;

for international mobile roaming services that can help promote the growth of trade among the Parties and enhance consumer welfare.

2. A Party may choose to take steps to enhance transparency and competition with respect to international mobile roaming rates and technological alternatives to roaming services, such as:

- (a) ensuring that information regarding retail rates is easily accessible to consumers; and
- (b) minimising impediments to the use of technological alternatives to roaming, whereby consumers when visiting the territory of a Party from the territory of another Party can access telecommunications services using the device of their choice.

3. The Parties recognise that a Party, when it has the authority to do so, may choose to adopt or maintain measures affecting rates for wholesale international roaming services with a view to ensuring that those rates are reasonable. If a Party considers it appropriate, it may cooperate on and implement mechanisms with other Parties to facilitate the implementation of those measures, including by entering into arrangements with those Parties.

4. If a Party (the first Party) chooses to regulate rates or conditions for wholesale international mobile roaming services, it shall ensure that a supplier of public telecommunications services of another Party (the second Party) has access to the regulated rates or conditions for wholesale international mobile roaming services for its customers roaming in the territory of the first Party in circumstances in which:<sup>8</sup>

- (a) the second Party has entered into an arrangement with the first Party to reciprocally regulate rates or conditions for wholesale international mobile roaming services for suppliers of the two Parties;<sup>9</sup> or
- (b) in the absence of an arrangement of the type referred to in subparagraph (a), the supplier of public telecommunications services of the second Party, of its own accord:

<sup>9</sup> For greater certainty, access under paragraph 4(a) to the rates or conditions regulated by the first Party shall be available to a supplier of the second Party only if such regulated rates or conditions are reasonably comparable to those reciprocally regulated under the arrangement referred to in subparagraph (a). The telecommunications regulatory body of the first Party shall, in the case of disagreement, determine whether the rates or conditions are reasonably comparable.

The first Party may require suppliers of the second Party to fully utilise commercial negotiations to reach agreement on the terms for accessing such rates or conditions.

5. A Party that ensures access to regulated rates or conditions for wholesale international mobile roaming services in accordance with paragraph 4 shall be deemed to be in compliance with its obligations under Article 10.4 (Most-Favoured-Nation Treatment), Article 13.4.1 (Access to and Use of Public Telecommunications Services), and Article 13.7 (Treatment by Major Suppliers of Public Telecommunications Services) with respect to international mobile roaming services.

6. Each Party shall provide to the other Parties information on rates for retail international mobile roaming services for voice, data and text messages offered to consumers of the Party when visiting the territories of the other Parties. A Party shall provide that information no later than one year after the date of entry into force of this Agreement for the Party. Each Party shall update that information and provide it to the other Parties on an annual basis or as otherwise agreed. Interested Parties shall endeavour to cooperate on compiling this information into a report to be mutually agreed by the Parties and to be made publicly available.

7. Nothing in this Article shall require a Party to regulate rates or conditions for international mobile roaming services.

**Article 13.7: Treatment by Major Suppliers of Public Telecommunications Services**

---

<sup>10</sup> For the purposes of this subparagraph, rates or conditions that are reasonably comparable means rates or conditions agreed to be such by the relevant suppliers or, in the case of disagreement, determined to be such by the telecommunications regulatory body of the first Party.

<sup>11</sup> For greater certainty, such additional requirements may include, for example, that the rates provided to the supplier of the second Party reflect the reasonable cost of supplying international mobile roaming services by a supplier of the first Party to a supplier of the second Party, as determined through the methodology of the first Party.

**Article 13.8: Competitive Safeguards**

1. Each Party shall maintain appropriate measures for the purpose of preventing suppliers of public telecommunications services that, alone or together, are a major supplier in its territory from engaging in or continuing anti-competitive practices.
2. The anti-competitive practices referred to in paragraph 1 include in particular:
  - (a) engaging in anti-competitive cross-subsidisation;
  - (b) using information obtained from competitors with anti-competitive results; and
  - (c) not making available, on a timely basis, to suppliers of public telecommunications services, technical information about essential facilities and commercially relevant information that are necessary for them to provide services.

**Article 13.9: Resale**

1. No Party shall prohibit the resale of any public telecommunications service.<sup>12</sup>
2. Each Party shall ensure that a major supplier in its territory:

4. If a Party does not require that a major supplier offer a specific public telecommunications service for resale, it nonetheless shall allow service suppliers to request that the service be offered for resale consistent with paragraph 2, without prejudice to the Party's decision on the request.

**Article 13.10: Unbundling of Network Elements by Major Suppliers**

Each Party shall provide its telecommunications regulatory body or another appropriate body with the authority to require a major supplier in its territory to offer to public telecommunications service suppliers access to network elements on an unbundled basis on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory and transparent for the supply of public telecommunications services. Each Party may determine the network elements required to be made available in its territory, and the suppliers that may obtain those elements, in accordance with its laws and regulations.

**Article 13.11: Interconnection with Major Suppliers**

*General Terms and Conditions*

1. Each Party shall ensure that a major supplier in its territory provides interconnection for the facilities and equipment of suppliers of public telecommunications services of another Party:

- (a) at any technically feasible point in the major supplier's network;
- (b) under non-discriminatory terms, conditions (including technical standards and specifications) and rates;
- (c) of a quality no less favourable than that provided by the major supplier for its own like services, for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates;
- (d) in a timely manner, on terms and conditions (including technical standards and specifications), and at cost-oriented rates, that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers do not have to pay for network components or facilities that they do not require for

- (e) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

*Options for Interconnecting with Major Suppliers*

2. Each Party shall ensure that a major supplier in its territory provides suppliers of public telecommunications services of another Party with the opportunity to interconnect their facilities and equipment with those of the major supplier through the following options:

- (a) a reference interconnection offer or another standard interconnection offer containing the rates, terms and conditions that the major supplier offers generally to suppliers of public telecommunications services; or
- (b) the terms and conditions of an interconnection agreement that is in effect.

3. In addition to the options provided in paragraph 2, each Party shall ensure that suppliers of public telecommunications services of another Party have the opportunity to interconnect their facilities and equipment with those of the major supplier through the negotiation of a new interconnection agreement.

*Public Availability of Interconnection Offers and Agreements*

4. Each Party shall make publicly available the applicable procedures for interconnection negotiations with a major supplier in its territory.

5. Each Party shall provide means for suppliers of another Party to obtain the rates, terms and conditions necessary for interconnection offered by a major supplier. Those means include, at a minimum, ensuring:

- (a) the public availability of interconnection agreements that are in effect between a major supplier in its territory and other suppliers of public telecommunications services in its territory;
- (b) the public availability of rates, terms and conditions for interconnection with a major supplier set by the telecommunications regulatory body or other competent body; or
- (c) the public availability of a reference interconnection offer.

**Article 13.12: Provisioning and Pricing of Leased Circuits Services by Major Suppliers**

1. Each Party shall ensure that a major supplier in its territory provides to service suppliers of another Party leased circuits services that are public telecommunications services in a reasonable period of time on terms and conditions, and at rates, that are reasonable and non-discriminatory, and based on a generally available offer.
2. Further to paragraph 1, each Party shall provide its telecommunications regulatory body or other appropriate bodies the authority to require a major supplier in its territory to offer leased circuits services that are public telecommunications services to service suppliers of another Party at capacity-based and cost-oriented prices.

**Article 13.13: Co-Location by Major Suppliers**

1. Subject to paragraphs 2 and 3, each Party shall ensure that a major supplier in its territory provides to suppliers of public telecommunications services of another Party in the Party's territory physical co-location of equipment necessary for interconnection or access to unbundled network elements based on a generally available offer, on a timely basis, and on terms and conditions and at cost-oriented rates, that are reasonable and non-discriminatory.
2. Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that a major supplier in its territory provides an alternative solution, such as facilitating virtual co-location, based on a generally available offer, on a timely basis, and on terms and conditions and at cost-oriented rates, that are reasonable and non-discriminatory.
3. A Party may determine, in accordance with its laws and regulations, which premises owned or controlled by major suppliers in its territory are subject to paragraphs 1 and 2. When the Party makes this determination, it shall take into account factors such as the state of competition in the market where co-location is required, whether those premises can be substituted in an economically or technically feasible manner in order to provide a competing service, or other specified public interest factors.
4. If a Party does not require that a major supplier offer co-location at certain premises, it nonetheless shall allow service suppliers to request that those premises be offered for co-location consistent with paragraph 1, without prejudice to the Party's decision on such a request.

Each Party shall ensure that a major supplier in its territory provides access to poles, ducts, conduits, and rights-of-way or any other structures as determined by the Party, owned or controlled by the major supplier, to suppliers of public telecommunications services of another Party in the Party's territory on a timely basis, on terms and conditions and at rates, that are reasonable, non-discriminatory and transparent, subject to technical feasibility.
2. A Party may determine, in accordance with its laws and regulations, the poles, ducts, conduits, rights-of-way or any other structures to which it requires major suppliers in its territory to provide access in accordance with paragraph 1. When the Party makes this determination, it shall take into account factors such as the competitive effect of lack of such access, whether such structures can be substituted in an economically or technically feasible manner in order to provide a competing service, or other specified public interest factors.

**Article 13.15: International Submarine Cable Systems<sup>16, 17</sup>**

Each Party shall ensure that any major supplier who controls international submarine cable landing stations in the Party's territory provides access to those landing stations, consistent with the provisions of Article 13.11 (Interconnection with Major Suppliers), Article 13.12 (Provisioning and Pricing of Leased Circuits Services by Major Suppliers), and Article 13.13 (Co-Location by Major Suppliers), to public telecommunications suppliers of another Party.

**Article 13.16: Independent Regulatory Bodies and Government Ownership**

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. With a view to ensuring the independence and impartiality of telecommunications regulatory bodies, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest<sup>18</sup> or

Nonetheless, Chile shall ensure reasonable and non-discriminatory access to international submarine cable systems including landing stations in its territory.

<sup>17</sup> For Viet Nam, co-location for international submarine landing stations owned or controlled by the major supplier in the territory of Viet Nam excludes physical co-location.

2. Each Party shall ensure that the regulatory decisions and procedures of its telecommunications regulatory body or other competent authority related to provisions contained in this Chapter are impartial with respect to all market participants.

3. No Party shall accord more favourable treatment to a supplier of telecommunications services in its territory than that accorded to a like service supplier of another Party on the basis that the supplier receiving more favourable treatment is owned by the national government of the Party.

**Article 13.17: Universal Service**

Each Party has the right to define the kind of universal service obligation it wishes to maintain. Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory and competitively neutral manner, and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

**Article 13.18: Licensing Process**

1. If a Party requires a supplier of public telecommunications services to have a licence, the Party shall ensure the public availability of:

- (a) all the licensing criteria and procedures that it applies;
- (b) the period that it normally requires to reach a decision concerning an application for a licence; and
- (c) the terms and conditions of all licences in effect.

**Article 13.19: Allocation and Use of Scarce Resources**

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers and rights-of-way, in an objective, timely, transparent and non-discriminatory manner.
2. Each Party shall make publicly available the current state of frequency bands allocated and assigned to specific suppliers<sup>20</sup> but retains the right not to provide detailed identification of frequencies that are allocated or assigned for specific government uses.
3. For greater certainty, a Party's measures allocating and assigning spectrum and managing frequency are not *per se* inconsistent with Article 10.5 (Market Access) either as it applies to cross-border trade in services or through the operation of Article 10.2.2 (Scope) to an investor or covered investment of another Party. Accordingly, each Party retains the right to establish and apply spectrum and frequency management policies that may have the effect of limiting the number of suppliers of public telecommunications services, provided that the Party does so in a manner that is consistent with other provisions of this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.
4. When making a spectrum allocation for commercial telecommunications services, each Party shall endeavour to rely on an open and transparent process that considers the public interest, including the promotion of competition. Each Party shall endeavour to rely generally on market-based approaches in assigning spectrum for terrestrial commercial telecommunications services. To this end, each Party shall have the authority to use mechanisms such as auctions, if appropriate, to assign spectrum for commercial use.

**Article 13.20: Enforcement**

Each Party shall provide its competent authority with the authority to enforce the Party's measures relating to the obligations set out in Article 13.4 (Access to and Use of Public Telecommunications Services), Article 13.5 (Obligations Relating to Suppliers of Public Telecommunications Services), Article 13.7 (Treatment by Major Suppliers of Public Telecommunications Services), Article 13.8 (Competitive Safeguards), Article 13.9 (Resale), Article 13.10 (Unbundling of Network Elements by Major Suppliers), Article 13.11

- (f) any measures of the telecommunications regulatory body if the government delegates to other bodies the responsibility for preparing, amending and adopting standards-related measures affecting access and use.

**Article 13.23: Flexibility in the Choice of Technology**

1. No Party shall prevent suppliers of public telecommunications services from choosing the technologies they wish to use to supply their services, subject to requirements necessary to satisfy legitimate public policy interests, provided that any measure restricting that choice is not prepared, adopted or applied in a manner that creates unnecessary obstacles to trade. A transitional measure shall be applied in a manner that does not discriminate between the other Parties.

2. The Parties may agree to the delayed application of any obligation in this Chapter, other than Article 15.4.1(b) (General Principles), by the developing country Party while that Party implements the obligation. The implementation period shall be only the period necessary to implement the obligation.

3. Any developing country Party that has negotiated an implementation period for an obligation under paragraph 2 shall list in its Schedule to Annex 15-A the agreed implementation period, the specific obligation subject to the implementation period and any interim obligation with which it has agreed to comply during the implementation period.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

4. After this Agreement has entered into force for a developing country Party, the other Parties, on request of that developing country Party, may:

- (a) extend the transition period for a measure adopted or maintained under paragraph 1 or any implementation period negotiated under paragraph 2; or
- (b) approve the adoption of a new transitional measure under paragraph 1, in special circumstances that were unforeseen.

5. A developing country Party that has negotiated a transitional measure under paragraphs 1 or 4, an implementation period under paragraph 2, or any extension under paragraph 4, shall take those steps during the transition period or implementation period that may be necessary to ensure that it is in compliance with this Chapter at the end of any such period. The developing country Party shall promptly notify the other Parties of each step in accordance with Article 27.7 (Reporting on Progress Related to Transitional Measures).

6. Each Party shall give consideration to any request by a developing country Party for technical cooperation and capacity building in relation to that Party's implementation of this Chapter.

**Article 15.6: Publication of Procurement Information**

1. Each Party shall promptly publish any measure of general application relating to covered procurement, and any change or addition to this information.

2. Each Party shall list in Section I of its Schedule to Annex 15-A the paper or electronic means through which the Party publishes the information described in paragraph 1 and the notices required by Article 15.7 (Notices of Intended Procurement), Article 15.9.3 (Qualification of Suppliers) and Article 15.16.3 (Post-Award Information).

3. Each Party shall, on request, respond to an inquiry relating to the information referred to in paragraph 1.

**Article 15.7: Notices of Intended Procurement**

1. For each covered procurement, except in the circumstances described in Article 15.10 (Limited Tendering), a procuring entity shall publish a notice of intended procurement through the appropriate paper or electronic means listed in Annex 15-A. The notices shall remain readily accessible to the public until at least the expiration of the time period for responding to the notice or the deadline for submission of the tender.

2. The notices shall, if accessible by electronic means, be provided free of charge:

- (a) for central government entities that are covered under Annex 15-A, through a single point of access; and

**Subject to Legal Review in English, Spanish and French

Subject to Authentication of English, Spanish and French Versions**

- (b) for sub-central government entities and other entities covered under Annex 15-A, through links in a single electronic portal.

3. Unless otherwise provided in this Chapter, each notice of intended procurement shall include the following information, unless that information is provided in the tender documentation that is made available free of charge to all interested suppliers at the same time as the notice of intended procurement:

- (a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and the cost and terms of payment to obtain the relevant documents, if any;
- (b) a description of the procurement, including, if appropriate, the nature and quantity of the goods or services to be procured and a description of any options, or the estimated quantity if the quantity is not known;
- (c) if applicable, the time-frame for delivery of goods or services or the duration of the contract;
- (d) if applicable, the address and any final date for the submission of requests for participation in the procurement;
- (e) the address and the final date for the submission of tenders;
- (f) the language or languages in which tenders or requests for participation may be submitted, if other than an official language of the Party of the procuring entity;
- (g) a list and a brief description of any conditions for participation of suppliers, that may include any related requirements for specific documents or certifications that suppliers must provide;
- (h) if, pursuant to Article 15.9 (Qualification of Suppliers), a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, if applicable, any limitation on the number of suppliers that will be permitted to tender; and
- (i) an indication that the procurement is covered by this Chapter, unless that indication is publicly available through information published pursuant to Article 15.6.2 (Publication of Procurement Information).

4. For greater certainty, paragraph 3 does not preclude a Party from charging a fee for tender documentation if the notice of intended procurement includes all of the information set out in paragraph 3.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

5. For the purposes of this Chapter, each Party shall endeavour to use English as the language for publishing the notice of intended procurement.

*Notice of Planned Procurement*

6. Procuring entities are encouraged to publish as early as possible in each fiscal year a notice regarding their future procurement plans (notice of planned procurement), which should include the subject matter of the procurement and the planned date of publication of the notice of intended procurement.

**Article 15.8: Conditions for Participation**

1. A procuring entity shall limit any conditions for participation in a covered procurement to those conditions that ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to fulfil the requirements of that procurement.

2. In establishing the conditions for participation, a procuring entity:

- (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party or that the supplier has prior work experience in the territory of that Party; and
- (b) may require relevant prior experience if essential to meet the requirements of the procurement.

3. In assessing whether a supplier satisfies the conditions for participation, a procuring entity shall:

- (a) evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
- (b) base its evaluation solely on the conditions that the procuring entity has specified in advance in notices or tender documentation.

4. If there is supporting material, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy or insolvency;
- (b) false declarations;
- (c) significant or persistent deficiencies in the performance of any substantive requirement or obligation under a prior contract or contracts; or

- (d) failure to pay taxes.

5. For greater certainty, this Article is not intended to preclude a procuring entity from promoting compliance with laws in the territory in which the good is produced or the service is performed relating to labour rights as recognised by the Parties and set forth in Article 19.3 (Labour Rights), provided that such measures are applied in a manner consistent with Chapter 26 (Transparency and Anti-Corruption), and are not applied in a manner that constitutes a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade between the Parties.<sup>1</sup>

### **Article 15.9: Qualification of Suppliers**

#### *Registration Systems and Qualification Procedures*

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.
2. No Party, including its procuring entities, shall:
  - (a) adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of another Party in its procurement; or
  - (b) use such registration system or qualification procedure to prevent or delay the inclusion of suppliers of other Parties on a list of suppliers or prevent those suppliers from being considered for a particular procurement.

#### *Selective Tendering*

3. If a Party's measures authorise the use of selective tendering, and if a procuring entity intends to use selective tendering, the procuring entity shall:
  - (a) publish a notice of intended procurement that invites suppliers to submit a request for participation in a covered procurement; and
  - (b) include in the notice of intended procurement the information specified in Article 15.7.3(a), (b), (d), (g), (h) and (i) (Notices of Intended Procurement).
4. The procuring entity shall:
  - (a) publish the notice sufficiently in advance of the procurement to allow interested suppliers to request participation in the procurement;

---

<sup>1</sup> The adoption and maintenance of these measures by a Party should not be construed as evidence that another Party has breached the obligations under Chapter 19 (Labour) with respect to labour.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (b) provide, by the commencement of the time period for tendering, at least the information in Article 15.7.3 (c), (e) and (f) (Notices of Intended Procurement) to the qualified suppliers that it notifies as specified in Article 15.14.3(b) (Time Periods); and
- (c) allow all qualified suppliers to submit a tender, unless the procuring entity stated in the notice of intended procurement a limitation on the number of suppliers that will be permitted to tender and the criteria or justification for selecting the limited number of suppliers.

5. If the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 3, the procuring entity shall ensure that the tender documentation is made available at the same time to all the qualified suppliers selected in accordance with paragraph 4(c).

*Multi-Use Lists*

6. A Party, including its procuring entities, may establish or maintain a multi-use list provided that it publishes annually, or otherwise makes continuously available by electronic means, a notice inviting interested suppliers to apply for inclusion on the list. The notice shall include:

- (a) a description of the goods and services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity or other government agency will use to verify a supplier's satisfaction of those conditions;
- (c) the name and address of the procuring entity or other government agency and other information necessary to contact the procuring entity and to obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination or, if the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list;
- (e) the deadline for submission of applications for inclusion on the list, if applicable; and
- (f) an indication that the list may be used for procurement covered by this Chapter, unless that indication is publicly available through information published pursuant to Article 15.6.2 (Publication of Procurement Information).

7. A Party, including its procuring entities, that establishes or maintains a multi-use list, shall include on the list, within a reasonable period of time, all suppliers that satisfy the conditions for participation set out in the notice referred to in paragraph 6.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

8. If a supplier that is not included on a multi-use list submits a request for participation in a procurement based on the multi-use list and submits all required documents, within the time period provided for in Article 15.14.2 (Time Periods), a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement unless the procuring entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

*Information on Procuring Entity Decisions*

9. A procuring entity or other entity of a Party shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the decision with respect to the request or application.

10. If a procuring entity or other entity of a Party rejects a supplier's request for participation or application for inclusion on a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and on request of the supplier, promptly provide the supplier with a written explanation of the reason for its decision.

**Article 15.10: Limited Tendering**

1. Provided that it does not use this provision for the purpose of avoiding competition between suppliers, to protect domestic suppliers or in a manner that discriminates against suppliers of any other Party, a procuring entity may use limited tendering.

2. If a procuring entity uses limited tendering, it may choose, according to the nature of the procurement, not to apply Article 15.7 (Notices of Intended Procurement) through Article 15.9 (Qualification of Suppliers) and Article 15.11 (Negotiations) through Article 15.15 (Treatment of Tenders and Awarding of Contracts). A procuring entity may use limited tendering only under the following circumstances:

- (a) if, in response to a prior notice, invitation to participate or invitation to tender:
  - (i) no tenders were submitted or no suppliers requested participation;
  - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation;
  - (iii) no suppliers satisfied the conditions for participation; or
  - (iv) the tenders submitted were collusive,

provided that the procuring entity does not substantially modify the essential requirements set out in the notices or tender documentation;

**Subject to Legal Review in English, Spanish and French

- (b) if the good or service can be supplied only by a particular supplier and no reasonable alternative or substitute good or service exists for any of the following reasons:
  - (i) the requirement is for a work of art;
  - (ii) the protection of patents, copyrights or other exclusive rights; or
  - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier or its authorised agents, of goods or services that were not included in the initial procurement if a change of supplier for such additional goods or services:
  - (i) cannot be made for technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement, or due to conditions under original supplier warranties; and
  - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) for a good purchased on a commodity market or exchange;
- (e) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype or the first good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed goods or services, however, shall be subject to this Chapter;
- (f) if additional construction services that were not included in the initial contract but that were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein. However, the total value of contracts awarded for additional construction services may not exceed 50 per cent of the value of the initial contract;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as from unusual disposals, liquidation, bankruptcy or receivership, but not for routine purchases from regular

suppliers;

- (h) if a contract is awarded to the winner of a design contest, provided that:
  - (i) the contest has been organised in a manner that is consistent with this Chapter; and
  - (ii) the contest is judged by an independent jury with a view to award a design contract to the winner; or
- (i) in so far as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering.

3. For each contract awarded in accordance with paragraph 2, a procuring entity shall prepare a report in writing, or maintain a record, that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 2 that justified the use of limited tendering.

**Article 15.11: Negotiations**

1. A Party may provide for its procuring entities to conduct negotiations in the context of covered procurement if:

- (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 15.7 (Notices of Intended Procurement); or
- (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

- (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
- (b) when negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

**Article 15.12: Technical Specifications**

1. A procuring entity shall not prepare, adopt or apply any technical specification or

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

prescribe any conformity assessment procedure with the purpose or effect of creating an unnecessary obstacle to trade between the Parties.

2. In prescribing the technical specifications for the good or service being procured, a procuring entity shall, if appropriate:

- (a) set out the technical specifications in terms of performance and functional requirements, rather than design or descriptive characteristics; and
- (b) base the technical specifications on international standards, if these exist; otherwise, on national technical regulations, recognised national standards or building codes.

3. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as “or equivalent” in the tender documentation.

4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

5. For greater certainty, a procuring entity may conduct market research in developing specifications for a particular procurement.

6. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting or applying technical specifications to promote the conservation of natural resources or the protection of the environment.

7. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting or processing of such information outside the territory of the Party.

**Article 15.13: Tender Documentation**

1. A procuring entity shall promptly make available or provide on request to any interested supplier tender documentation that includes all information necessary to permit the supplier to prepare and submit a responsive tender. Unless already provided in the notice of intended procurement, that tender documentation shall include a complete description of:

- (a) the procurement, including the nature, scope and, if known, the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical

specifications, conformity certification, plans, drawings or instructional materials;

- (b) any conditions for participation, including any financial guarantees, information and documents that suppliers are required to submit;
- (c) all criteria to be considered in the awarding of the contract and the relative importance of those criteria;
- (d) if there will be a public opening of tenders, the date, time and place for the opening;
- (e) any other terms or conditions relevant to the evaluation of tenders; and
- (f) any date for delivery of a good or supply of a service.

2. In establishing any date for the delivery of a good or the supply of a service being procured, a procuring entity shall take into account factors such as the complexity of the procurement.

3. A procuring entity shall promptly reply to any reasonable request for relevant information by an interested or participating supplier, provided that the information does not give that supplier an advantage over other suppliers.

*Modifications*

4. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirements set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends or re-issues a notice or tender documentation, it shall publish or provide those modifications, or the amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating in the procurement at the time of the modification, amendment or re-issuance, if those suppliers are known to the procuring entity, and in all other cases, in the same manner as the original information was made available; and
- (b) in adequate time to allow those suppliers to modify and re-submit their initial tender, if appropriate.

**Article 15.14: Time Periods**

*General*

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for a supplier to obtain the tender documentation and to prepare and submit a request for

participation and a responsive tender, taking into account factors such as:

- (a) the nature and complexity of the procurement; and
- (b) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points if electronic means are not used.

*Deadlines*

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of a request for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. If a state of urgency duly substantiated by the procuring entity renders this time period impracticable, the time period may be reduced to no less than 10 days.

3. Except as provided in paragraphs 4 and 5, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the procuring entity notifies the suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time period for tendering set out in paragraph 3 by five days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the procuring entity accepts tenders by electronic means.

5. A procuring entity may reduce the time period for tendering set out in paragraph 3 to no less than 10 days if:

- (a) the procuring entity has published a notice of planned procurement under Article 15.7 (Notices of Intended Procurement) at least 40 days and no more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
  - (i) a description of the procurement;
  - (ii) the approximate final dates for the submission of tenders or requests for participation;

**Subject to Legal Review in English, Spanish and French

- (iii) the address from which documents relating to the procurement may be obtained; and
    - (iv) as much of the information that is required for the notice of intended procurement as is available;
  - (b) a state of urgency duly substantiated by the procuring entity renders impracticable the time period for tendering set out in paragraph 3; or
  - (c) the procuring entity procures commercial goods or services.
6. The use of paragraph 4, in conjunction with paragraph 5, shall in no case result in the reduction of the time periods for tendering set out in paragraph 3 to less than 10 days.
7. A procuring entity shall require all interested or participating suppliers to submit requests for participation or tenders in accordance with a common deadline. These time periods, and any extension of these time periods, shall be the same for all interested or participating suppliers.

**Article 15.15: Treatment of Tenders and Awarding of Contracts**

*Treatment of Tenders*

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.
2. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

*Awarding of Contracts*

3. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be submitted by a supplier who satisfies the conditions for participation.
4. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:
  - (a) the most advantageous tender; or
  - (b) if price is the sole criterion, the lowest price.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

5. A procuring entity shall not use options, cancel a covered procurement, or modify or terminate awarded contracts in order to avoid the obligations of this Chapter.

**Article 15.16: Post-Award Information**

*Information Provided to Suppliers*

1. A procuring entity shall promptly inform suppliers that have submitted a tender of the contract award decision. The procuring entity may do so in writing or through the prompt publication of the notice in paragraph 3, provided that the notice includes the date of award. If a supplier has requested the information in writing, the procuring entity shall provide it in writing.

2. Subject to Article 15.17 (Disclosure of Information), a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the procuring entity did not select the unsuccessful supplier's tender or an explanation of the relative advantages of the successful supplier's tender.

*Publication of Award Information*

3. A procuring entity shall, promptly after the award of a contract for a covered procurement, publish in an officially designated publication a notice containing at least the following information:

- (a) a description of the good or service procured;
- (b) the name and address of the procuring entity;
- (c) the name and address of the successful supplier;
- (d) the value of the contract award;
- (e) the date of award or, if the procuring entity has already informed suppliers of the date of the award under paragraph 1, the contract date; and
- (f) the procurement method used and, if a procedure was used pursuant to Article 15.10 (Limited Tendering), a brief description of the circumstances justifying the use of that procedure.

*Maintenance of Records*

4. A procuring entity shall maintain the documentation, records and reports relating to tendering procedures and contract awards for covered procurement, including the records and reports provided for in Article 15.10.3 (Limited Tendering), for at least three years after the award of a contract.

**Article 15.17: Disclosure of Information**

*Provision of Information to Parties*

1. On request of any other Party, a Party shall provide promptly information sufficient to demonstrate whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including, if applicable, information on the characteristics and relative advantages of the successful tender, without disclosing confidential information. The Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

*Non-Disclosure of Information*

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not, except to the extent required by law or with the written authorisation of the supplier that provided the information, disclose information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information if that disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

**Article 15.18: Ensuring Integrity in Procurement Practices**

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has in place policies and procedures to eliminate to the extent possible or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

**Article 15.19: Domestic Review**

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

1. Each Party shall maintain, establish or designate at least one impartial administrative or judicial authority (review authority) that is independent of its procuring entities to review, in a non-discriminatory, timely, transparent and effective manner, a challenge or complaint (complaint) by a supplier that there has been:

- (a) a breach of this Chapter; or
- (b) if the supplier does not have a right to directly challenge a breach of this Chapter under the law of a Party, a failure of a procuring entity to comply with the Party's measures implementing this Chapter,

arising in the context of a covered procurement, in which the supplier has, or had, an interest. The procedural rules for all complaints shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage, if appropriate, the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to the complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or to its right to seek corrective measures under the administrative or judicial review procedure. Each Party shall make information on its complaint mechanisms generally available.

3. If a body other than the review authority initially reviews a complaint, the Party shall ensure that the supplier may appeal the initial decision to the review authority that is independent of the procuring entity that is the subject of the complaint.

4. If the review authority has determined that there has been a breach or a failure as referred to in paragraph 1, a Party may limit compensation for the loss or damages suffered to either the costs reasonably incurred in the preparation of the tender or in bringing the complaint, or both.

5. Each Party shall ensure that, if the review authority is not a court, its review procedures are conducted in accordance with the following procedures:

- (a) a supplier shall be allowed sufficient time to prepare and submit a complaint in writing, which in no case shall be less than 10 days from the time when the basis of the complaint became known or reasonably should have become known to the supplier;
- (b) a procuring entity shall respond in writing to a supplier's complaint and provide all relevant documents to the review authority;
- (c) a supplier that initiates a complaint shall be provided an opportunity to reply to the procuring entity's response before the review authority takes a decision

**Subject to Legal Review in English, Spanish and French

Subject to Authentication of English, Spanish and French Versions**

on the complaint; and

- (d) the review authority shall provide its decision on a supplier's complaint in a timely fashion, in writing, with an explanation of the basis for the decision.

6. Each Party shall adopt or maintain procedures that provide for:

- (a) prompt interim measures, pending the resolution of a complaint, to preserve the supplier's opportunity to participate in the procurement and to ensure that the procuring entities of the Party comply with its measures implementing this Chapter; and
- (b) corrective action that may include compensation under paragraph 4.

The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether those measures should be applied. Just cause for not acting shall be provided in writing.

A Party shall provide compensatory adjustments for a change in coverage if necessary to maintain a level of coverage comparable to the coverage that existed prior to the modification. The Party may include the offer of compensatory adjustment in its notice.

3. Any Party whose rights under this Chapter may be affected by a proposed modification that is notified under paragraph 1 shall notify the other Parties of any objection to the proposed modification within 45 days of the date of circulation of the notice.

4. If a Party objects to a proposed modification, including a modification regarding a procuring entity on the basis that government control or influence over the entity's covered procurement has been effectively eliminated, that Party may request additional information, including information on the nature of any government control or influence, with a view to clarifying and reaching agreement on the proposed modification, including the procuring entity's continued coverage under this Chapter. The modifying Party and any objecting Party shall make every attempt to resolve the objection through consultations.

5. If the modifying Party and any objecting Party resolve the objection through consultations, the modifying Party shall notify the other Parties of the resolution.

- (c) revising the Threshold Adjustment Formula in Section H of Annex 15-A; and
- (d) reducing and eliminating discriminatory measures.

2. No later than three years after the date of entry into force of this Agreement, the Parties shall commence negotiations with a view to achieving expanded coverage, including sub-central coverage<sup>2</sup>. Parties may also agree to cover sub-central government procurement prior to or following the start of those negotiations.

---

<sup>2</sup> For those Parties that administer at the central level of government the kinds of procurement that other Parties may administer by sub-central entities, those negotiations may involve commitments at the central government level rather than at the sub-central government level.

1. For greater certainty, consistent with Article 15.9.9 (Qualification of Suppliers), in relation to procurements from the Department of Finance, Building Management and Works' Prequalification Scheme; and Main Road's 'National Prequalification System for Civil (Road and Bridge) Construction Contracts' Scheme, requests for participation in a procurement from suppliers not already prequalified at the time of tender release will not be considered due to the time and complexity involved in assessing requests. This does not preclude suppliers from applying at anytime to become prequalified. Prequalification ensures the financial security of building and construction contractors and does not discriminate between local suppliers and the suppliers of other Parties.

These laws should take into account the APEC Principles to Enhance Competition and Regulatory Reform done at Auckland, September 13, 1999.
2. Each Party shall endeavour to apply its national competition laws to all commercial activities in its territory.<sup>2</sup> However, each Party may provide for certain exemptions from the application of its national competition laws provided that those exemptions are transparent and are based on public policy grounds or public interest grounds.
3. Each Party shall maintain an authority or authorities responsible for the enforcement of its national competition laws (national competition authorities). Each Party shall provide that it is the enforcement policy of that authority or authorities to act in accordance with the objectives set out in paragraph 1 and not to discriminate on the basis of nationality.

<sup>1</sup> This Article is subject to Annex 16-A (Application of Article 16.2, Article 16.3 and Article 16.4 to Brunei Darussalam).

<sup>2</sup> For greater certainty, nothing in paragraph 2 shall be construed to preclude a Party from applying its competition laws to commercial activities outside its borders that have anticompetitive effects within its jurisdiction.

- (c) a reasonable opportunity to be heard and present evidence in its defence, except that a Party may provide for the person to be heard and present evidence within a reasonable time after it imposes an interim sanction or remedy.

In particular, each Party shall afford that person a reasonable opportunity to present evidence or testimony in its defence, including: if applicable, to offer the analysis of a properly qualified expert, to cross-examine any testifying witness; and to review and rebut the evidence introduced in the enforcement proceeding<sup>4</sup>.

2. Each Party shall adopt or maintain written procedures pursuant to which its national competition law investigations are conducted. If these investigations are not subject to definitive deadlines, each Party's national competition authorities shall endeavour to conduct their investigations within a reasonable time frame.

3. Each Party shall adopt or maintain rules of procedure and evidence that apply to enforcement proceedings concerning alleged violations of its national competition laws and the determination of sanctions and remedies thereunder. These rules shall include procedures for introducing evidence, including expert evidence if applicable, and shall apply equally to all parties to a proceeding.

4. Each Party shall provide a person that is subject to the imposition of a sanction or remedy for violation of its national competition laws with the opportunity to seek review of the sanction or remedy, including review of alleged substantive or procedural errors, in a court or other independent tribunal established under that Party's laws.

8. Each Party shall provide for the protection of business confidential information, and other information treated as confidential under its law, obtained by its national competition authorities during the investigative process. If a Party's national competition authority uses or intends to use that information in an enforcement proceeding, the Party shall, if it is permissible under its law and as appropriate, provide a procedure to allow the person under investigation timely access to information that is necessary to prepare an adequate defence to the national competition authority's allegations.

9. Each Party shall ensure that its national competition authorities afford a person under investigation for possible violation of the national competition laws of that Party reasonable opportunity to consult with those competition authorities with respect to significant legal, factual or procedural issues that arise during the investigation.

2. Recognising that a private right of action is an important supplement to the public enforcement of national competition laws, each Party should adopt or maintain laws or other measures that provide an independent private right of action.

3. If a Party does not adopt or maintain laws or other measures that provide an independent private right of action, the Party shall adopt or maintain laws or other measures that provide a right that allows a person:

4. The Parties recognise that fraudulent and deceptive commercial activities increasingly transcend national borders and that cooperation and coordination between the Parties is desirable to effectively address these activities.

5. Accordingly, the Parties shall promote, as appropriate, cooperation and coordination on matters of mutual interest related to fraudulent and deceptive commercial activities, including in the enforcement of their consumer protection laws.

  - (a) its competition law enforcement policies and practices; and
  - (b) exemptions and immunities to its national competition laws, provided that the request specifies the particular good or service and market of concern and includes information explaining how the exemption or immunity may hinder trade or investment between the Parties.
4. Each Party shall ensure that a final decision finding a violation of its national competition laws is made in writing and sets out, in non-criminal matters, findings of fact and the reasoning, including legal and, if applicable, economic analysis, on which the decision is based.
5. Each Party shall further ensure that a final decision referred to in paragraph 4 and any order implementing that decision are published, or if publication is not practicable, are otherwise made available to the public in a manner that enables interested persons and other Parties to become acquainted with them. Each Party shall ensure that the version of the decision or order that is made available to the public does not include confidential information that is protected from public disclosure by its law.

**Article 16.8: Consultations**

In order to foster understanding between the Parties, or to address specific matters that arise under this Chapter, on request of another Party, a Party shall enter into consultations with the requesting Party. In its request, the requesting Party shall indicate, if relevant, how

#### Article 17.1: Definitions

For the purposes of this Chapter:

**Arrangement** means the Arrangement on Officially Supported Export Credits, developed within the framework of the Organization for Economic Co-operation and Development (OECD), or a successor undertaking, whether developed within or outside of the OECD framework, that has been adopted by at least 12 original WTO Members that were Participants to the Arrangement as of January 1, 1979;

**commercial activities** means activities which an enterprise undertakes with an orientation toward profit-making<sup>1</sup> and which result in the production of a good or supply of a service that will be sold to a consumer in the relevant market in quantities and at prices determined by the enterprise;<sup>2</sup>

<sup>1</sup> For greater certainty, activities undertaken by an enterprise which operates on a not-for-profit basis or on a cost-recovery basis are not activities undertaken with an orientation toward profit-making.

<sup>2</sup> For greater certainty, measures of general application to the relevant market shall not be construed as the determination by a Party of pricing, production, or supply decisions of an enterprise.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (i) administering or providing a plan for pension, retirement, social security, disability, death or employee benefits, or any combination thereof solely for the benefit of natural persons who are contributors to such a plan and their beneficiaries, or
  - (ii) investing the assets of these plans;
- (b) has a fiduciary duty to the natural persons referenced in sub-paragraph (a); and
- (c) is free from investment direction from the government of the Party;<sup>3</sup>

**market** means the geographical and commercial market for a good or service;

**monopoly** means an entity, including a consortium or government agency, that in any relevant market in the territory of a Party is designated as the sole provider or purchaser of a good or service, but does not include an entity that has been granted an exclusive intellectual property right solely by reason of the grant;

**non-commercial assistance**<sup>4</sup> means assistance to a state-owned enterprise by virtue of that state-owned enterprise's government ownership or control, where:

- (a) "assistance" means:
  - (i) direct transfers of funds or potential direct transfers of funds or liabilities, such as:
    - A. grants or debt forgiveness;
    - B. loans, loan guarantees or other types of financing on terms more favourable than those commercially available to that enterprise; or

---

<sup>3</sup> Investment direction from the government of a Party (a) does not include general guidance with respect to risk management and asset allocation that is not inconsistent with usual investment practices; and (b) is not demonstrated, alone, by the presence of government officials on the enterprise's board of directors or investment panel.

<sup>4</sup> For greater certainty, non-commercial assistance does not include (a) intra-group transactions within a corporate group including state-owned enterprises (e.g. between the parent and subsidiaries of the group, or among the group's subsidiaries) when normal business practices require reporting the financial position of the group excluding these intra-group transactions, (b) other transactions between state-owned enterprises that are consistent with the usual practices of privately owned enterprises in arm's length transactions, or (c) a Party's transfer of funds, collected from contributors to a plan for pension, retirement, social security, disability, death or employee benefits, or any combination thereof, to an independent pension fund for investment on behalf of the contributors and their beneficiaries.

  - (i) the Party or any of the Party’s state enterprises or state-owned enterprises explicitly limits access to the assistance to any of its state-owned enterprises;
  - (ii) the Party or any of the Party’s state enterprises or state-owned enterprises provides assistance which is predominately used by the Party’s state-owned enterprises;
  - (iii) the Party or any of the Party’s state enterprises or state-owned enterprises provides a disproportionately large amount of the assistance to the Party’s state-owned enterprises; or

a **public service mandate** means a government mandate pursuant to which a state-owned enterprise makes available a service, directly or indirectly, to the general public in its territory;<sup>6</sup>

**sovereign wealth fund** means an enterprise owned, or controlled through ownership interests, by a Party that:

- (a) serves solely as a special purpose investment fund or arrangement<sup>7</sup> for asset management, investment, and related activities, using financial assets of a Party; and

---

<sup>5</sup> In determining whether the assistance is provided “by virtue of that enterprise’s government ownership or control,” account shall be taken of the extent of diversification of economic activities within the territory of the Party, as well as of the length of time during which the non-commercial assistance programme has been in operation.

<sup>6</sup> For greater certainty, a service to the general public includes:

- (a) the distribution of goods; and
- (b) the supply of general infrastructure services.

<sup>7</sup> For greater certainty, the Parties understand that the word “arrangements” as an alternative to “funds” allows for a flexible interpretation of the legal arrangement through which the assets can be invested.

**state-owned enterprise** means an enterprise:

- (a) that is principally engaged in commercial activities; and
- (b) in which a Party:
  - (i) directly owns more than 50 percent of the share capital;
  - (ii) controls, through ownership interests, the exercise of more than 50 percent of the voting rights; or
  - (iii) holds the power to appoint a majority of members of the board of directors or any other equivalent management body.

**Article 17.2: Scope<sup>8</sup>**

1. This Chapter shall apply with respect to the activities of state-owned enterprises and designated monopolies of a Party that affect trade or investment between Parties within the free trade area.<sup>9</sup>

2. Nothing in this Chapter shall prevent a central bank or monetary authority of a Party from performing regulatory or supervisory activities or conducting monetary and related credit policy and exchange rate policy.

3. Nothing in this Chapter shall prevent a financial regulatory body of a Party, including a non-governmental body, such as a securities or futures exchange or market, clearing agency, or other organisation or association, from exercising regulatory or supervisory authority over financial services suppliers.

---

<sup>8</sup> For the purposes of this Chapter, the terms “financial service supplier,” “financial institution” and “financial services” have the same meaning as in Article 11.1 (Definitions).

<sup>9</sup> This Chapter also applies with respect to the activities of state-owned enterprises of a Party that cause adverse effects in the market of a non-Party as provided in Article 17.7 (Adverse Effects).

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

4. Nothing in this Chapter shall prevent a Party, or one of its state enterprises or state-owned enterprises from undertaking activities for the purpose of the resolution of a failing or failed financial institution or any other failing or failed enterprise principally engaged in the supply of financial services.
5. This Chapter shall not apply with respect to a sovereign wealth fund of a Party<sup>10</sup>, except:

6. This Chapter shall not apply with respect to:
- (a) an independent pension fund of a Party; or
  - (b) an enterprise owned or controlled by an independent pension fund of a Party, except:

8. Nothing in this Chapter shall prevent a state-owned enterprise of a Party from providing goods or services exclusively to that Party for the purposes of carrying out that Party's governmental functions.

10. Articles 17.4 (Non-discriminatory treatment and commercial considerations), Article 17.6 (Non-commercial Assistance), and Article 17.10 ((Transparency) shall not apply to any service supplied in the exercise of governmental authority.<sup>11</sup>

11. Article 17.4.1(b), Article 17.4.1(c), Article 17.4.2(b), and Article 17.4.2(c) (Non-discriminatory treatment and commercial considerations) shall not apply to the extent that a Party's state-owned enterprise or designated monopoly makes purchases and sales of goods or services pursuant to:

(a) any existing non-conforming measure that the Party maintains, continues, renews or amends in accordance with Article 9.11.1 (Non-Conforming Measures), Article 10.7.1 (Non-Conforming Measures) or Article 11.10.1 (Non-Conforming Measures), as set out in its Schedule to Annex I or in Section A of its Schedule to Annex III; or

(b) any non-conforming measure that the Party adopts or maintains with respect to sectors, subsectors, or activities in accordance with Article 9.11.2 (Non-Conforming Measures), Article 10.7.2 (Non-Conforming Measures) or Article 11.10.2 (Non-Conforming Measures), as set out in its Schedule to Annex II or in Section B of its Schedule to Annex III.

- (a) acts in accordance with commercial considerations in its purchase or sale of a good or service, except to fulfil any terms of its public service mandate that are not inconsistent with subparagraph (c)(ii);
  - (b) in its purchase of a good or service,
    - (i) accords to a good or service supplied by an enterprise of another Party treatment no less favourable than it accords to a like good or a like service supplied by enterprises of the Party, of any other Party, or of any non-Party; and
    - (ii) accords to a good or service supplied by an enterprise that is a covered investment in the Party's territory treatment no less favourable than it accords to a like good or a like service supplied by enterprises in the relevant market in the Party's territory that are investments of investors of the Party, of any other Party, or of any non-Party; and
  - (c) in its sale of a good or service,
    - (i) accords to an enterprise of another Party treatment no less favourable than it accords to enterprises of the Party, of any other Party, or of any non-Party; and
    - (ii) accords to an enterprise that is a covered investment in the Party's territory treatment no less favourable than it accords to enterprises in the relevant market in the Party's territory that are investments of investors of the Party, of any other Party, or of any non-Party.<sup>13</sup>
2. Each Party shall ensure that each of its designated monopolies:
- (a) acts in accordance with commercial considerations in its purchase or sale of the monopoly good or service in the relevant market, except to fulfil any terms of its designation that are not inconsistent with subparagraphs (b), (c) or (d); and
  - (b) in its purchase of the monopoly good or service,
    - (i) accords to a good or service supplied by an enterprise of another Party treatment no less favourable than it accords to a like good or a like service supplied by enterprises of the Party, of any other Party, or of any non-Party; and

---

<sup>13</sup> Article 17.4.1 (Non-discriminatory treatment and commercial considerations) shall not apply with respect to the purchase or sale of shares, stock or other forms of equity by a state-owned enterprise as a means of its equity participation in another enterprise.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (ii) accords to a good or service supplied by an enterprise that is a covered investment in the Party's territory treatment no less favourable than it accords to a like good or a like service sold by enterprises in the relevant market in the Party's territory that are investments of investors of the Party, of any other Party, or of any non-Party; and
  - (c) in its sale of the monopoly good or service:
    - (i) accords to an enterprise of another Party treatment no less favourable than it accords to enterprises of the Party, of any other Party, or of any non-Party; and
    - (ii) accords to an enterprise that is a covered investment in the Party's territory treatment no less favourable than it accords to enterprises in the relevant market in the Party's territory that are investments of investors of the Party, of any other Party, or of any non-Party; and
  - (d) does not use its monopoly position to engage in, either directly or indirectly, including through its dealings with its parent, subsidiaries, or other entities the Party or the designated monopoly owns, anticompetitive practices in a non-monopolised market in its territory that negatively affect trade or investment between the Parties.<sup>14</sup>
3. Paragraph 1(b) and (c) and paragraph 2 (b) and (c) do not preclude a state-owned enterprise or designated monopoly from:
- (a) purchasing or selling goods or services on different terms or conditions including those relating to price; or
  - (b) refusing to purchase or sell goods or services,

provided that such differential treatment or refusal is undertaken in accordance with commercial considerations.

<sup>14</sup> For greater certainty, a Party may comply with the requirements of sub-paragraph (d) through the enforcement or implementation of its generally applicable national competition laws and regulations, its economic regulatory laws and regulations, or other appropriate measures.

commercial activity carried on in its territory.<sup>15</sup> This shall not be construed to require a Party to provide jurisdiction over such claims if it does not provide jurisdiction over similar claims against enterprises that are not owned or controlled through ownership interests by a foreign country.

2. Each Party shall ensure that any administrative body that the Party establishes or maintains that regulates a state-owned enterprise exercises its regulatory discretion in an impartial manner with respect to enterprises that it regulates, including enterprises that are not state-owned enterprises.<sup>16</sup>

**Article 17.6: Non-commercial Assistance**

1. No Party shall cause<sup>17</sup> adverse effects to the interests of another Party through the use of non-commercial assistance that it provides, either directly or indirectly<sup>18</sup> to any of its state-owned enterprises with respect to:

- (a) the production and sale of a good by the state-owned enterprise;
- (b) the supply of a service by the state-owned enterprise from the territory of the Party into the territory of another Party;
- (c) the supply of a service in the territory of another Party through an enterprise that is a covered investment in the territory of that other Party or a third Party.

2. Each Party shall ensure that its state enterprises and state-owned enterprises do not cause adverse effects to the interests of another Party through the use of non-commercial assistance that the state enterprise or state-owned enterprise provides to any of its state-owned enterprises with respect to:

- (a) the production and sale of a good by the state-owned enterprise;
- (b) the supply of a service by the state-owned enterprise from the territory of the Party into the territory of another Party;

---

<sup>15</sup> Article 17.5.1 (Courts and Administrative Bodies) shall not be construed to preclude a Party from providing its courts with jurisdiction over claims against enterprises owned or controlled through ownership interests by a foreign country other than those claims referred to in this paragraph.

<sup>16</sup> For greater certainty, the impartiality with which an administrative body exercises its regulatory discretion is to be assessed by reference to a pattern or practice of that administrative body.

<sup>17</sup> For the purposes of Article 17.6(1) and (2) (Non-commercial Assistance), it must be demonstrated that the adverse effects claimed have been caused by the non-commercial assistance. Thus, the non-commercial assistance must be examined within the context of other possible causal factors to ensure an appropriate attribution of causality.

<sup>18</sup> For greater certainty, indirect provision includes the situation in which a Party entrusts or directs an enterprise that is not a state-owned enterprise to provide non-commercial assistance.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (c) the supply of a service in the territory of another Party through an enterprise that is a covered investment in the territory of that other Party or a third Party.
3. No Party shall cause injury to a domestic industry<sup>19</sup> of another Party through the use of non-commercial assistance that it provides, either directly or indirectly, to any of its state-owned enterprises that is a covered investment in the territory of another Party in circumstances where:
- (a) the non-commercial assistance is provided with respect to the production and sale of a good by the state-owned enterprise in the territory of the other Party, and
- (b) a like good is produced and sold in the territory of the other Party by the domestic industry of that other Party.<sup>20</sup>
4. A service supplied by a state-owned enterprise of a Party within that Party's territory shall be deemed to not cause adverse effects.<sup>21</sup>

**Article 17.7: Adverse Effects**

1. For the purposes of paragraphs 1 and 2 of Article 17.6 (Non-commercial Assistance), adverse effects arise where:
- (a) the effect of the non-commercial assistance is that the production and sale of a good by a Party's state-owned enterprise that has received the non-commercial assistance displaces or impedes from the Party's market imports of a like good of another Party or sales of a like good produced by an enterprise that is a covered investment in the territory of the Party;
- (b) the effect of the non-commercial assistance is that the production and sale of a good by a Party's state-owned enterprise that has received the non-commercial assistance displaces or impedes:

---

<sup>19</sup> The term "domestic industry" refers to the domestic producers as a whole of the like good, or to those domestic producers whose collective output of the products constitutes a major proportion of the total domestic production of the like good, excluding the state-owned enterprise that is a covered investment that has received the non-commercial assistance referred to in paragraph 3.

<sup>20</sup> In situations of material retardation of the establishment of a domestic industry, it is understood that a domestic industry may not yet produce and sell the like good. However, in such cases, there must be evidence that a prospective domestic producer has made a substantial commitment to commence production and sales of the like good.

<sup>21</sup> For greater certainty, this paragraph shall not be construed to apply to a service that is itself a form of non-commercial assistance.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (i) from the market of another Party sales of a like good produced by an enterprise that is a covered investment in the territory of that other Party, or imports of a like good of another Party; or
  - (ii) from the market of a non-Party imports of a like good of another Party;
- (c) the effect of the non-commercial assistance is a significant price undercutting by a good produced by a Party's state-owned enterprise that has received the non-commercial assistance and sold by the enterprise:
  - (i) in the market of a Party as compared with the price in the same market of imports of a like good of another Party or a like good that is produced by an enterprise that is a covered investment in the territory of the Party, or significant price suppression, price depression or lost sales in the same market; or
  - (ii) in the market of a non-Party as compared with the price in the same market of imports of a like good of another Party, or significant price suppression, price depression or lost sales in the same market;
- (d) the effect of the non-commercial assistance is that services supplied by a Party's state-owned enterprise that has received the non-commercial assistance displace or impede from the market of another Party a like service supplied by a service supplier of that other Party or a third Party; or
- (e) the effect of the non-commercial assistance is a significant price undercutting by a service supplied in the market of another Party by a Party's state-owned enterprise that has received the non-commercial assistance as compared with the price in the same market of a like service supplied by a service supplier of that other Party or a third Party, or significant price suppression, price depression or lost sales in the same market.<sup>22</sup>

2. For the purposes of subparagraphs (a), (b), and (d) of paragraph 1, the displacing or impeding of a good or service includes any case in which it has been demonstrated that there has been a significant change in relative shares of the market to the disadvantage of the like good or like service. "Significant change in relative shares of the market" shall include any of the following situations:

- (a) there is a significant increase in the market share of the good or service of the Party's state-owned enterprise;

---

<sup>22</sup> The purchase or sale of shares, stock or other forms of equity by a state-owned enterprise that has received non-commercial assistance as a means of its equity participation in another enterprise shall not be construed to give rise to adverse effects as provided for in 17.7.1 (Adverse Effects).

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

(b) the market share of the good or service of the Party's state-owned enterprise remains constant in circumstances in which, in the absence of the non-commercial assistance, it would have declined significantly; or

(c) the market share of the good or service of the Party's state-owned enterprise declines, but at a significantly slower rate than would have been the case in the absence of the non-commercial assistance.

The change must manifest itself over an appropriately representative period sufficient to demonstrate clear trends in the development of the market for the good or service concerned, which, in normal circumstances, shall be at least one year.

3. For the purposes of subparagraphs (c) and (e) of paragraph 1, price undercutting shall include any case in which such price undercutting has been demonstrated through a comparison of the prices of the good or service of the state-owned enterprise with the prices of the like good or service.

4. Comparisons of the prices in paragraph 3 shall be made at the same level of trade and at comparable times, and due account shall be taken for factors affecting price comparability. If a direct comparison of transactions is not possible, the existence of price undercutting may be demonstrated on some other reasonable basis, such as, in the case of goods, a comparison of unit values.

5. Non-commercial assistance that a Party provides

(a) before the signing of this Agreement, or

(b) within 3 years after the signing of this Agreement pursuant to a law that is enacted, or contractual obligation undertaken, prior to the signing of this Agreement

shall be deemed to not cause adverse effects.

6. For the purposes of 17.6.1(b) and 17.6.2(b), adverse effects are deemed not to arise from the initial capitalisation of a state-owned enterprise, or the acquisition by a Party of a controlling interest in an enterprise, that is principally engaged in the supply of services within the territory of the Party.

### **Article 17.8: Injury**

1. For the purposes of Article 17.6.3 (Non-Commercial Assistance), the term "injury" shall be taken to mean material injury to a domestic industry, threat of material injury to a domestic industry or material retardation of the establishment of such an industry. A determination of material injury shall be based on positive evidence and involve an

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

objective examination of the relevant factors, including the volume of production by the covered investment that has received non-commercial assistance, the effect of such production on prices for like goods produced and sold by the domestic industry, and the effect of such production on the domestic industry producing like goods.<sup>23</sup>

2. With regard to the volume of production by the covered investment that has received non-commercial assistance, consideration shall be given as to whether there has been a significant increase in the volume of production, either in absolute terms or relative to production or consumption in the territory of the Party in which injury is alleged to have occurred. With regard to the effect of the production by the covered investment on prices, consideration shall be given as to whether there has been a significant price undercutting by the goods produced and sold by the covered investment as compared with the price of like goods produced and sold by the domestic industry, or whether the effect of production by the covered investment is otherwise to depress prices to a significant degree or to prevent price increases, which otherwise would have occurred, to a significant degree. No one or several of these factors can necessarily give decisive guidance.

3. The examination of the impact on the domestic industry of the goods produced and sold by the covered investment that received the non-commercial assistance shall include an evaluation of all relevant economic factors and indices having a bearing on the state of the industry, such as actual and potential decline in output, sales, market share, profits, productivity, return on investments, or utilisation of capacity; factors affecting domestic prices; actual and potential negative effects on cash flow, inventories, employment, wages, growth, ability to raise capital or investments and, in the case of agriculture, whether there has been an increased burden on government support programmes. This list is not exhaustive, nor can one or several of these factors necessarily give decisive guidance.

4. It must be demonstrated that the goods produced and sold by the covered investment are, through the effects<sup>24</sup> of the non-commercial assistance, causing injury within the meaning of this Article. The demonstration of a causal relationship between the above mentioned goods and the injury to the domestic industry shall be based on an examination of all relevant evidence. Any known factors other than the goods produced by the covered investment which at the same time are injuring the domestic industry shall be examined, and the injuries caused by these other factors must not be attributed to the goods produced and sold by the covered investment that has received non-commercial assistance. Factors which may be relevant in this respect include, *inter alia*, the volumes and prices of other like goods in the market in question, contraction in demand or changes in the patterns of consumption, and developments in technology and the export performance and productivity of the domestic industry.

---

<sup>23</sup> The periods for examination of the non-commercial assistance and injury shall be reasonably established and shall end as closely as practical to the date of initiation of the proceeding before the arbitral tribunal.

<sup>24</sup> As set forth in paragraph 2 and 3.

**THRESHOLD CALCULATION**

1. At the time of entry into force of this Agreement, the threshold referenced in Article 17.13(5) (Exceptions) shall be 200 million Special Drawing Rights (SDRs).
2. The amount of the threshold shall be adjusted at three-year intervals with each adjustment taking effect in January, beginning 1 January 201x, in accordance with the formula set out in this Annex.
3. The threshold shall be adjusted for changes in general price levels using a composite SDR inflation rate, calculated as a weighted sum of cumulative percent changes in the Gross Domestic Product (GDP) deflators of SDR component currencies over the three-year period ending 30 June of the year prior to the adjustment taking effect, and using the following formula:

$$T_1 = (1 + (\sum w_i^{SDR} \cdot \Pi_i^{SDR}))T_0$$

where,

$T_0$  = threshold value at base period

$T_1$  = new (adjusted) threshold value

$w_i^{SDR}$  = respective (fixed) weights of each currency,  $i$ , in the SDR (as at 30 June of the year prior to adjustment taking effect)

$\Pi_i^{SDR}$  = cumulative percent change in the GDP deflator of each currency,  $i$ , in the SDR over the three-year period ending 30 June of the year prior to adjustment taking effect.

4. Parties shall convert the threshold into national currency terms where the conversion rates will be the average of monthly values of each Party's national currency in SDR terms over the three-year period to 30 June of the year before the threshold is to take effect. Each Party shall notify the other Parties of their applicable threshold in their respective national currencies.
5. All data for the purposes of this Chapter are to be drawn from the International Monetary Fund's *International Financial Statistics* database.
6. The Parties shall consult if a major change in a national currency vis-à-vis the SDR were to create a significant problem with regard to the application of this Chapter.

**PROCESS FOR DEVELOPING INFORMATION CONCERNING STATE-OWNED ENTERPRISES AND DESIGNATED MONOPOLIES**

1. Where an arbitral tribunal has been established pursuant to Chapter 28 (Dispute Settlement) to examine a complaint arising under Article 17.4 (Non-Discriminatory Treatment and Commercial Considerations) or Article 17.6 (Non-commercial Assistance), the disputing Parties may exchange written questions, as set forth in paragraphs 2 through 4, to obtain information relevant to the complaint that is not otherwise readily available.
2. A disputing Party (the “questioning Party”) may provide written questions to the other disputing Party (the “answering Party”) within 15 days of the date the tribunal is established. The answering Party shall provide its responses to the questions to the questioning Party within 30 days from the date it receives the questions.
3. The questioning Party may provide any follow-up written questions to the answering Party within 15 days of the date it receives the responses to the initial questions. The answering Party shall provide its responses to the follow-up questions to the questioning Party within 30 days from the date it receives the follow-up questions.
4. If the questioning Party considers that the answering Party has failed to cooperate in the information-gathering process, the questioning Party shall inform the tribunal and the answering Party in writing within 30 days of the date the responses to the questioning Party’s final questions are due, and provide the basis for this view. The tribunal shall afford the answering Party an opportunity to reply in writing.
5. Each disputing Party that provides written questions or answers to the other disputing Party pursuant to these procedures shall, on the same day, provide the questions or answers to the tribunal. In the event that a tribunal has not yet been composed, each disputing Party shall, upon the composition of the tribunal, promptly provide the tribunal with any questions or responses it has provided to the other disputing Party.
6. The answering Party may designate information in its responses as confidential information in accordance with the procedures set out in the Rules of Procedure established pursuant to Article 27.2.1(e) (Functions of the Commission) or other rules of procedure agreed to by the Parties.
7. The time periods in paragraphs 2 through 4 may be modified upon agreement of the Parties or approval by the arbitral tribunal.
8. In determining whether a disputing Party has failed to cooperate in the information-gathering process, the tribunal shall take into account the reasonableness of the questions and the efforts the answering Party has made to respond to the questions in a cooperative and timely manner.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity and  
Consistency  
Subject to Authentication of English, Spanish and French Versions**

9. In making findings of fact and its initial determination, the tribunal should draw adverse inferences from instances of non-cooperation by a disputing Party in the information-gathering process.

10. The tribunal may deviate from the time period set out in Chapter 28 (Dispute Settlement) for the issuance of the initial determination where necessary to accommodate the information-gathering process.

11. The tribunal may seek additional information from a disputing Party that was not provided to the tribunal through the information-gathering process where the tribunal considers the information necessary to resolve the dispute. However, the tribunal shall not request additional information to complete the record where the information would support a Party's position and the absence of that information in the record is the result of that Party's non-cooperation in the information-gathering process.

**Article 18.31: Administrative Procedures for the Protection or Recognition of Geographical Indications**

If a Party provides administrative procedures for the protection or recognition of geographical indications, whether through a trademark or a *sui generis* system, that Party shall with respect to applications for that protection or petitions for that recognition:

**Article 18.32: Grounds of Opposition and Cancellation<sup>20</sup>**

1. If a Party protects or recognises a geographical indication through the procedures referred to in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications), that Party shall provide procedures that allow interested persons to object to the protection or recognition of a geographical indication and that allow for any such protection or recognition to be refused or otherwise not afforded, at least, on the following grounds:

- (a) the geographical indication is likely to cause confusion with a trademark that is the subject of a pre-existing good faith pending application or registration in the territory of the Party;
- (b) the geographical indication is likely to cause confusion with a pre-existing trademark, the rights to which have been acquired in accordance with the Party's law; and
- (c) the geographical indication is a term customary in common language as the common name<sup>21</sup> for the relevant good in the territory of the Party.

2. If a Party has protected or recognised a geographical indication through the procedures referred to in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications), that Party shall provide procedures that allow for interested persons to seek the cancellation of a geographical indication, and that allow for the protection or recognition to be cancelled, at least, on the grounds listed in paragraph 1. A Party may provide that the grounds listed in paragraph 1 shall apply as of the time of filing the request for protection or recognition of a geographical indication in the territory of the Party.<sup>22</sup>

3. No Party shall preclude the possibility that the protection or recognition of a geographical indication may be cancelled, or otherwise cease, on the basis that the protected or recognised term has ceased meeting the conditions upon which the protection or recognition was originally granted in that Party.

<sup>20</sup> A Party is not required to apply this Article to geographical indications for wines and spirits or to applications or petitions for those geographical indications.

<sup>21</sup> For greater certainty, if a Party provides for the procedures in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications) and this Article to be applied to geographical indications for wines and spirits or applications or petitions for those geographical indications, the Parties understand nothing shall require a Party to protect or recognise a geographical indication of any other Party with respect to products of the vine for which the relevant indication is identical with the customary name of a grape variety existing in the territory of that Party.

<sup>22</sup> For greater certainty, if the grounds listed in paragraph 1 did not exist in a Party's law as of the time of filing of the request for protection or recognition of a geographical indication under Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications), that Party is not required to apply those grounds for the purposes of paragraphs 2 or 4 (Grounds of Opposition and Cancellation) in relation to that geographical indication.

4. If a Party has in place a *sui generis* system for protecting unregistered geographical indications by means of judicial procedures, that Party shall provide that its judicial authorities have the authority to deny the protection or recognition of a geographical indication if any of the circumstances identified in paragraph 1 has been established.<sup>23</sup> That Party shall also provide a process that allows interested persons to commence a proceeding on the grounds identified in paragraph 1.

5. If a Party provides protection or recognition of a geographical indication through the procedures referred to in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications) to the translation or transliteration of that geographical indication, that Party shall make available procedures that are equivalent to, and grounds that are the same as, those referred to in paragraphs 1 and 2 with respect to that translation or transliteration.

With respect to the procedures in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications) and Article 18.32 (Grounds of Opposition and Cancellation), in determining whether a term is the term customary in common language as the common name for the relevant good in the territory of a Party, that Party's authorities shall have the authority to take into account how consumers understand the term in the territory of that Party. Factors relevant to such consumer understanding may include:

- (a) whether the term is used to refer to the type of good in question, as indicated by competent sources such as dictionaries, newspapers and relevant websites; and
- (b) how the good referenced by the term is marketed and used in trade in the territory of that Party.<sup>24</sup>

**Article 18.34: Multi-Component Terms**

<sup>23</sup> As an alternative to this paragraph, if a Party has in place a *sui generis* system of the type referred to in this paragraph as of the applicable date under Article 18.36.6 (International Agreements), that Party shall at least provide that its judicial authorities have the authority to deny the protection or recognition of a geographical indication if the circumstances identified in paragraph 1(c) have been established.

**Article 18.35: Date of Protection of a Geographical Indication**

If a Party grants protection or recognition to a geographical indication through the procedures referred to in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications), that protection or recognition shall commence no earlier than the filing date<sup>25</sup> in the Party or the registration date in the Party, as applicable.

**Article 18.36: International Agreements**

1. If a Party protects or recognises a geographical indication pursuant to an international agreement, as of the applicable date under paragraph 6, involving a Party or a non-Party and that geographical indication is not protected through the procedures referred to in Article 18.31 (Administrative Procedures for the Protection or Recognition of Geographical Indications)<sup>26</sup> or Article 18.32.4 (Grounds of Opposition and Cancellation), that Party shall apply at least procedures and grounds that are equivalent to those in Article 18.31(e) (Administrative Procedures for the Protection or Recognition of Geographical Indications) and Article 18.32.1 (Grounds of Opposition and Cancellation), as well as:

- (a) make available information sufficient to allow the general public to obtain guidance concerning the procedures for protecting or recognising the geographical indication and allow interested persons to ascertain the status of requests for protection or recognition;
- (b) make available to the public, on the Internet, details regarding the terms that the Party is considering protecting or recognising through an international agreement involving a Party or a non-party, including specifying whether the protection or recognition is being considered for any translations or transliterations of those terms, and with respect to multi-component terms, specifying the components, if any, for which protection or recognition is being considered, or the components that are disclaimed;

- (a) apply paragraph 1(b);
- (b) provide an opportunity for interested persons to comment regarding the protection or recognition of the new geographical indication for a reasonable period of time before such a term is protected or recognised; and
- (c) inform the other Parties of the opportunity to comment, no later than the commencement of the period for comment.

3. For the purposes of this Article, a Party shall not preclude the possibility that the protection or recognition of a geographical indication could cease.

4. For the purposes of this Article, a Party is not required to apply Article 18.32 (Grounds of Opposition and Cancellation), or obligations equivalent to Article 18.32, to geographical indications for wines and spirits or applications for those geographical indications.

5. Protection or recognition provided pursuant to paragraph 1 shall commence no earlier than the date on which the agreement enters into force or, if that Party grants that protection or recognition on a date after the entry into force of the agreement, on that later date.

6. No Party shall be required to apply this Article to geographical indications that have been specifically identified in, and that are protected or recognised pursuant to, an international agreement involving a Party or a non-Party, provided that the agreement:

- (a) was concluded, or agreed in principle,<sup>29</sup> prior to the date of conclusion, or agreement in principle, of this Agreement;

**Subsection A: General Patents**

**Article 18.37: Patentable Subject Matter**

1. Subject to paragraphs 3 and 4, each Party shall make patents available for any invention, whether a product or process, in all fields of technology, provided that the invention is new, involves an inventive step and is capable of industrial application.<sup>30</sup>

2. Subject to paragraphs 3 and 4 and consistent with paragraph 1, each Party confirms that patents are available for inventions claimed as at least one of the following: new uses of a known product, new methods of using a known product, or new processes of using a known product. A Party may limit those new processes to those that do not claim the use of the product as such.

3. A Party may exclude from patentability inventions, the prevention within their territory of the commercial exploitation of which is necessary to protect *ordre public* or morality, including to protect human, animal or plant life or health or to avoid serious prejudice to nature or the environment, provided that such exclusion is not made merely because the exploitation is prohibited by its law. A Party may also exclude from patentability:

- (a) diagnostic, therapeutic and surgical methods for the treatment of humans or animals;
- (b) animals other than microorganisms, and essentially biological processes for the production of plants or animals, other than non-biological and microbiological processes.

4. A Party may also exclude from patentability plants other than microorganisms. However, consistent with paragraph 1 and subject to paragraph 3, each Party confirms that patents are available at least for inventions that are derived from plants.

- (b) occurred within 12 months prior to the date of the filing of the application in the territory of the Party.

**Article 18.39: Patent Revocation**

1. Each Party shall provide that a patent may be cancelled, revoked or nullified only on grounds that would have justified a refusal to grant the patent. A Party may also provide that fraud, misrepresentation or inequitable conduct may be the basis for cancelling, revoking or nullifying a patent or holding a patent unenforceable.

2. Notwithstanding paragraph 1, a Party may provide that a patent may be revoked, provided it is done in a manner consistent with Article 5A of the Paris Convention and the TRIPS Agreement.

**Article 18.40: Exceptions**

A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

**Article 18.41: Other Use Without Authorisation of the Right Holder**

The Parties understand that nothing in this Chapter limits a Party's rights and obligations under Article 31 of the TRIPS Agreement, any waiver or any amendment to that Article that the Parties accept.

---

<sup>31</sup> No Party shall be required to disregard information contained in applications for, or registrations of, intellectual property rights made available to the public or published by a patent office, unless erroneously published or unless the application was filed without the consent of the inventor or their successor in title, by a third person who obtained the information directly or indirectly from the inventor.

<sup>32</sup> For greater certainty, a Party may limit the application of this Article to disclosures made by, or obtained directly or indirectly from, the inventor or joint inventor. For greater certainty, a Party may provide that, for the purposes of this Article, information obtained directly or indirectly from the patent applicant may be information contained in the public disclosure that was authorised by, or derived from, the patent applicant.

**Article 18.42: Patent Filing**

Each Party shall provide that if an invention is made independently by more than one inventor, and separate applications claiming that invention are filed with, or for, the relevant authority of the Party, that Party shall grant the patent on the application that is patentable and that has the earliest filing date or, if applicable, priority date,<sup>33</sup> unless that application has, prior to publication,<sup>34</sup> been withdrawn, abandoned or refused.

**Article 18.43: Amendments, Corrections and Observations**

Each Party shall provide a patent applicant with at least one opportunity to make amendments, corrections and observations in connection with its application.<sup>35</sup>

**Article 18.44: Publication of Patent Applications**

1. Recognising the benefits of transparency in the patent system, each Party shall endeavour to publish unpublished pending patent applications promptly after the expiration of 18 months from the filing date or, if priority is claimed, from the earliest priority date.

2. If a pending application is not published promptly in accordance with paragraph 1, a Party shall publish that application or the corresponding patent, as soon as practicable.

3. Each Party shall provide that an applicant may request the early publication of an application prior to the expiration of the period referred to in paragraph 1.

**Article 18.45: Information Relating to Published Patent Applications and Granted Patents**

For published patent applications and granted patents, and in accordance with the Party's requirements for prosecution of such applications and patents, each Party shall make available to the public at least the following information, to the extent that such information is in the possession of the competent authorities and is generated on, or after, the date of the entry into force of this Agreement for that Party:

<sup>34</sup> For greater certainty, a Party may grant the patent to the subsequent application that is patentable, if an earlier application has been withdrawn, abandoned, or refused, or is not prior art against the subsequent application.

<sup>35</sup> A Party may provide that such amendments do not go beyond the scope of the disclosure of the invention, as of the filing date.

**Article 18.46: Patent Term Adjustment for Patent Office Delays**

1. Each Party shall make best efforts to process patent applications in an efficient and timely manner, with a view to avoiding unreasonable or unnecessary delays.
2. A Party may provide procedures for a patent applicant to request to expedite the examination of its patent application.
3. If there are unreasonable delays in a Party's issuance of patents, that Party shall provide the means to, and at the request of the patent owner shall, adjust the term of the patent to compensate for such delays.<sup>36</sup>
4. For the purposes of this Article, an unreasonable delay at least shall include a delay in the issuance of a patent of more than five years from the date of filing of the application in the territory of the Party, or three years after a request for examination of the application has been made, whichever is later. A Party may exclude, from the determination of such delays, periods of time that do not occur during the processing<sup>37</sup> of, or the examination of, the patent application by the granting authority; periods of time that are not directly attributable<sup>38</sup> to the granting authority; as well as periods of time that are attributable to the patent applicant.<sup>39</sup>

<sup>36</sup> Annex 18-D applies to this paragraph.

<sup>37</sup> For the purposes of this paragraph, a Party may interpret processing to mean initial administrative processing and administrative processing at the time of grant.

<sup>38</sup> A Party may treat "delays that are not directly attributable to the granting authority" as delays that are outside the direction or control of the granting authority.

<sup>39</sup> Notwithstanding Article 18.10 (Application of Chapter to Existing Subject Matter and Prior Acts), this Article shall apply to all patent applications filed after the date of entry into force of this Agreement for that Party, or the date two years after the signing of this Agreement, whichever is later for that Party.

**Article 18.47: Protection of Undisclosed Test or Other Data for Agricultural Chemical Products**

1. If a Party requires, as a condition for granting marketing approval<sup>40</sup> for a new agricultural chemical product, the submission of undisclosed test or other data concerning the safety and efficacy of the product,<sup>41</sup> that Party shall not permit third persons, without the consent of the person that previously submitted such information, to market the same or a similar<sup>42</sup> product on the basis of that information or the marketing approval granted to the person that submitted such test or other data for at least ten years<sup>43</sup> from the date of marketing approval of the new agricultural chemical product in the territory of the Party.

2. If a Party permits, as a condition of granting marketing approval for a new agricultural chemical product, the submission of evidence of a prior marketing approval of the product in another territory, that Party shall not permit third persons, without the consent of the person that previously submitted undisclosed test or other data concerning the safety and efficacy of the product in support of that prior marketing approval, to market the same or a similar product based on that undisclosed test or other data, or other evidence of the prior marketing approval in the other territory, for at least ten years from the date of marketing approval of the new agricultural chemical product in the territory of the Party.

3. For the purposes of this Article, a new agricultural chemical product is one that contains<sup>44</sup> a chemical entity that has not been previously approved in the territory of the Party for use in an agricultural chemical product.

---

<sup>40</sup> For the purposes of this Chapter, the term “marketing approval” is synonymous with “sanitary approval” under a Party’s law.

<sup>41</sup> Each Party confirms that the obligations of this Article apply to cases in which the Party requires the submission of undisclosed test or other data concerning: (a) only the safety of the product, (b) only the efficacy of the product or (c) both.

<sup>42</sup> For greater certainty, for the purposes of this Section, an agricultural chemical product is “similar” to a previously approved agricultural chemical product if the marketing approval, or, in the alternative, the applicant’s request for such approval, of that similar agricultural chemical product is based upon the undisclosed test or other data concerning the safety and efficacy of the previously approved agricultural chemical product, or the prior approval of that previously approved product.

<sup>43</sup> For greater certainty, a Party may limit the period of protection under this Article to 10 years.

<sup>44</sup> For the purposes of this Article, a Party may treat “contain” as meaning utilize. For greater certainty, for the purposes of this Article, a Party may treat “utilize” as requiring the new chemical entity to be primarily responsible for the product’s intended effect.

2. Each Party shall:<sup>55</sup>

- (a) apply paragraph 1, *mutatis mutandis*, for a period of at least three years with respect to new clinical information submitted as required in support of a marketing approval of a previously approved pharmaceutical product covering a new indication, new formulation or new method of administration; or, alternatively,
- (b) apply paragraph 1, *mutatis mutandis*, for a period of at least five years to new pharmaceutical products that contain a chemical entity that has not been previously approved in that Party.<sup>56</sup>

---

<sup>51</sup> Each Party confirms that the obligations of this Article, and Article 18.52 (Biologics) apply to cases in which the Party requires the submission of undisclosed test or other data concerning: (a) only the safety of the product, (b) only the efficacy of the product or (c) both.

<sup>52</sup> For greater certainty, for the purposes of this Section, a pharmaceutical product is “similar” to a previously approved pharmaceutical product if the marketing approval, or, in the alternative, the applicant’s request for such approval, of that similar pharmaceutical product is based upon the undisclosed test or other data concerning the safety and efficacy of the previously approved pharmaceutical product, or the prior approval of that previously approved product.

<sup>53</sup> For greater certainty, a Party may limit the period of protection under paragraph 1 to five years, and the period of protection under Article 18.52.1(a) (Biologics) to eight years.

<sup>54</sup> Annex 18-D applies to this subparagraph.

<sup>55</sup> A Party that provides a period of at least eight years of protection pursuant to paragraph 1 is not required to apply paragraph 2.

3. Notwithstanding paragraphs 1 and 2 and Article 18.52 (Biologics), a Party may take measures to protect public health in accordance with:

- (a) the Declaration on TRIPS and Public Health;
- (b) any waiver of any provision of the TRIPS Agreement granted by WTO Members in accordance with the WTO Agreement to implement the Declaration on TRIPS and Public Health and that is in force between the Parties; or
- (c) any amendment of the TRIPS Agreement to implement the Declaration on TRIPS and Public Health that enters into force with respect to the Parties.

**Article 18.51: Measures Relating to the Marketing of Certain Pharmaceutical Products**

1. If a Party permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting the safety and efficacy information, to rely on evidence or information concerning the safety and efficacy of a product that was previously approved, such as evidence of prior marketing approval by the Party or in another territory, that Party shall provide:

- (a) a system to provide notice to a patent holder<sup>57</sup> or to allow for a patent holder to be notified prior to the marketing of such a pharmaceutical product, that such other person is seeking to market that product during the term of an applicable patent claiming the approved product or its approved method of use;
- (b) adequate time and opportunity for such a patent holder to seek, prior to the marketing<sup>58</sup> of an allegedly infringing product, available remedies in subparagraph (c); and
- (c) procedures, such as judicial or administrative proceedings, and expeditious remedies, such as preliminary injunctions or equivalent effective provisional measures, for the timely resolution of disputes concerning the validity or infringement of an applicable patent

---

<sup>56</sup> For the purposes of Article 18.50.2(b) (Protection of Undisclosed Test or Other Data), a Party may choose to protect only the undisclosed test or other data concerning the safety and efficacy relating to the chemical entity that has not been previously approved.

<sup>57</sup> For greater certainty, for the purposes of this Article, a Party may provide that a “patent holder” includes a patent licensee or the authorised holder of marketing approval.

<sup>58</sup> For the purposes of paragraph 1(b), a Party may treat “marketing” as commencing at the time of listing for purposes of the reimbursement of pharmaceutical products pursuant to a national healthcare programme operated by a Party and inscribed in the Schedule to Annex 26-A (Transparency and Procedural Fairness for Pharmaceutical Products and Medical Devices).

claiming an approved pharmaceutical product or its approved method of use.

2. As an alternative to paragraph 1, a Party shall instead adopt or maintain a system other than judicial proceedings that precludes, based upon patent-related information submitted to the marketing approval authority by a patent holder or the applicant for marketing approval, or based on direct coordination between the marketing approval authority and the patent office, the issuance of marketing approval to any third person seeking to market a pharmaceutical product subject to a patent claiming that product, unless by consent or acquiescence of the patent holder.

**Article 18.52: Biologics<sup>59</sup>**

1. With regard to protecting new biologics, a Party shall either:
  - (a) with respect to the first marketing approval in a Party of a new pharmaceutical product that is or contains a biologic,<sup>60, 61</sup> provide effective market protection through the implementation of Article 18.50.1 (Protection of Undisclosed Test or Other Data) and Article 18.50.3, *mutatis mutandis*, for a period of at least eight years from the date of first marketing approval of that product in that Party; or, alternatively,
  - (b) with respect to the first marketing approval in a Party of a new pharmaceutical product that is or contains a biologic, provide effective market protection:
    - (i) through the implementation of Article 18.50.1 (Protection of Undisclosed Test or Other Data) and Article 18.50.3, *mutatis mutandis*, for a period of at least five years from the date of first marketing approval of that product in that Party,
    - (ii) through other measures, and
    - (iii) recognising that market circumstances also contribute to effective market protection

---

<sup>59</sup> Annex 18-B, Annex 18-C and Annex 18-D apply to this Article.

<sup>60</sup> Nothing requires a Party to extend the protection of this paragraph to:

- (a) any second or subsequent marketing approval of such a pharmaceutical product; or
- (b) a pharmaceutical product that is or contains a previously approved biologic.

<sup>61</sup> Each Party may provide that an applicant may request approval of a pharmaceutical product that is or contains a biologic under the procedures set forth in Article 18.50.1(a) and Article 18.50.1(b) (Protection of Undisclosed Test or Other Data) within five years of the date of entry into force of this Agreement for that Party, provided that other pharmaceutical products in the same class of products have been approved by that Party under the procedures set forth in Article 18.50.1(a) and Article 18.50.1(b) before the date of entry into force of this Agreement for that Party.

to deliver a comparable outcome in the market.

2. For the purposes of this Section, each Party shall apply this Article to, at a minimum, a product that is, or, alternatively, contains, a protein produced using biotechnology processes, for use in human beings for the prevention, treatment, or cure of a disease or condition.

3. Recognising that international and domestic regulation of new pharmaceutical products that are or contain a biologic is in a formative stage and that market circumstances may evolve over time, the Parties shall consult after 10 years from the date of entry into force of this Agreement, or as otherwise decided by the Commission, to review the period of exclusivity provided in paragraph 1 and the scope of application provided in paragraph 2, with a view to providing effective incentives for the development of new pharmaceutical products that are or contain a biologic, as well as with a view to facilitating the timely availability of follow-on biosimilars, and to ensuring that the scope of application remains consistent with international developments regarding approval of additional categories of new pharmaceutical products that are or contain a biologic.

**Article 18.53: Definition of New Pharmaceutical Product**

For the purposes of Article 18.50.1 (Protection of Undisclosed Test or Other Data), a **new pharmaceutical product** means a pharmaceutical product that does not contain<sup>62</sup> a chemical entity that has been previously approved in that Party.

**Article 18.54: Alteration of Period of Protection**

Subject to Article 18.50.3 (Protection of Undisclosed Test or Other Data), if a product is subject to a system of marketing approval in the territory of a Party pursuant to Article 18.47 (Protection of Undisclosed Test or Other Data for Agricultural Chemical Products), Article 18.50 or Article 18.52 (Biologics) and is also covered by a patent in the territory of that Party, the Party shall not alter the period of protection that it provides pursuant to Article 18.47, Article 18.50 or Article 18.52 in the event that the patent protection terminates on a date earlier than the end of the period of protection specified in Article 18.47, Article 18.50 or Article 18.52.

The Parties recognise the importance of improving the quality and efficiency of their respective industrial design registration systems, as well as facilitating the process of cross-border acquisition of rights in their respective industrial design systems, including giving due consideration to ratifying or acceding to the *Geneva Act of the Hague Agreement Concerning the International Registration of Industrial Designs*, done at Geneva, July 2, 1999.

**Article 18.57: Definitions**

For the purposes of Article 18.58 (Right of Reproduction) and Article 18.60 (Right of Distribution) through Article 18.70 (Collective Management), the following definitions apply with respect to performers and producers of phonograms:

**broadcasting** means the transmission by wireless means for public reception of sounds or of images and sounds or of the representations thereof; such transmission by satellite is also “broadcasting”; transmission of encrypted signals is “broadcasting” if the means for decrypting are provided to the public by the broadcasting organization or with its consent;

**communication to the public** of a performance or a phonogram means the transmission to the public by any medium, other than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram;

**fixation** means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;

**performers** means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;

**phonogram** means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;

**producer of a phonogram** means a person that takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds; and

**publication** of a performance or phonogram means the offering of copies of the performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity.

<sup>63</sup> For greater certainty, the Parties understand that it is a matter for each Party’s law to prescribe that works, performances or phonograms in general or any specified categories of works, performances and phonograms are not protected by copyright or related rights unless the work, performance or phonogram has been fixed in some material form.

works, performances or phonograms in any manner or form, including in electronic form.

**Article 18.59: Right of Communication to the Public**

Without prejudice to Article 11(1)(ii), Article 11*bis*(1)(i) and (ii), Article 11*ter*(1)(ii), Article 14(1)(ii), and Article 14*bis*(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorise or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.<sup>65</sup>

**Article 18.60: Right of Distribution**

Each Party shall provide to authors, performers and producers of phonograms the exclusive right to authorise or prohibit the making available to the public of the original and copies<sup>66</sup> of their works, performances and phonograms through sale or other transfer of ownership.

**Article 18.61: No Hierarchy**

Each Party shall provide that in cases in which authorisation is needed from both the author of a work embodied in a phonogram and a performer or producer that owns rights in the phonogram:

- (a) the need for the authorisation of the author does not cease to exist because the authorisation of the performer or producer is also required; and
- (b) the need for the authorisation of the performer or producer does not cease to exist because the authorisation of the author is also required.

<sup>64</sup> References to “authors, performers, and producers of phonograms” refer also to any of their successors in interest.

<sup>65</sup> The Parties understand that the mere provision of physical facilities for enabling or making a communication does not in itself amount to communication within the meaning of this Chapter or the Berne Convention. The Parties further understand that nothing in this Article precludes a Party from applying Article 11*bis*(2) of the Berne Convention.

<sup>66</sup> The expressions “copies” and “original and copies”, that are subject to the right of distribution in this Article, refer exclusively to fixed copies that can be put into circulation as tangible objects.

**Article 18.62: Related Rights**

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms: to the performers and producers of phonograms that are nationals<sup>67</sup> of another Party; and to performances or phonograms first published or first fixed<sup>68</sup> in the territory of another Party.<sup>69</sup> A performance or phonogram shall be considered first published in the territory of a Party if it is published in the territory of that Party within 30 days of its original publication.
2. Each Party shall provide to performers the exclusive right to authorise or prohibit:
  - (a) the broadcasting and communication to the public of their unfixed performances, unless the performance is already a broadcast performance; and
  - (b) the fixation of their unfixed performances.
3.
  - (a) Each Party shall provide to performers and producers of phonograms the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means,<sup>70,71</sup> and the making available to the public of those performances or phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.
  - (b) Notwithstanding subparagraph (a) and Article 18.65 (Limitations and Exceptions), the application of the right referred to in subparagraph (a) to analog transmissions and non-interactive free over-the-air broadcasts, and exceptions or limitations to this right for those activities, is a matter of each Party's law.<sup>72</sup>

---

<sup>67</sup> For the purposes of determining criteria for eligibility under this Article, with respect to performers, a Party may treat "nationals" as those who would meet the criteria for eligibility under Article 3 of the WPPT.

<sup>68</sup> For the purposes of this Article, fixation means the finalisation of the master tape or its equivalent.

<sup>69</sup> For greater certainty, in this paragraph with respect to performances or phonograms first published or first fixed in the territory of a Party, a Party may apply the criterion of publication, or alternatively, the criterion of fixation, or both. For greater certainty, consistent with Article 18.8 (National Treatment), each Party shall accord to performances and phonograms first published or first fixed in the territory of another Party treatment no less favourable than it accords to performances or phonograms first published or first fixed in its own territory.

<sup>70</sup> With respect to broadcasting and communication to the public, a Party may satisfy the obligation by applying Article 15(1) and Article 15(4) of the WPPT and may also apply Article 15(2) of the WPPT, provided that it is done in a manner consistent with that Party's obligations under Article 18.8 (National Treatment).

<sup>71</sup> For greater certainty, the obligation under this paragraph does not include broadcasting or communication to the public, by wire or wireless means, of the sounds or representations of sounds fixed in a phonogram that are incorporated in a cinematographic or other audiovisual work.

<sup>72</sup> For the purposes of this subparagraph the Parties understand that a Party may provide for the retransmission of non-interactive, free over-the-air broadcasts, provided that these retransmissions are

**Article 18.63: Term of Protection for Copyright and Related Rights**

Each Party shall provide that in cases in which the term of protection of a work, performance or phonogram is to be calculated:<sup>73</sup>

- (a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author's death;<sup>74</sup> and
- (b) on a basis other than the life of a natural person, the term shall be:
  - (i) not less than 70 years from the end of the calendar year of the first authorised publication<sup>75</sup> of the work, performance or phonogram; or
  - (ii) failing such authorised publication within 25 years from the creation of the work, performance or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance or phonogram.<sup>76</sup>

**Article 18.64: Application of Article 18 of the Berne Convention and Article 14.6 of the TRIPS Agreement**

Each Party shall apply Article 18 of the Berne Convention and Article 14.6 of the TRIPS Agreement, *mutatis mutandis*, to works, performances and phonograms, and the rights in and protections afforded to that subject matter as required by this Section.

lawfully permitted by that Party's government communications authority; any entity engaging in these retransmissions complies with the relevant rules, orders or regulations of that authority; and these retransmissions do not include those delivered and accessed over the Internet. For greater certainty this footnote does not limit a Party's ability to avail itself of this subparagraph.

<sup>73</sup> For greater certainty, in implementing this Article, nothing prevents a Party from promoting certainty for the legitimate use and exploitation of a work, performance or phonogram during its term of protection, consistent with Article 18.65 (Limitations and Exceptions) and that Party's international obligations.

<sup>74</sup> The Parties understand that if a Party provides its nationals a term of copyright protection that exceeds life of the author plus 70 years, nothing in this Article or Article 18.8 (National Treatment) shall preclude that Party from applying Article 7.8 of the Berne Convention with respect to the term in excess of the term provided in this subparagraph of protection for works of another Party.

<sup>75</sup> For greater certainty, for the purposes of subparagraph (b), if a Party's law provides for the calculation of term from fixation rather than from the first authorised publication, that Party may continue to calculate the term from fixation.

<sup>76</sup> For greater certainty, a Party may calculate a term of protection for an anonymous or pseudonymous work or a work of joint authorship in accordance with Article 7(3) or Article 7*bis* of the Berne Convention, provided that the Party implements the corresponding numerical term of protection required under this Article.

**Article 18.65: Limitations and Exceptions**

1. With respect to this Section, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.
2. This Article does not reduce or extend the scope of applicability of the limitations and exceptions permitted by the TRIPS Agreement, the Berne Convention, the WCT or the WPPT.

**Article 18.66: Balance in Copyright and Related Rights Systems**

Each Party shall endeavour to achieve an appropriate balance in its copyright and related rights system, among other things by means of limitations or exceptions that are consistent with Article 18.65 (Limitations and Exceptions), including those for the digital environment, giving due consideration to legitimate purposes such as, but not limited to: criticism; comment; news reporting; teaching, scholarship, research, and other similar purposes; and facilitating access to published works for persons who are blind, visually impaired or otherwise print disabled.<sup>77,78</sup>

**Article 18.67: Contractual Transfers**

Each Party shall provide that for copyright and related rights, any person acquiring or holding any economic right<sup>79</sup> in a work, performance or phonogram:

- (a) may freely and separately transfer that right by contract; and
- (b) by virtue of contract, including contracts of employment underlying the creation of works, performances or phonograms, shall be able to exercise that right in that person's own name and enjoy fully the benefits derived from that right.<sup>80</sup>

The Parties recognise that some Parties facilitate the availability of works in accessible formats for beneficiaries beyond the requirements of the Marrakesh Treaty.

<sup>78</sup> For greater certainty, a use that has commercial aspects may in appropriate circumstances be considered to have a legitimate purpose under Article 18.65 (Limitations and Exceptions).

<sup>79</sup> For greater certainty, this provision does not affect the exercise of moral rights.

<sup>80</sup> Nothing in this Article affects a Party's ability to establish: (i) which specific contracts underlying the creation of works, performances or phonograms shall, in the absence of a written agreement, result in a transfer of economic rights by operation of law; and (ii) reasonable limits to protect the interests of the original right holders, taking into account the legitimate interests of the transferees.

**Article 18.68: Technological Protection Measures (TPMs)<sup>81</sup>**

1. In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorised acts in respect of their works, performances, and phonograms, each Party shall provide that any person that:

- (a) knowingly, or having reasonable grounds to know,<sup>82</sup> circumvents without authority any effective technological measure that controls access to a protected work, performance, or phonogram;<sup>83</sup> or
- (b) manufactures, imports, distributes,<sup>84</sup> offers for sale or rental to the public, or otherwise provides devices, products, or components, or offers to the public or provides services, that:
  - (i) are promoted, advertised, or otherwise marketed by that person<sup>85</sup> for the purpose of circumventing any effective technological measure;
  - (ii) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure;<sup>86</sup> or
  - (iii) are primarily designed, produced, or performed for the purpose of circumventing any effective technological measure,

is liable and subject to the remedies provided for in Article 18.74 (Civil and Administrative Procedures and Remedies).

---

<sup>81</sup> Nothing in this Agreement requires a Party to restrict the importation or domestic sale of a device that does not render effective a technological measure the only purpose of which is to control market segmentation for legitimate physical copies of a cinematographic film, and is not otherwise a violation of its law.

<sup>82</sup> For the purposes of this subparagraph, a Party may provide that reasonable grounds to know may be demonstrated through reasonable evidence, taking into account the facts and circumstances surrounding the alleged illegal act.

<sup>83</sup> For greater certainty, no Party is required to impose civil or criminal liability under this subparagraph for a person that circumvents any effective technological measure that protects any of the exclusive rights of copyright or related rights in a protected work, performance or phonogram, but does not control access to such that work, performance or phonogram.

<sup>84</sup> A Party may provide that the obligations described in this subparagraph with respect to manufacturing, importation, and distribution apply only in cases in which those activities are undertaken for sale or rental, or if those activities prejudice the interests of the right holder of the copyright or related right.

<sup>85</sup> The Parties understand that this provision still applies in cases in which the person promotes, advertises, or markets through the services of a third person.

<sup>86</sup> A Party may comply with this paragraph if the conduct referred to in this subparagraph does not have a commercially significant purpose or use other than to circumvent an effective technological measure.

Each Party shall provide for criminal procedures and penalties to be applied if any person is found to have engaged wilfully<sup>87</sup> and for the purposes of commercial advantage or financial gain<sup>88</sup> in any of the above activities.<sup>89</sup>

A Party may provide that the criminal procedures and penalties do not apply to a non-profit library, museum, archive, educational institution, or public non-commercial broadcasting entity. A Party may also provide that the remedies provided for in Article 18.74 (Civil and Administrative Procedures and Remedies) do not apply to any of the same entities provided that the above activities are carried out in good faith without knowledge that the conduct is prohibited.

2. In implementing paragraph 1, no Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, provided that the product does not otherwise violate a measure implementing paragraph 1.

3. Each Party shall provide that a violation of a measure implementing this Article is independent of any infringement that might occur under the Party's law on copyright and related rights.<sup>90</sup>

4. With regard to measures implementing paragraph 1:

- (a) a Party may provide certain limitations and exceptions to the measures implementing paragraph 1(a) or paragraph 1(b) in order to enable non-infringing uses if there is an actual or likely adverse impact of those measures on those non-infringing uses, as determined through a legislative, regulatory, or administrative process in accordance with the Party's law, giving due consideration to evidence when presented in that process, including with respect to whether appropriate and effective measures have been taken by rights holders to enable the beneficiaries to enjoy the limitations and exceptions to copyright and related rights under that Party's law;<sup>91</sup>

<sup>87</sup> For greater certainty, for purposes of this Article and Article 18.69 (RMI), wilfulness contains a knowledge element.

<sup>88</sup> For greater certainty, for purposes of this Article, Article 18.69 (RMI) and Article 18.77.1 (Criminal Procedures and Penalties), the Parties understand that a Party may treat "financial gain" as "commercial purposes".

<sup>89</sup> For greater certainty, no Party is required to impose liability under this Article and Article 18.69 (RMI) for actions taken by that Party or a third person acting with the authorisation or consent of that Party.

<sup>90</sup> For greater certainty, a Party is not required to treat the criminal act of circumvention set forth in paragraph 1(a) as an independent violation, where the Party criminally penalises such acts through other means.

<sup>91</sup> For greater certainty, nothing in this provision requires a Party to make a new determination through the legislative, regulatory, or administrative process with respect to limitations and exceptions to the legal protection of effective technological measures: (i) previously established pursuant to trade agreements in force between two or more Parties; or (ii) previously implemented by the Parties, provided that such limitations and exceptions are otherwise consistent with this paragraph.

- (b) any limitations or exceptions to a measure that implements paragraph 1(b) shall be permitted only to enable the legitimate use of a limitation or exception permissible under this Article by its intended beneficiaries<sup>92</sup> and does not authorise the making available of devices, products, components, or services beyond those intended beneficiaries;<sup>93</sup> and
- (c) a Party shall not, by providing limitations and exceptions under paragraph 4(a) and paragraph 4(b), undermine the adequacy of that Party's legal system for the protection of effective technological measures, or the effectiveness of legal remedies against the circumvention of such measures, that authors, performers, or producers of phonograms use in connection with the exercise of their rights, or that restrict unauthorised acts in respect of their works, performances or phonograms, as provided for in this Chapter.

5. **effective technological measure** means any effective<sup>94</sup> technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, or phonogram, or protects copyright or related rights related to a work, performance or phonogram.

**Article 18.69: Rights Management Information (RMI)**<sup>95</sup>

- 1. In order to provide adequate and effective legal remedies to protect RMI:
  - (a) each Party shall provide that any person that, without authority, and knowing, or having reasonable grounds to know, that it would induce, enable, facilitate or conceal an infringement of the copyright or related right of authors, performers or producers of phonograms:
    - (i) knowingly<sup>96</sup> removes or alters any RMI;
    - (ii) knowingly distributes or imports for distribution RMI knowing that the RMI has been altered without authority;<sup>97</sup> or

---

<sup>92</sup> For greater certainty, a Party may provide an exception to subparagraph 1(b) without providing a corresponding exception to subparagraph 1(a), provided that the exception to paragraph 1(b) is limited to enabling a legitimate use that is within the scope of limitations or exceptions to 1(a) as provided under this subparagraph.

<sup>93</sup> For the purposes of interpreting subparagraph 4(b) only, subparagraph 1(a) should be read to apply to all effective technological measures as defined in paragraph 5, *mutatis mutandis*.

<sup>94</sup> For greater certainty, a technological measure that can, in a usual case, be circumvented accidentally is not an "effective" technological measure.

<sup>95</sup> A Party may comply with the obligations in this Article by providing legal protection only to electronic RMI.

<sup>96</sup> For greater certainty, a Party may extend the protection afforded by this paragraph to circumstances in which a person engages without knowledge in the acts in sub-subparagraphs (i), (ii), and (iii), and to other related right holders.

is liable and subject to the remedies set out in Article 18.74(Civil and Administrative Procedures and Remedies).

Each Party shall provide for criminal procedures and penalties to be applied if any person is found to have engaged wilfully and for purposes of commercial advantage or financial gain in any of the activities described in subparagraph (a).

A Party may provide that the criminal procedures and penalties referred to in paragraph 1(b) do not apply to a non-profit library, museum, archive, educational institution or public non-commercial broadcasting entity.<sup>98</sup>

2. For greater certainty, nothing prevents a Party from excluding from a measure that implements paragraph 1 a lawfully authorised activity that is carried out for the purpose of law enforcement, essential security interests or other related governmental purposes, such as the performance of a statutory function.

3. For greater certainty, nothing in this Article shall obligate a Party to require a right holder in a work, performance or phonogram to attach RMI to copies of the work, performance or phonogram, or to cause RMI to appear in connection with a communication of the work, performance or phonogram to the public.

4. **RMI** means:

**Section I: Enforcement**

**Article 18.71: General Obligations**

1. Each Party shall ensure that enforcement procedures as specified in this Section are available under its law<sup>100</sup> so as to permit effective action against any act of infringement of intellectual property rights covered by this Chapter, including expeditious remedies to prevent infringements and remedies that constitute a deterrent to future infringements.<sup>101</sup> These procedures shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.
2. Each Party confirms that the enforcement procedures set forth in Article 18.74 (Civil and Administrative Procedures and Remedies), Article 18.75 (Provisional Measures) and Article 18.77 (Criminal Procedures and Penalties) shall be available to the same extent with respect to acts of trademark infringement, as well as copyright or related rights infringement, in the digital environment.
3. Each Party shall ensure that its procedures concerning the enforcement of intellectual property rights are fair and equitable. These procedures shall not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays.
4. This Section does not create any obligation:
  - (a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general, nor does it affect the capacity of each Party to enforce its law in general; or
  - (b) with respect to the distribution of resources as between the enforcement of intellectual property rights and the enforcement of law in general.
5. In implementing the provisions of this Section in its intellectual property system, each Party shall take into account the need for proportionality between the seriousness of the infringement of the intellectual property right and the applicable remedies and penalties, as well as the interests of third parties.

<sup>101</sup> For greater certainty, and subject to Article 44 of the TRIPS Agreement and the provisions of this Agreement, each Party confirms that it makes such remedies available with respect to enterprises, regardless of whether the enterprises are private or state-owned.

1. In civil, criminal and, if applicable, administrative proceedings involving copyright or related rights, each Party shall provide for a presumption<sup>102</sup> that, in the absence of proof to the contrary:

- (a) the person whose name is indicated in the usual manner<sup>103</sup> as the author, performer or producer of the work, performance or phonogram, or if applicable the publisher, is the designated right holder in that work, performance or phonogram; and
- (b) the copyright or related right subsists in such subject matter.

2. In connection with the commencement of a civil, administrative or criminal enforcement proceeding involving a registered trademark that has been substantively examined by its competent authority, each Party shall provide that the trademark be considered *prima facie* valid.

3. In connection with the commencement of a civil or administrative enforcement proceeding involving a patent that has been substantively examined and granted<sup>104</sup> by the competent authority of a Party, that Party shall provide that each claim in the patent be considered *prima facie* to satisfy the applicable criteria of patentability in the territory of the Party.<sup>105,106</sup>

In those validity procedures, the party challenging the validity of the registered trademark or patent shall be required to prove that the registered trademark or patent is not valid. Notwithstanding this requirement, a Party may require the trademark holder to provide evidence of first use.

6. In civil judicial proceedings with respect to the infringement of copyright or related rights protecting works, phonograms or performances, each Party shall establish or maintain a system that provides for one or more of the following:

11. If a Party's judicial or other authorities appoint a technical or other expert in a civil proceeding concerning the enforcement of an intellectual property right and require that the parties to the proceeding pay the costs of that expert, that Party should seek to ensure that those costs are reasonable and related appropriately, among other things, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

12. Each Party shall provide that in civil judicial proceedings:

- (a) at least with respect to pirated copyright goods and counterfeit trademark goods, its judicial authorities have the authority, at the right holder's request, to order that the infringing goods be destroyed, except in exceptional circumstances, without compensation of any sort;
- (b) its judicial authorities have the authority to order that materials and implements that have been used in the manufacture or creation of the infringing goods be, without undue delay and without compensation of any sort, destroyed or disposed of outside the channels of commerce in such a manner as to minimise the risk of further infringement; and
- (c) in regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed is not sufficient, other than in exceptional circumstances, to permit the release of goods into the channels of commerce.

13. Without prejudice to its law governing privilege, the protection of confidentiality of information sources or the processing of personal data, each Party shall provide that, in civil judicial proceedings concerning the enforcement of an intellectual property right, its judicial authorities have the authority, on a justified request of the right holder, to order the infringer or, in the alternative, the alleged infringer to provide to the right holder or to the judicial authorities, at least for the purpose of collecting evidence, relevant information as provided for in its applicable laws and regulations that the infringer or alleged infringer possesses or controls. The information may include information regarding any person involved in any aspect of the infringement or alleged infringement and the means of production or the channels of distribution of the infringing or allegedly infringing goods or services, including the identification of third persons alleged to be involved in the production and distribution of the goods or services and of their channels of distribution.

Each Party shall provide that in relation to a civil judicial proceeding concerning the enforcement of an intellectual property right, its judicial or other authorities have the authority to impose sanctions on a party, counsel, experts or other persons subject to the court's jurisdiction for violation of judicial orders concerning the protection of confidential information produced or exchanged in that proceeding.

Each Party shall ensure that its judicial authorities have the authority to order a party at whose request measures were taken and that has abused enforcement procedures with regard to intellectual property rights, including trademarks, geographical indications, patents, copyright and related rights and industrial designs, to provide to a party wrongfully enjoined or restrained adequate compensation for the injury suffered because of that abuse. The judicial authorities shall also have the authority to order the applicant to pay the defendant expenses, which may include appropriate attorney's fees.

16. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that those procedures conform to principles equivalent in substance to those set out in this Article.

17. In civil judicial proceedings concerning the acts described in Article 18.68 (TPMs) and Article 18.69 (RMI):

- (a) each Party shall provide that its judicial authorities have the authority at least to:<sup>113</sup>

  - (iv) order the destruction of devices and products found to be involved in the prohibited activity; and
- (b) a Party may provide that damages shall not be available against a non-profit library, archive, educational institution, museum or public non-commercial broadcasting entity, if it sustains the burden of proving that it was not aware or had no reason to believe that its acts constituted a prohibited activity.

**Article 18.75: Provisional Measures**

1. Each Party's authorities shall act on a request for relief in respect of an intellectual property right *inaudita altera parte* expeditiously in accordance with that Party's judicial rules.

Each Party shall provide that its judicial authorities have the authority to require the applicant for a provisional measure in respect of an intellectual property right to provide any reasonably available evidence in order to satisfy the judicial authority, with a sufficient degree of certainty, that the applicant's right is being infringed or that the infringement is imminent, and to order the applicant to provide security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse. Such security or equivalent assurance shall not unreasonably deter recourse to those procedures.
3. In civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, each Party shall provide that its judicial authorities have the authority to order the seizure or other taking into custody of suspected infringing goods, materials and implements relevant to the infringement, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

<sup>115</sup> For the purposes of this Article:

- (a) counterfeit trademark goods means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the Party providing the procedures under this section; and
- (b) pirated copyright goods means any goods that are copies made without the consent of the right holder or person duly authorised by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the Party providing the procedures under this section.

<sup>116</sup> For the purposes of this Article, unless otherwise specified, competent authorities may include the appropriate judicial, administrative or law enforcement authorities under a Party's law.

goods reasonably recognisable by its competent authorities. The requirement to provide that information shall not unreasonably deter recourse to these procedures.

3. Each Party shall provide that its competent authorities have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit or confusingly similar trademark or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance does not unreasonably deter recourse to these procedures. A Party may provide that the security may be in the form of a bond conditioned to hold the defendant harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

4. Without prejudice to a Party's law pertaining to privacy or the confidentiality of information:

- (a) if a Party's competent authorities have detained or suspended the release of goods that are suspected of being counterfeit trademark or pirated copyright goods, that Party may provide that its competent authorities have the authority to inform the right holder without undue delay of the names and addresses of the consignor, exporter, consignee or importer; a description of the goods; the quantity of the goods; and, if known, the country of origin of the goods;<sup>117</sup> or
- (b) if a Party does not provide its competent authority with the authority referred to in subparagraph (a) when suspect goods are detained or suspended from release, it shall provide, at least in cases of imported goods, its competent authorities with the authority to provide the information specified in subparagraph (a) to the right holder normally within 30 working days of the seizure or determination that the goods are counterfeit trademark goods or pirated copyright goods.

5. Each Party shall provide that its competent authorities may initiate border measures *ex officio*<sup>118</sup> with respect to goods under customs control<sup>119</sup> that are:

- (a) imported;
- (b) destined for export;<sup>120</sup> or
- (c) in transit,<sup>121,122</sup>

<sup>117</sup> For greater certainty, a Party may establish reasonable procedures to receive or access that information.

<sup>118</sup> For greater certainty, that *ex officio* action does not require a formal complaint from a third party or right holder.

<sup>119</sup> For the purposes of this Article, a Party may treat "goods under customs control" as meaning goods that are subject to a Party's customs procedures.

and that are suspected of being counterfeit trademark goods or pirated copyright goods.

6. Each Party shall adopt or maintain a procedure by which its competent authorities may determine within a reasonable period of time after the initiation of the procedures described in paragraph 1, paragraph 5(a), paragraph 5(b) and, if applicable, paragraph 5(c), whether the suspect goods infringe an intellectual property right.<sup>123</sup> If a Party provides administrative procedures for the determination of an infringement, it may also provide its authorities with the authority to impose administrative penalties or sanctions, which may include fines or the seizure of the infringing goods following a determination that the goods are infringing.

7. Each Party shall provide that its competent authorities have the authority to order the destruction of goods following a determination that the goods are infringing. In cases in which the goods are not destroyed, each Party shall ensure that, except in exceptional circumstances, the goods are disposed of outside the channels of commerce in such a manner as to avoid any harm to the right holder. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient, other than in exceptional cases, to permit the release of the goods into the channels of commerce.

8. If a Party establishes or assesses, in connection with the procedures described in this Article, an application fee, storage fee or destruction fee, that fee shall not be set at an amount that unreasonably deters recourse to these procedures.

9. This Article also shall apply to goods of a commercial nature sent in small consignments. A Party may exclude from the application of this Article small quantities of goods of a non-commercial nature contained in travellers' personal luggage.<sup>124</sup>

**Article 18.77: Criminal Procedures and Penalties**

1. Each Party shall provide for criminal procedures and penalties to be applied at least in cases of wilful trademark counterfeiting or copyright or related rights piracy

---

<sup>121</sup> This subparagraph applies to suspect goods that are in transit from one customs office to another customs office in the Party's territory from which the goods will be exported.

<sup>122</sup> As an alternative to this subparagraph, a Party shall instead endeavour to provide, if appropriate and with a view to eliminating international trade in counterfeit trademark goods or pirated copyright goods, available information to another Party in respect of goods that it has examined without a local consignee and that are transhipped through its territory and destined for the territory of the other Party, to inform that other Party's efforts to identify suspect goods upon arrival in its territory.

<sup>123</sup> A Party may comply with the obligation in this Article with respect to a determination that suspect goods under paragraph 5 infringe an intellectual property right through a determination that the suspect goods bear a false trade description.

- (a) acts carried out for commercial advantage or financial gain; and
  - (b) significant acts, not carried out for commercial advantage or financial gain, that have a substantial prejudicial impact on the interests of the copyright or related rights holder in relation to the marketplace.<sup>125,126</sup>
2. Each Party shall treat wilful importation or exportation of counterfeit trademark goods or pirated copyright goods on a commercial scale as unlawful activities subject to criminal penalties.<sup>127</sup>
3. Each Party shall provide for criminal procedures and penalties to be applied in cases of wilful importation<sup>128</sup> and domestic use, in the course of trade and on a commercial scale, of a label or packaging:<sup>129</sup>
- (a) to which a trademark has been applied without authorisation that is identical to, or cannot be distinguished from, a trademark registered in its territory; and
  - (b) that is intended to be used in the course of trade on goods or in relation to services that are identical to goods or services for which that trademark is registered.
4. Recognising the need to address the unauthorised copying<sup>130</sup> of a cinematographic work from a performance in a movie theatre that causes significant harm to a right holder in the market for that work, and recognising the need to deter such harm, each Party shall adopt or maintain measures, which shall at a minimum include, but need not be limited to, appropriate criminal procedures and penalties.

---

<sup>125</sup> The Parties understand that a Party may comply with subparagraph (b) by addressing such significant acts under its criminal procedures and penalties for non-authorised uses of protected works, performances and phonograms in its law.

<sup>126</sup> A Party may provide that the volume and value of any infringing items may be taken into account in determining whether the act has a substantial prejudicial impact on the interests of the copyright or related rights holder in relation to the marketplace.

<sup>127</sup> The Parties understand that a Party may comply with its obligation under this paragraph by providing that distribution or sale of counterfeit trademark goods or pirated copyright goods on a commercial scale is an unlawful activity subject to criminal penalties. Furthermore, criminal procedures and penalties as specified in paragraphs 1, 2 and 3 are applicable in any free trade zones in a Party.

<sup>128</sup> A Party may comply with its obligation relating to importation of labels or packaging through its measures concerning distribution.

<sup>129</sup> A Party may comply with its obligations under this paragraph by providing for criminal procedures and penalties to be applied to attempts to commit a trademark offence.

5. With respect to the offences for which this Article requires a Party to provide for criminal procedures and penalties, each Party shall ensure that criminal liability for aiding and abetting is available under its law.

6. With respect to the offences described in paragraphs 1 through 5, each Party shall provide the following:

- (a) Penalties that include sentences of imprisonment as well as monetary fines sufficiently high to provide a deterrent to future acts of infringement, consistent with the level of penalties applied for crimes of a corresponding gravity.<sup>131</sup>
- (b) Its judicial authorities have the authority, in determining penalties, to account for the seriousness of the circumstances, which may include circumstances that involve threats to, or effects on, health or safety.<sup>132</sup>
- (c) Its judicial or other competent authorities have the authority to order the seizure of suspected counterfeit trademark goods or pirated copyright goods, any related materials and implements used in the commission of the alleged offence, documentary evidence relevant to the alleged offence and assets derived from, or obtained through the alleged infringing activity. If a Party requires identification of items subject to seizure as a prerequisite for issuing a judicial order referred to in this subparagraph, that Party shall not require the items to be described in greater detail than necessary to identify them for the purpose of seizure.
- (d) Its judicial authorities have the authority to order the forfeiture, at least for serious offences, of any assets derived from or obtained through the infringing activity.
- (e) Its judicial authorities have the authority to order the forfeiture or destruction of:
  - (i) all counterfeit trademark goods or pirated copyright goods;
  - (ii) materials and implements that have been predominantly used in the creation of pirated copyright goods or counterfeit trademark goods; and
  - (iii) any other labels or packaging to which a counterfeit trademark has been applied and that have been used in the commission of the offence.

---

<sup>131</sup> The Parties understand that there is no obligation for a Party to provide for the possibility of imprisonment and monetary fines to be imposed in parallel.

<sup>132</sup> A Party may also account for such circumstances through a separate criminal offence.

In cases in which counterfeit trademark goods and pirated copyright goods are not destroyed, the judicial or other competent authorities shall ensure that, except in exceptional circumstances, those goods are disposed of outside the channels of commerce in such a manner as to avoid causing any harm to the right holder. Each Party shall further provide that forfeiture or destruction under this subparagraph and subparagraph (c) shall occur without compensation of any kind to the defendant.

- (f) Its judicial or other competent authorities have the authority to release or, in the alternative, provide access to, goods, material, implements, and other evidence held by the relevant authority to a right holder for civil<sup>133</sup> infringement proceedings.
- (g) Its competent authorities may act upon their own initiative to initiate legal action without the need for a formal complaint by a third person or right holder.<sup>134</sup>

7. With respect to the offences described in paragraphs 1 through 5, a Party may provide that its judicial authorities have the authority to order the seizure or forfeiture of assets, or alternatively, a fine, the value of which corresponds to the assets derived from, or obtained directly or indirectly through, the infringing activity.

**Article 18.78: Trade Secrets<sup>135</sup>**

1. In the course of ensuring effective protection against unfair competition as provided in Article 10*bis* of the Paris Convention, each Party shall ensure that persons have the legal means to prevent trade secrets lawfully in their control from being disclosed to, acquired by, or used by others (including state-owned enterprises) without their consent in a manner contrary to honest commercial practices.<sup>136</sup> As used in this Chapter, trade secrets encompass, at a minimum, undisclosed information as provided for in Article 39.2 of the TRIPS Agreement.

2. Subject to paragraph 3, each Party shall provide for criminal procedures and penalties for one or more of the following:

- (a) the unauthorised and wilful access to a trade secret held in a computer system;

---

<sup>133</sup> A Party may also provide this authority in connection with administrative infringement proceedings.

<sup>134</sup> With regard to copyright and related rights piracy provided for under paragraph 1, a Party may limit application of this paragraph to the cases in which there is an impact on the right holder's ability to exploit the work, performance or phonogram in the market.

<sup>135</sup> For greater certainty, this Article is without prejudice to a Party's measures protecting good faith lawful disclosures to provide evidence of a violation of that Party's law.

<sup>136</sup> For the purposes of this paragraph "a manner contrary to honest commercial practices" means at least practices such as breach of contract, breach of confidence and inducement to breach, and includes the acquisition of undisclosed information by third parties that knew, or were grossly negligent in failing to know, that those practices were involved in the acquisition.

3. With respect to the relevant acts referred to in paragraph 2, a Party may, as appropriate, limit the availability of its criminal procedures, or limit the level of penalties available, to one or more of the following cases in which:

- (a) the acts are for the purposes of commercial advantage or financial gain;

**Article 18.79: Protection of Encrypted Program-Carrying Satellite and Cable Signals**

1. Each Party shall make it a criminal offence to:

- (a) manufacture, assemble, modify,<sup>138</sup> import, export, sell, lease or otherwise distribute a tangible or intangible device or system knowing or having reason to know<sup>139</sup> that the device or system meets at least one of the following conditions:
  - (i) it is intended to be used to assist;
  - (ii) it is primarily of assistance; or
  - (iii) its principal function is solely to assist,

---

<sup>137</sup> A Party may deem the term “misappropriation” to be synonymous with “unlawful acquisition”.

<sup>138</sup> For greater certainty, a Party may treat “assemble” and “modify” as incorporated in “manufacture”.

<sup>139</sup> For the purposes of this paragraph, a Party may provide that “having reason to know” may be demonstrated through reasonable evidence, taking into account the facts and circumstances surrounding the alleged illegal act, as part of the Party’s “knowledge” requirements. A Party may treat “having reason to know” as “meaning “wilful negligence”.

in decoding an encrypted program-carrying satellite signal without the authorisation of the lawful distributor<sup>140</sup> of such signal;<sup>141</sup> and

(b) with respect to an encrypted program-carrying satellite signal, wilfully:

- (i) receive<sup>142</sup> such a signal; or
- (ii) further distribute<sup>143</sup> such signal,

knowing that it has been decoded without the authorisation of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies for a person that holds an interest in an encrypted program-carrying satellite signal or its content and that is injured by an activity described in paragraph 1.

3. Each Party shall provide for criminal penalties or civil remedies<sup>144</sup> for wilfully:

- (a) manufacturing or distributing equipment knowing that the equipment is intended to be used in the unauthorised reception of any encrypted program-carrying cable signal; and
- (b) receiving, or assisting another to receive,<sup>145</sup> an encrypted program-carrying cable signal without authorisation of the lawful distributor of the signal.

**Article 18.80: Government Use of Software**

1. Each Party recognises the importance of promoting the adoption of measures to enhance government awareness of respect for intellectual property rights and of the detrimental effects of the infringement of intellectual property rights.

---

<sup>140</sup> With regard to the criminal offences and penalties in paragraph 1 and paragraph 3, a Party may require a demonstration of intent to avoid payment to the lawful distributor, or a demonstration of intent to otherwise secure a pecuniary benefit to which the recipient is not entitled.

<sup>141</sup> The obligation regarding export may be met by making it a criminal offence to possess and distribute a device or system described in this paragraph. For the purposes of this Article, a Party may provide that a “lawful distributor” means a person that has the lawful right in that Party’s territory to distribute the encrypted program-carrying signal and authorise its decoding.

<sup>142</sup> For greater certainty and for the purposes of paragraph 1(b) and paragraph 3(b), a Party may provide that wilful receipt of an encrypted program-carrying satellite or cable signal means receipt and use of the signal, or means receipt and decoding of the signal.

<sup>143</sup> For greater certainty, a Party may interpret “further distribute” as “retransmit to the public”.

<sup>144</sup> If a Party provides for civil remedies, it may require a demonstration of injury.

<sup>145</sup> A Party may comply with its obligation in respect of “assisting another to receive” by providing for criminal penalties to be available against a person wilfully publishing any information in order to enable or assist another person to receive a signal without authorisation of the lawful distributor of the signal.

2. Each Party shall adopt or maintain appropriate laws, regulations, policies, orders, government-issued guidelines, or administrative or executive decrees that provide that its central government agencies use only non-infringing computer software protected by copyright and related rights, and, if applicable, only use that computer software in a manner authorised by the relevant licence. These measures shall apply to the acquisition and management of the software for government use.<sup>146</sup>

---

<sup>146</sup> For greater certainty, paragraph 2 should not be interpreted as encouraging regional government agencies to use infringing computer software or, if applicable, to use computer software in a manner which is not authorised by the relevant licence.

**Section J: Internet Service Providers<sup>147</sup>**

**Article 18.81: Definitions**

For the purposes of this Section:

the term **copyright** includes related rights; and

**Internet Service Provider** means:

- (a) a provider of online services for the transmission, routing, or providing of connections for digital online communications, between or among points specified by a user, of material of the user's choosing, undertaking the function in Article 18.82.2(a) (Legal Remedies and Safe Harbours); or
- (b) a provider of online services undertaking the functions in Article 18.82.2(c) or Article 18.82.2(d) (Legal Remedies and Safe Harbours).

For greater certainty, Internet Service Provider includes a provider of the services listed above that engages in caching carried out through an automated process.

**Article 18.82: Legal Remedies and Safe Harbours<sup>148</sup>**

1. The Parties recognise the importance of facilitating the continued development of legitimate online services operating as intermediaries and, in a manner consistent with Article 41 of the TRIPS Agreement, providing enforcement procedures that permit effective action by right holders against copyright infringement covered under this Chapter that occurs in the online environment. Accordingly, each Party shall ensure that legal remedies are available for right holders to address such copyright infringement and shall establish or maintain appropriate safe harbours in respect of online services that are Internet Service Providers. This framework of legal remedies and safe harbours shall include:

- (a) legal incentives<sup>149</sup> for Internet Service Providers to cooperate with copyright owners to deter the unauthorised storage and transmission of copyrighted materials or, in the alternative, to take other action to deter the unauthorised storage and transmission of copyrighted materials; and

---

<sup>147</sup> Annex 18-F applies to this Section.

<sup>148</sup> Annex 18-E applies to Article 18.82.3 and Article 18.82.4 (Legal Remedies and Safe Harbours).

<sup>149</sup> For greater certainty, the Parties understand that implementation of the obligations in paragraph 1(a) on "legal incentives" may take different forms.

- (b) limitations in its law that have the effect of precluding monetary relief against Internet Service Providers for copyright infringements that they do not control, initiate or direct, and that take place through systems or networks controlled or operated by them or on their behalf.<sup>150</sup>
2. The limitations described in paragraph 1(b) shall include limitations in respect of the following functions:
- (a) transmitting, routing or providing connections for material without modification of its content<sup>151</sup> or the intermediate and transient storage of that material done automatically in the course of such a technical process;
  - (b) caching carried out through an automated process;
  - (c) storage,<sup>152</sup> at the direction of a user, of material residing on a system or network controlled or operated by or for the Internet Service Provider;<sup>153</sup> and
  - (d) referring or linking users to an online location by using information location tools, including hyperlinks and directories.
3. To facilitate effective action to address infringement, each Party shall prescribe in its law conditions for Internet Service Providers to qualify for the limitations described in paragraph 1(b), or, alternatively, shall provide for circumstances under which Internet Service Providers do not qualify for the limitations described in paragraph 1(b):<sup>154, 155</sup>

---

<sup>150</sup> The Parties understand that, to the extent that a Party determines, consistent with its international legal obligations, that a particular act does not constitute copyright infringement, there is no obligation to provide for a limitation in relation to that act.

<sup>151</sup> The Parties understand that such modification does not include a modification made as part of a technical process or for solely technical reasons such as division into packets.

<sup>152</sup> For greater certainty, a Party may interpret “storage” as “hosting”.

<sup>153</sup> For greater certainty, the storage of material may include e-mails and their attachments stored in the Internet Service Provider’s server and web pages residing on the Internet Service Provider’s server.

<sup>154</sup> A Party may comply with the obligations in paragraph 3 by maintaining a framework in which:

- (a) there is a stakeholder organisation that includes representatives of both Internet Service Providers and right holders, established with government involvement;
- (b) that stakeholder organisation develops and maintains effective, efficient and timely procedures for entities certified by the stakeholder organisation to verify, without undue delay, the validity of each notice of alleged copyright infringement by confirming that the notice is not the result of mistake or misidentification, before forwarding the verified notice to the relevant Internet Service Provider;
- (c) there are appropriate guidelines for Internet Service Providers to follow in order to qualify for the limitation described in paragraph 1(b), including requiring that the Internet Service Provider promptly removes or disables access to the identified materials upon receipt of a verified notice; and be exempted from liability for having done so in good faith in accordance with those guidelines; and
- (d) there are appropriate measures that provide for liability in cases in which an Internet Service Provider has actual knowledge of the infringement or awareness of facts or circumstances from which the infringement is apparent.

**Subject to Legal Review in English, Spanish and French for Accuracy, Clarity  
and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

- (a) With respect to the functions referred to in paragraph 2(c) and paragraph 2(d), these conditions shall include a requirement for Internet Service Providers to expeditiously remove or disable access to material residing on their networks or systems upon obtaining actual knowledge of the copyright infringement or becoming aware of facts or circumstances from which the infringement is apparent, such as through receiving a notice<sup>156</sup> of alleged infringement from the right holder or a person authorised to act on its behalf,
  - (b) An Internet Service Provider that removes or disables access to material in good faith under subparagraph (a) shall be exempt from any liability for having done so, provided that it takes reasonable steps in advance or promptly after to notify the person whose material is removed or disabled.<sup>157</sup>
4. If a system for counter-notices is provided under a Party's law, and if material has been removed or access has been disabled in accordance with paragraph 3, that Party shall require that the Internet Service Provider restores the material subject to a counter-notice, unless the person giving the original notice seeks judicial relief within a reasonable period of time.
5. Each Party shall ensure that monetary remedies are available in its legal system against any person that makes a knowing material misrepresentation in a notice or counter-notice that causes injury to any interested party<sup>158</sup> as a result of an Internet Service Provider relying on the misrepresentation.
6. Eligibility for the limitations in paragraph 1 shall not be conditioned on the Internet Service Provider monitoring its service or affirmatively seeking facts indicating infringing activity.

---

<sup>155</sup> The Parties understand that a Party that has yet to implement the obligations in paragraphs 3 and 4 will do so in a manner that is both effective and consistent with that Party's existing constitutional provisions. To that end, a Party may establish an appropriate role for the government that does not impair the timeliness of the process provided in paragraphs 3 and 4, and does not entail advance government review of each individual notice.

<sup>156</sup> For greater certainty, a notice of alleged infringement, as may be set out under a Party's law, must contain information that:

- (a) is reasonably sufficient to enable the Internet Service Provider to identify the work, performance or phonogram claimed to be infringed, the alleged infringing material, and the online location of the alleged infringement; and
- (b) has a sufficient indicia of reliability with respect to the authority of the person sending the notice.

<sup>157</sup> With respect to the function in subparagraph 2(b), a Party may limit the requirements of paragraph 3 related to an Internet Service Provider removing or disabling access to material to circumstances in which the Internet Service Provider becomes aware or receives notification that the cached material has been removed or access to it has been disabled at the originating site.

<sup>158</sup> For greater certainty, the Parties understand that, "any interested party" may be limited to those with a legal interest recognised under that Party's law.

7. Each Party shall provide procedures, whether judicial or administrative, in accordance with that Party's legal system, and consistent with principles of due process and privacy, that enable a copyright owner that has made a legally sufficient claim of copyright infringement to obtain expeditiously from an Internet Service Provider information in the provider's possession identifying the alleged infringer, in cases in which that information is sought for the purpose of protecting or enforcing that copyright.

8. The Parties understand that the failure of an Internet Service Provider to qualify for the limitations in paragraph 1(b) does not itself result in liability. Further, this Article is without prejudice to the availability of other limitations and exceptions to copyright, or any other defences under a Party's legal system.

9. The Parties recognise the importance, in implementing their obligations under this Article, of taking into account the impacts on right holders and Internet Service Providers.

2. During the relevant periods set out below, a Party shall not amend an existing measure or adopt a new measure that is less consistent with its obligations under the articles referred to below for that Party than relevant measures that are in effect on the date of signature of this Agreement. This Section does not affect the rights and obligations of a Party under an international agreement to which it and another Party are party.

4. With regard to obligations subject to a transition period, a Party shall fully implement its obligations under the provisions of this Chapter no later than the expiration of the relevant time period specified below, which begins on the date of entry into force of the Agreement for that Party.

^ For transitions for Article 18.46.3 and Article 18.46.4 (Patent Term Adjustment for Patent Office Delays) for patents claiming pharmaceutical products and agricultural chemical products, the Parties will consider a justified request from Viet Nam for an extension of the transition period for up to one additional year. Viet Nam's request shall include the reasons for the requested extension. Viet Nam may avail itself of this one-time extension upon providing a request in accordance with this paragraph unless the Commission decides otherwise within 60 days of receiving the request. No later than the date on which the additional one-year period expires, Viet Nam shall provide to the Commission in writing a report on the measures it has taken to fulfill its obligation under Article 18.46.3 and Article 18.46.4.

\* For transitions for Article 18.50 (Protection of Undisclosed Test or Other Data) and Article 18.52 (Biologics) for pharmaceutical products:

- (A) The Parties will consider a justified request from Viet Nam for an extension of the transition period for up to two additional years. Viet Nam's request shall include the reason for the requested extension. Viet Nam may avail itself of this one-time extension upon providing a request in accordance with this paragraph unless the Commission decides otherwise within 60 days of receiving the request. Viet Nam shall make the request no later than one year prior to the expiration of the two-year transition period referred to in the first sentence of paragraph (A). The Parties shall give due consideration to that request. If the Committee grants Viet Nam's request, Viet Nam shall provide to the Commission in writing a report on the measures it has taken to fulfill its obligations under Article 18.50 (Protection of Undisclosed Test or Other Data) and Article 18.52 (Biologics) no later than the date on which the extension period expires.
- (C) Viet Nam's implementation of Article 18.50 (Protection of Undisclosed Test or Other Data) and Article 18.52 (Biologics) during three years after the conclusion of the extension period referred to in paragraph (A) shall not be subject to dispute settlement under Chapter 28 (Dispute Settlement).

To that end, Viet Nam shall notify the other Parties through the Commission and consult with them on such a proposed measure. Such consultations shall begin within 30 days of a request from an interested Party, and shall provide adequate time and opportunity to resolve any concerns. In addition, any such measure shall respect legitimate commercial considerations and take into account the need for incentives for the development of new pharmaceutical products and for the expeditious marketing approval in Viet Nam of such products.

**Peru**

**Part 1: Applicable to Article 18.46 and Article 18.48**

To the extent that Andean Decision 486, *Common Industrial Property Regime*, and Andean Decision 689, *Adequacy of Certain Articles of Decision 486*, restricts Peru's implementation of its obligations set forth in Article 18.46.3 (Patent Term Adjustments for Patent Office Delays) and Article 18.48.2 (Patent Term Adjustment for Unreasonable Curtailment), Peru commits to make its best efforts to obtain a waiver from the Andean Community that allows it to adjust its patent term in a way that is consistent with Article 18.46.3 and Article 18.48.2. Further, if Peru demonstrates that the Andean Community withheld its request for a waiver despite its best efforts, Peru will continue ensuring that it does not discriminate with respect to the availability or enjoyment of patent rights based on the field of technology, the place of invention, and whether products are imported or locally produced. Thus, Peru confirms that the treatment of pharmaceutical patents will be no less favourable than treatment of other patents in respect of the processing and examination of patent applications.

**Part 2: Applicable to Article 18.50 and Article 18.52**

1. If Peru relies, pursuant to Article 18.50.1(b) (Protection of Undisclosed Test or Other Data), on a marketing approval granted by another Party, and grants approval within six months of the date of the filing of a complete application for marketing approval filed in Peru, Peru may provide that the protection specified in Article 18.50.1(b) and Article 18.52 (Biologics), as applicable, shall begin with the date of the first marketing approval relied on. In implementing Article 18.50.1(b) and Article 18.52.1(b)(i), Peru may apply the period of protection established in Article 16.10.2(b) of the *United States – Peru Trade Promotion Agreement*, done at Washington, District of Columbia, April 12, 2006.
2. Peru may apply paragraph 1 to Article 18.50.2 (Protection of Undisclosed Test or Other Data).

**Annex to Section J**

1. In order to facilitate the enforcement of copyright on the Internet and to avoid unwarranted market disruption in the online environment, Article 18.82.3 and Article 18.82.4(Legal Remedies and Safe Harbours) shall not apply to a Party provided that, as from the date of agreement in principle of this Agreement, it continues to:

- (a) prescribe in its law circumstances under which Internet Service providers do not qualify for the limitations described in Article 18.82.1(b) (Legal Remedies and Safe Harbours);

  - (vi) the economic viability of the service if it were not used to enable acts of copyright infringement;
- (c) require Internet Service Providers carrying out the functions referred to in Article 18.82.2(a) and (c) (Legal Remedies and Safe Harbours) to participate in a system for forwarding notices of alleged infringement, including if material is made available online, and if the Internet Service Provider fails to do so, subjecting that provider to pre-established monetary damages for that failure;

## CHAPTER 19

### LABOUR

#### Article 19.1: Definitions

For the purposes of this Chapter:

**ILO Declaration** means the International Labour Organization (ILO) *Declaration on Fundamental Principles and Rights at Work and its Follow-up (1998)*;

**labour laws** means statutes and regulations, or provisions of statutes and regulations, of a Party that are directly related to the following internationally recognised labour rights:

- (a) freedom of association and the effective recognition of the right to collective bargaining;
- (b) the elimination of all forms of forced or compulsory labour;
- (c) the effective abolition of child labour, a prohibition on the worst forms of child labour and other labour protections for children and minors;
- (d) the elimination of discrimination in respect of employment and occupation; and
- (e) acceptable conditions of work with respect to minimum wages<sup>1</sup>, hours of work, and occupational safety and health;

**statutes and regulations** and **statutes or regulations** means<sup>2</sup>:

- (a) for Australia, Acts of the Commonwealth Parliament, or regulations made by the Governor-General in Council under delegated authority under an Act of the Commonwealth Parliament;
- (b) for Malaysia, the Federal Constitution, Acts of Parliament and subsidiary legislation or regulations made under Acts of Parliament;

---

1 For Singapore, minimum wages may include wage payments and adjustments gazetted under the *Employment Act* and wage supplement schemes under the *Central Provident Fund Act*.

2 For greater certainty, for each Party setting out a definition, which has a federal form of government, its definition provides coverage for substantially all workers.

- (c) for Mexico, Acts of Congress or regulations and provisions promulgated pursuant to Acts of Congress and, for the purposes of this Chapter, includes the Constitution of the United Mexican States;
- (d) for the United States, Acts of Congress or regulations promulgated pursuant to Acts of Congress and, for the purposes of this Chapter, includes the Constitution of the United States.

### **Article 19.2: Statement of Shared Commitment**

1. The Parties affirm their obligations as members of the ILO, including those stated in the ILO Declaration, regarding labour rights within their territories.
2. The Parties recognise that, as stated in paragraph 5 of the ILO Declaration, labour standards should not be used for protectionist trade purposes.

### **Article 19.3: Labour Rights**

1. Each Party shall adopt and maintain in its statutes and regulations, and practices thereunder, the following rights as stated in the ILO Declaration<sup>34</sup>:
  - (a) freedom of association and the effective recognition of the right to collective bargaining;
  - (b) the elimination of all forms of forced or compulsory labour;
  - (c) the effective abolition of child labour and, for the purposes of this Agreement, a prohibition on the worst forms of child labour; and
  - (d) the elimination of discrimination in respect of employment and occupation.
2. Each Party shall adopt and maintain statutes and regulations, and practices thereunder, governing acceptable conditions of work with respect to minimum wages, hours of work, and occupational safety and health.<sup>5</sup>

---

3 The obligations set out in Article 19.3, as they relate to the ILO, refer only to the ILO Declaration.

4 To establish a violation of an obligation under Article 19.3.1 or Article 19.3.2, a Party must demonstrate that the other Party has failed to adopt or maintain a statute, regulation or practice in a manner affecting trade or investment between the Parties.

5 For greater certainty, this obligation relates to the establishment by a Party in its statutes, regulations and practices thereunder, of acceptable conditions of work as determined by that Party.

#### **Article 19.4: Non Derogation**

The Parties recognise that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in each Party's labour laws. Accordingly, no Party shall waive or otherwise derogate from, or offer to waive or otherwise derogate from, its statutes or regulations:

- (a) implementing Article 19.3.1 (Labour Rights), if the waiver or derogation would be inconsistent with a right set out in that paragraph; or
- (b) implementing Article 19.3.1 (Labour Rights) or Article 19.3.2 (Labour Rights), if the waiver or derogation would weaken or reduce adherence to a right set out in Article 19.3.1, or to a condition of work referred to in Article 19.3.2 (Labour Rights), in a special trade or customs area, such as an export processing zone or foreign trade zone, in the Party's territory,

in a manner affecting trade or investment between the Parties.

#### **Article 19.5: Enforcement of Labour Laws**

1. No Party shall fail to effectively enforce its labour laws through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties after the date of entry into force of this Agreement.

2. If a Party fails to comply with an obligation under this Chapter, a decision made by that Party on the provision of enforcement resources shall not excuse that failure. Each Party retains the right to exercise reasonable enforcement discretion and to make *bona fide* decisions with regard to the allocation of enforcement resources between labour enforcement activities among the fundamental labour rights and acceptable conditions of work enumerated in Article 19.3.1 (Labour Rights) and Article 19.3.2 (Labour Rights), provided that the exercise of that discretion, and those decisions, are not inconsistent with its obligations under this Chapter.

3. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake labour law enforcement activities in the territory of another Party.

### **Article 19.6: Forced or Compulsory Labour**

Each Party recognises the goal of eliminating all forms of forced or compulsory labour, including forced or compulsory child labour. Taking into consideration that the Parties have assumed obligations in this regard under Article 19.3 (Labour Rights), each Party shall also discourage, through initiatives it considers appropriate, the importation of goods from other sources produced in whole or in part by forced or compulsory labour, including forced or compulsory child labour.<sup>6</sup>

### **Article 19.7: Corporate Social Responsibility**

Each Party shall endeavour to encourage enterprises to voluntarily adopt corporate social responsibility initiatives on labour issues that have been endorsed or are supported by that Party.

### **Article 19.8: Public Awareness and Procedural Guarantees**

1. Each Party shall promote public awareness of its labour laws, including by ensuring that information related to its labour laws and enforcement and compliance procedures is publicly available.
2. Each Party shall ensure that persons with a recognised interest under its law in a particular matter have appropriate access to impartial and independent tribunals for the enforcement of the Party's labour laws. These tribunals may include administrative tribunals, quasi-judicial tribunals, judicial tribunals or labour tribunals, as provided for in each Party's law.
3. Each Party shall ensure that proceedings before these tribunals for the enforcement of its labour laws: are fair, equitable and transparent; comply with due process of law; and do not entail unreasonable fees or time limits or unwarranted delays. Any hearings in these proceedings shall be open to the public, except when the administration of justice otherwise requires, and in accordance with its applicable laws.
4. Each Party shall ensure that:
  - (a) the parties to these proceedings are entitled to support or defend their respective positions, including by presenting information or evidence; and
  - (b) final decisions on the merits of the case:
    - (i) are based on information or evidence in respect of which the parties were offered the opportunity to be heard;

---

<sup>6</sup> For greater certainty, nothing in this Article authorises a Party to take initiatives that would be inconsistent with its obligations under other provisions of this Agreement, the WTO Agreement or other international trade agreements.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Versions**

- (ii) state the reasons on which they are based; and
  - (iii) are available in writing without undue delay to the parties to the proceedings and, consistent with its law, to the public.
- 5. Each Party shall provide that parties to these proceedings have the right to seek review or appeal, as appropriate under its law.
- 6. Each Party shall ensure that the parties to these proceedings have access to remedies under its law for the effective enforcement of their rights under the Party's labour laws and that these remedies are executed in a timely manner.
- 7. Each Party shall provide procedures to effectively enforce the final decisions of its tribunals in these proceedings.
- 8. For greater certainty, and without prejudice to whether a tribunal's decision is inconsistent with a Party's obligations under this Chapter, nothing in this Chapter shall be construed to require a tribunal of a Party to reopen a decision that it has made in a particular matter.

**Article 19.9: Public Submissions**

- 1. Each Party, through its contact point designated under Article 19.13 (Contact Points), shall provide for the receipt and consideration of written submissions from persons of a Party on matters related to this Chapter in accordance with its domestic procedures. Each Party shall make readily accessible and publicly available its procedures, including timelines, for the receipt and consideration of written submissions.
- 2. A Party may provide in its procedures that, to be eligible for consideration, a submission should, at a minimum:
  - (a) raise an issue directly relevant to this Chapter;
  - (b) clearly identify the person or organisation making the submission; and
  - (c) explain, to the degree possible, how and to what extent the issue raised affects trade or investment between the Parties.
- 3. Each Party shall:
  - (a) consider matters raised by the submission and provide a timely response to the submitter, including in writing as appropriate; and
  - (b) make the submission and the results of its consideration available to the other Parties and the public, as appropriate, in a timely manner.
- 4. A Party may request from the person or organisation that made the submission additional information that is necessary to consider the substance of the submission.

### **Article 19.10: Cooperation**

Subject to the agreement of the Parties involved, cooperative activities may occur through bilateral or plurilateral engagement and may involve relevant regional or international organisations, such as the ILO, and non-Parties.

4. The funding of cooperative activities undertaken within the framework of this Chapter shall be decided by the Parties involved on a case-by-case basis.

**Article 20.2 Objectives**

1. The objectives of this Chapter are to promote mutually supportive trade and environmental policies; promote high levels of environmental protection and effective enforcement of environmental laws; and enhance the capacities of the Parties to address trade-related environmental issues, including through cooperation.
2. Taking account of their respective national priorities and circumstances, the Parties recognize that enhanced cooperation to protect and conserve the environment and sustainably manage their natural resources brings benefits that can contribute to sustainable development, strengthen their environmental governance and complement the objectives of this Agreement.
3. The Parties further recognise that it is inappropriate to establish or use their environmental laws or other measures in a manner which would constitute a disguised restriction on trade or investment between the Parties.

**Article 20.3: General Commitments**

1. The Parties recognise the importance of mutually supportive trade and environmental policies and practices to improve environmental protection in the furtherance of sustainable development.
2. The Parties recognise the sovereign right of each Party to establish its own levels of domestic environmental protection and its own environmental priorities, and to establish, adopt or modify its environmental laws and policies accordingly.
3. Each Party shall strive to ensure that its environmental laws and policies provide for, and encourage, high levels of environmental protection and to continue to improve its respective levels of environmental protection.
4. No Party shall fail to effectively enforce its environmental laws through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties, after the date of entry into force of this Agreement for that Party.
5. The Parties recognise that each Party retains the right to exercise discretion and to make decisions regarding: (a) investigatory, prosecutorial, regulatory and compliance matters; and (b) the allocation of environmental enforcement resources with respect to other environmental laws determined to have higher priorities. Accordingly, the Parties understand that with respect to the enforcement of environmental laws a Party is in compliance with paragraph 4 if a course of action or inaction reflects a reasonable exercise of that discretion,

or results from a *bona fide* decision regarding the allocation of those resources in accordance with priorities for enforcement of its environmental laws.

6. Without prejudice to paragraph 2, the Parties recognise that it is inappropriate to encourage trade or investment by weakening or reducing the protection afforded in their respective environmental laws. Accordingly, a Party shall not waive or otherwise derogate from, or offer to waive or otherwise derogate from, its environmental laws in a manner that weakens or reduces the protection afforded in those laws in order to encourage trade or investment between the Parties.

7. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake environmental law enforcement activities in the territory of another Party.

**Article 20.4: Multilateral Environmental Agreements**

1. The Parties recognise that multilateral environmental agreements to which they are party play an important role, globally and domestically, in protecting the environment and that their respective implementation of these agreements is critical to achieving the environmental objectives of these agreements. Accordingly, each Party affirms its commitment to implement the multilateral environmental agreements to which it is a party.

2. The Parties emphasise the need to enhance the mutual supportiveness between trade and environmental law and policies, through dialogue between the Parties on trade and environmental issues of mutual interest, particularly with respect to the negotiation and implementation of relevant multilateral environmental agreements and trade agreements.

**Article 20.5: Protection of the Ozone Layer**

1. The Parties recognise that emissions of certain substances can significantly deplete and otherwise modify the ozone layer in a manner that is likely to result in adverse effects on human health and the environment. Accordingly, each Party shall take measures to control the production and consumption of, and trade in, such substances.<sup>3, 4, 5</sup>

---

<sup>3</sup> For greater certainty, for each Party, this provision pertains to substances controlled by the *Montreal Protocol on Substances that Deplete the Ozone Layer*, done at Montreal, 16 September 1987 (Montreal Protocol), including any future amendments thereto, as applicable to it.

<sup>4</sup> A Party shall be deemed in compliance with this provision if it maintains the measure or measures listed in Annex 20-A implementing its obligations under the Montreal Protocol or any subsequent measure or measures that provide an equivalent or higher level of environmental protection as the measure or measures listed.

2. The Parties also recognise the importance of public participation and consultation, in accordance with their respective law or policy, in the development and implementation of measures concerning the protection of the ozone layer. Each Party shall make publicly available, appropriate information about its programmes and activities, including cooperative programmes, that are related to ozone layer protection.

3. Consistent with Article 20.12 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest related to ozone-depleting substances. Cooperation may include, but is not limited to exchanging information and experiences in areas related to:

- (a) environmentally friendly alternatives to ozone-depleting substances;
- (b) refrigerant management practices, policies and programmes;
- (c) methodologies for stratospheric ozone measurements; and
- (d) combating illegal trade in ozone-depleting substances.

**Article 20.6: Protection of the Marine Environment from Ship Pollution**

1. The Parties recognise the importance of protecting and preserving the marine environment. To that end, each Party shall take measures to prevent the pollution of the marine environment from ships.<sup>6, 7, 8</sup>

---

<sup>5</sup> If compliance with this provision is not established pursuant to footnote 4, to establish a violation of this provision, a Party must demonstrate that the other Party has failed to take measures to control the production and consumption of, and trade in, certain substances that can significantly deplete and otherwise modify the ozone layer in a manner that is likely to result in adverse effects on human health and the environment, in a manner affecting trade or investment between the Parties.

<sup>6</sup> For greater certainty, for each Party, this provision pertains to pollution regulated by *the International Convention for the Prevention of Pollution from Ships*, done at London, 2 November 1973, as modified by the *Protocol of 1978 relating to the International Convention for the Prevention of Pollution from Ships*, done at London, 17 February 1978, and the *Protocol of 1997 to Amend the International Convention for the Prevention of Pollution from Ships, 1973 as Modified by the Protocol of 1978 relating thereto*, done at London, 26 September 1997 (MARPOL), including any future amendments thereto, as applicable to it.

<sup>7</sup> A Party shall be deemed in compliance with this provision if it maintains the measure or measures listed in Annex 20-B implementing its obligations under MARPOL, or any subsequent measure or measures that provide an equivalent or higher level of environmental protection as the measure or measures listed.

<sup>8</sup> If compliance with this provision is not established pursuant to footnote 7, to establish a violation of this provision, a Party must demonstrate that the other Party has failed to take measures to prevent the pollution of the marine environment from ships in a manner affecting trade or investment between the Parties.

2. The Parties also recognise the importance of public participation and consultation, in accordance with their respective law or policy, in the development and implementation of measures to prevent the pollution of the marine environment from ships. Each Party shall make publicly available appropriate information about its programmes and activities, including cooperative programmes, that are related to the prevention of pollution of the marine environment from ships.

3. Consistent with Article 20.12 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest with respect to pollution of the marine environment from ships. Areas of cooperation may include:

- (a) accidental pollution from ships;
- (b) pollution from routine operations of ships;
- (c) deliberate pollution from ships;
- (d) development of technologies to minimize ship-generated waste;
- (e) emissions from ships;
- (f) adequacy of port waste reception facilities;
- (g) increased protection in special geographic areas; and
- (h) enforcement measures including notifications to flag States and, as appropriate, by port States.

**Article 20.7: Procedural Matters**

1. Each Party shall promote public awareness of its environmental laws and policies, including enforcement and compliance procedures, by ensuring that relevant information is available to the public.

2. Each Party shall ensure that an interested person residing or established in its territory may request that the Party's competent authorities investigate alleged violations of its environmental laws, and that the competent authorities give those requests due consideration, in accordance with the Party's law.

3. Each Party shall ensure that judicial, quasi-judicial or administrative proceedings for the enforcement of its environmental laws are available under its law and that those proceedings are fair, equitable, transparent and comply with due process of law. Any hearings in these proceedings shall be open to the public, except when the administration of justice otherwise requires, and in accordance with its applicable laws.

4. Each Party shall ensure that persons with a recognised interest under its law in a particular matter have appropriate access to proceedings referred to in paragraph 3.

5. Each Party shall provide appropriate sanctions or remedies for violations of its environmental laws for the effective enforcement of those laws. Those sanctions or remedies may include a right to bring an action directly against the violator to seek damages or injunctive relief, or a right to seek governmental action.

6. Each Party shall ensure that it takes appropriate account of relevant factors in the establishment of the sanctions or remedies referred to in paragraph 5. Those factors may include the nature and gravity of the violation, damage to the environment and any economic benefit the violator derived from the violation.

**Article 20.8: Opportunities for Public Participation**

1. Each Party shall seek to accommodate requests for information regarding the Party's implementation of this Chapter.

2. Each Party shall make use of existing, or establish new, consultative mechanisms, for example national advisory committees, to seek views on matters related to the implementation of this Chapter. These mechanisms may include persons with relevant experience, as appropriate, including experience in business, natural resource conservation and management, or other environmental matters.

**Article 20.9: Public Submissions**

1. Each Party shall provide for the receipt and consideration of written submissions from persons of that Party regarding its implementation of this Chapter.<sup>9</sup> Each Party shall respond in a timely manner to such submissions in writing and in accordance with domestic procedures, and make the submissions and its responses available to the public, for example by posting on an appropriate public website.

2. Each Party shall make its procedures for the receipt and consideration of written submissions readily accessible and publicly available, for example by posting on an appropriate public website. These procedures may provide that to be eligible for consideration the submission should:

- (a) be in writing in one of the official languages of the Party receiving the submission;
- (b) clearly identify the person making the submission;
- (c) provide sufficient information to allow for the review of the submission including any documentary evidence on which the submission may be based;
- (d) explain how, and to what extent, the issue raised affects trade or investment between the Parties;
- (e) not raise issues that are the subject of ongoing judicial or administrative proceedings; and
- (f) indicate whether the matter has been communicated in writing to the relevant authorities of the Party and the Party's response, if any.

3. Each Party shall notify the other Parties of the entity or entities responsible for receiving and responding to any written submissions referred to in paragraph 1 within 180 days of the date of entry into force of this Agreement for that Party.

4. If a submission asserts that a Party is failing to effectively enforce its environmental laws and following the written response to the submission by that Party, any other Party may request that the Committee on Environment (Committee) discuss that submission and written response with a view to further understanding the matter raised in the submission and, as appropriate, to consider whether the matter could benefit from cooperative activities.

5. At its first meeting, the Committee shall establish procedures for discussing submissions and responses that are referred to it by a Party. These procedures may provide for the use of experts or existing institutional bodies to develop a report for the Committee comprised of information based on facts relevant to the matter.

6. No later than three years after the date of entry into force of this Agreement, and thereafter as decided by the Parties, the Committee shall prepare a written report for the Commission on the implementation of this Article. For the purposes of preparing this report, each Party shall provide a written summary regarding its implementation activities under this Article.

**Article 20.10: Corporate Social Responsibility**

Each Party should encourage enterprises operating within its territory or jurisdiction, to adopt voluntarily, into their policies and practices, principles of corporate social

responsibility that are related to the environment, consistent with internationally recognised standards and guidelines that have been endorsed or are supported by that Party.

**Article 20.11: Voluntary Mechanisms to Enhance Environmental Performance**

1. The Parties recognise that flexible, voluntary mechanisms, for example, voluntary auditing and reporting, market-based incentives, voluntary sharing of information and expertise, and public-private partnerships, can contribute to the achievement and maintenance of high levels of environmental protection and complement domestic regulatory measures. The Parties also recognise that those mechanisms should be designed in a manner that maximises their environmental benefits and avoids the creation of unnecessary barriers to trade.

2. Therefore, in accordance with its laws, regulations or policies and to the extent it considers appropriate, each Party shall encourage:

- (a) the use of flexible and voluntary mechanisms to protect natural resources and the environment in its territory; and
- (b) its relevant authorities, businesses and business organisations, non-governmental organisations and other interested persons involved in the development of criteria used to evaluate environmental performance, with respect to these voluntary mechanisms, to continue to develop and improve such criteria.

3. Further, if private sector entities or non-governmental organisations develop voluntary mechanisms for the promotion of products based on their environmental qualities, each Party should encourage those entities and organisations to develop voluntary mechanisms that, among other things:

- (a) are truthful, are not misleading and take into account scientific and technical information;
- (b) if applicable and available, are based on relevant international standards, recommendations or guidelines, and best practices;
- (c) promote competition and innovation; and
- (d) do not treat a product less favourably on the basis of origin.

**Article 20.12: Cooperation Frameworks**

**Subject to Legal Review in English, Spanish and French**

**for Accuracy, Clarity and Consistency**

**Subject to Authentication of English, Spanish and French Versions**

1. The Parties recognise the importance of cooperation as a mechanism to implement this Chapter, to enhance its benefits and to strengthen the Parties' joint and individual capacities to protect the environment and to promote sustainable development as they strengthen their trade and investment relations.
2. Taking account of their national priorities and circumstances, and available resources, the Parties shall cooperate to address matters of joint or common interest among the participating Parties related to the implementation of this Chapter, when there is mutual benefit from that cooperation. This cooperation may be carried out on a bilateral or plurilateral basis between Parties and, subject to consensus by the participating Parties, may include non-governmental bodies or organisations and non-Parties to this Agreement.
3. Each Party shall designate the authority or authorities responsible for cooperation related to the implementation of this Chapter to serve as its national contact point on matters that relate to coordination of cooperation activities and shall notify the other Parties in writing within 90 days of the date of entry into force of this Agreement for that Party of its contact point. On notifying the other Parties of its contact point, or at any time thereafter through the contact points, a Party may:
  - (a) share its priorities for cooperation with the other Parties, including the objectives of that cooperation; and
  - (b) propose cooperation activities related to the implementation of this Chapter to another Party or Parties.
4. When possible and appropriate, the Parties shall seek to complement and use their existing cooperation mechanisms and take into account relevant work of regional and international organisations.
5. Cooperation may be undertaken through various means including: dialogues, workshops, seminars, conferences, collaborative programmes and projects; technical assistance to promote and facilitate cooperation and training; the sharing of best practices on policies and procedures; and the exchange of experts.
6. In developing cooperative activities and programmes, a Party shall, if relevant, identify performance measures and indicators to assist in examining and evaluating the efficiency, effectiveness and progress of specific cooperative activities and programmes and share those measures and indicators, as well as the outcome of any evaluation during or following the completion of a cooperative activity or programme, with the other Parties.
7. The Parties, through their contact points for cooperation, shall periodically review the implementation and operation of this Article and report their findings, which may include recommendations, to the Committee to inform its review under Article 20.19(3)(c) (Environment Committee and Contact Points). The Parties, through the Committee, may

periodically evaluate the necessity of designating an entity to provide administrative and operational support for cooperative activities. If the Parties decide to establish such an entity, the Parties shall agree on the funding of the entity, on a voluntary basis to support the entity's operation.

8. Each Party shall promote public participation in the development and implementation of cooperative activities, as appropriate. This may include activities such as encouraging and facilitating direct contacts and cooperation among relevant entities and the conclusion of arrangements among them for the conduct of cooperative activities under this Chapter.

9. Where a Party has defined the environmental laws under Article 20.1 to include only laws at the central level of government (first Party), and where another Party (second Party) considers that an environmental law at the sub-central level of government of the first Party is not being effectively enforced by the relevant sub-central government through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties, the second Party may request a dialogue with the first Party. The request shall contain information that is specific and sufficient to enable the first Party to evaluate the matter at issue and an indication of how the matter is negatively affecting trade or investment of the second Party.

10. All cooperative activities under this Chapter are subject to the availability of funds and of human and other resources, and to the applicable laws and regulations of the participating Parties. The participating Parties shall decide, on a case-by-case basis, the funding of cooperative activities.

**Article 20.13: Trade and Biodiversity**

1. The Parties recognise the importance of conservation and sustainable use of biological diversity and their key role in achieving sustainable development.

2. Accordingly, each Party shall promote and encourage the conservation and sustainable use of biological diversity, in accordance with its law or policy.

3. The Parties recognise the importance of respecting, preserving and maintaining knowledge and practices of indigenous and local communities embodying traditional lifestyles that contribute to the conservation and sustainable use of biological diversity.

4. The Parties recognise the importance of facilitating access to genetic resources within their respective national jurisdictions, consistent with each Party's international obligations. The Parties further recognise that some Parties require, through national measures, prior informed consent to access such genetic resources in accordance with national measures and, where such access is granted, the establishment of mutually agreed terms, including with respect to sharing of benefits from the use of such genetic resources, between users and providers.

**Subject to Legal Review in English, Spanish and French**

5. The Parties also recognise the importance of public participation and consultation, in accordance with their respective law or policy, in the development and implementation of measures concerning the conservation and sustainable use of biological diversity. Each Party shall make publicly available information about its programmes and activities, including cooperative programmes, related to the conservation and sustainable use of biological diversity.

6. Consistent with Article 20.12 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest. Cooperation may include, but is not limited to, exchanging information and experiences in areas related to:

- (a) the conservation and sustainable use of biological diversity;
- (b) the protection and maintenance of ecosystems and ecosystem services; and
- (c) access to genetic resources and the sharing of benefits arising from their utilization.

**Article 20.14: Invasive Alien Species**

1. The Parties recognise that the movement of terrestrial and aquatic invasive alien species across borders through trade-related pathways can adversely affect the environment, economic activities and development, and human health. The Parties also recognise that the prevention, detection, control and, when possible, eradication, of invasive alien species are critical strategies for managing those adverse impacts.

2. Accordingly, the Committee shall coordinate with the Committee on Sanitary and Phytosanitary Measures established under Article 7.5 (Committee on Sanitary and Phytosanitary Measures) to identify cooperative opportunities to share information and management experiences on the movement, prevention, detection, control and eradication of invasive alien species, with a view to enhancing efforts to assess and address the risks and adverse impacts of invasive alien species.

**Article 20.15: Transition to a Low Emissions and Resilient Economy**

1. The Parties acknowledge that transition to a low emissions economy requires collective action.

2. The Parties recognise that each Party's actions to transition to a low emissions economy should reflect domestic circumstances and capabilities and, consistent with Article 20.12 (Cooperative Frameworks), Parties shall cooperate to address matters of joint or common interest. Areas of cooperation may include, but are not limited to: energy efficiency; development of cost-effective, low-emissions technologies and alternative, clean

and renewable energy sources; sustainable transport and sustainable urban infrastructure development; addressing deforestation and forest degradation; emissions monitoring; market and non-market mechanisms; low-emissions, resilient development and sharing of information and experiences in addressing this issue. Further, the Parties shall, as appropriate, engage in cooperative and capacity-building activities related to transitioning to a low emissions economy.

**Article 20.16: Marine Capture Fisheries<sup>10</sup>**

1. The Parties acknowledge their role as major consumers, producers and traders of fisheries products and the importance of the marine fisheries sector to their development and to the livelihoods of their fishing communities, including artisanal or small-scale fisheries. The Parties also acknowledge that the fate of marine capture fisheries is an urgent resource problem facing the international community. Accordingly, the Parties recognise the importance of taking measures aimed at the conservation and the sustainable management of fisheries.

2. In this regard, the Parties acknowledge that inadequate fisheries management, fisheries subsidies that contribute to overfishing and overcapacity, and illegal, unreported and unregulated (IUU) fishing<sup>11</sup> can have significant negative impacts on trade, development and the environment and recognise the need for individual and collective action to address the problems of overfishing and unsustainable utilisation of fisheries resources.

3. Accordingly, each Party shall seek to operate a fisheries management system that regulates marine wild capture fishing and that is designed to:

- (a) prevent overfishing and overcapacity;
- (b) reduce bycatch of non-target species and juveniles, including through the regulation of fishing gear that results in bycatch and the regulation of fishing in areas where bycatch is likely to occur; and
- (c) promote the recovery of overfished stocks for all marine fisheries in which that Party's persons conduct fishing activities.

---

<sup>10</sup> For greater certainty, this Article does not apply with respect to aquaculture.

<sup>11</sup> The term "illegal, unreported and unregulated fishing" is to be understood to have the same meaning as paragraph 3 of the *International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing* (2001 IUU Fishing Plan of Action) of the UN Food and Agricultural Organisation (FAO), adopted in Rome, 2001.

Such a management system shall be based on the best scientific evidence available and on internationally recognised best practices for fisheries management and conservation as reflected in the relevant provisions of international instruments aimed at ensuring the sustainable use and conservation of marine species.<sup>12</sup>

4. Each Party shall promote the long-term conservation of sharks, marine turtles, seabirds, and marine mammals, through the implementation and effective enforcement of conservation and management measures. Such measures should include, as appropriate:

- (a) for sharks: the collection of species specific data, fisheries bycatch mitigation measures, catch limits, and finning prohibitions;
- (b) for marine turtles, seabirds, and marine mammals: fisheries bycatch mitigation measures, conservation and relevant management measures, prohibitions, and other measures in accordance with relevant international agreements to which the Party is party.

5. The Parties recognise that the implementation of a fisheries management system that is designed to prevent overfishing and overcapacity and to promote the recovery of overfished stocks must include the control, reduction and eventual elimination of all subsidies that contribute to overfishing and overcapacity. To that end, no Party shall grant or maintain any of the following subsidies<sup>13</sup> within the meaning of Article 1.1 of the SCM Agreement that are specific within the meaning of Article 2 of the SCM Agreement:

- (a) subsidies for fishing<sup>14</sup> that negatively affect<sup>15</sup> fish stocks that are in an overfished<sup>16</sup> condition; and

<sup>12</sup> These instruments include, among others, and as they may apply, UNCLOS, the *United Nations Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks*, done at New York, 4 December 1995 (UN Fish Stocks Agreement), the *FAO Code of Conduct for Responsible Fisheries*, the 1993 *FAO Agreement to Promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas*, (Compliance Agreement) done at Rome, 24 November 1993 and the 2001 IUU Fishing Plan of Action.

<sup>13</sup> For the purposes of this Article, a subsidy shall be attributable to the Party conferring it, regardless of the flag of the vessel involved or the application of rules of origin to the fish involved.

<sup>14</sup> For the purposes of this paragraph, “fishing” means searching for, attracting, locating, catching, taking or harvesting fish or any activity which can reasonably be expected to result in the attracting, locating, catching, taking or harvesting of fish.

<sup>15</sup> The negative effect of such subsidies shall be determined based on the best scientific evidence available.

<sup>16</sup> For the purposes of this Article, a fish stock is overfished if the stock is at such a low level that mortality from fishing needs to be restricted to allow the stock to rebuild to a level that produces maximum sustainable yield or

- (b) subsidies provided to any fishing vessel<sup>17</sup> while listed by the flag State or a relevant Regional Fisheries Management Organisation or Arrangement for IUU fishing in accordance with the rules and procedures of that organisation or arrangement and in conformity with international law.

6. Subsidy programmes that are established by a Party before the date of entry into force of this Agreement for that Party and which are inconsistent with paragraph 5(a) shall be brought into conformity with that paragraph as soon as possible and no later than three years<sup>18</sup> of the date of entry into force of this Agreement for that Party.

7. In relation to subsidies that are not prohibited by paragraph 5 (a) or (b), and taking into consideration a Party's social and developmental priorities, including food security concerns, each Party shall make best efforts to refrain from introducing new, or extending or enhancing existing, subsidies within the meaning of Article 1.1 of the SCM Agreement, to the extent they are specific within the meaning of Article 2 of the SCM Agreement, that contribute to overfishing or overcapacity.

8. With a view to achieving the objective of eliminating subsidies that contribute to overfishing and overcapacity, the Parties shall review the disciplines in paragraph 5 at regular meetings of the Committee.

9. Each Party shall notify the other Parties, within one year of the date of entry into force of this Agreement for it and every two years thereafter, of any subsidy within the meaning of Article 1.1 of the SCM Agreement that is specific within the meaning of Article 2 of the SCM Agreement, that the Party grants or maintains to persons engaged in fishing or fishing related activities.

Fish stocks that are recognised as overfished by the national jurisdiction where the fishing is taking place or by a relevant Regional Fisheries Management Organisation shall also be considered overfished for the purposes of this paragraph.

<sup>17</sup> The term "fishing vessels" refers to any vessel, ship or other type of boat used for, equipped to be used for, or intended to be used for fishing or fishing related activities.

<sup>18</sup> Notwithstanding this paragraph, and solely for the purpose of completing a stock assessment that it has already initiated, Viet Nam may request an extension of two additional years to bring any subsidy programmes into conformity with Article 20.16.5(a) by providing a written request to the Committee no later than six months before the expiry of the three-year period provided for in this paragraph. Viet Nam's request shall include the reason for the requested extension and the information about its subsidy programmes as provided for in Article 20.16.10. Viet Nam may avail itself of this one-time extension upon providing a request in accordance with this paragraph unless the Committee decides otherwise within 60 days of receiving the request. No later than the date on which the additional two-year period expires, Viet Nam shall provide to the Committee in writing a report on the measures it has taken to fulfill its obligation under Article 20.16.5(a).

10. These notifications shall cover subsidies provided within the previous two-year period and shall include the information required under Article 25.3 of the SCM Agreement and, to the extent possible, the following information:<sup>19</sup>

- (a) programme name;
- (b) legal authority for the programme;
- (c) catch data by species in the fishery for which the subsidy is provided;
- (d) status of the fish stocks in the fishery for which the subsidy is provided (for example, overexploited, depleted, fully exploited, recovering or underexploited);
- (e) fleet capacity in the fishery for which the subsidy is provided;
- (f) conservation and management measures in place for the relevant fish stock; and
- (g) total imports and exports per species.

11. Each Party shall also provide, to the extent possible, information in relation to other fisheries subsidies that the Party grants or maintains that are not covered by paragraph 5, in particular fuel subsidies.

12. A Party may request additional information from the notifying Party regarding the notifications under paragraphs 9 and 10. The notifying Party shall respond to that request as quickly as possible and in a comprehensive manner.

13. The Parties recognise the importance of concerted international action to address IUU fishing as reflected in regional and international instruments<sup>20</sup> and shall endeavour to improve cooperation internationally in this regard, including with and through competent international organisations.

<sup>19</sup> Sharing information and data on existing fisheries subsidy programmes does not prejudice their legal status, effects or nature under the GATT 1994 or the SCM Agreement and is intended to complement WTO data reporting requirements.

<sup>20</sup> Regional and international instruments include, among others, and as they may apply, the 2001 IUU Fishing Plan of Action, the *2005 Rome Declaration on IUU Fishing*, done at Rome on 12 March 2005, the *Agreement on Port State Measures to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing*, done at Rome, 22 November 2009, as well as instruments establishing and adopted by Regional Fisheries Management Organisations, which are defined as intergovernmental fisheries organisations or arrangements, as appropriate, that have the competence to establish conservation and management measures.

14. In support of efforts to combat IUU fishing practices and to help deter trade in products from species harvested from those practices, each Party shall:

- (a) cooperate with other Parties to identify needs and to build capacity to support the implementation of this Article;
- (b) support monitoring, control, surveillance, compliance and enforcement systems, including by adopting, reviewing, or revising, as appropriate measures to:
  - (i) deter vessels that are flying its flag and its nationals from engaging in IUU fishing activities; and
  - (ii) address the transshipment at sea of fish or fish products caught through IUU fishing activities;
- (c) implement port State measures;
- (d) strive to act consistently with relevant conservation and management measures adopted by Regional Fisheries Management Organisations of which it is not a member so as not to undermine those measures; and
- (e) endeavour not to undermine catch or trade documentation schemes operated by Regional Fisheries Management Organisations or Arrangements or an intergovernmental organisation whose scope includes the management of shared fisheries resources, including straddling and highly migratory species, where that Party is not a member of those organisations or arrangements.

15. Consistent with Article 26.2.2 (Publication), a Party shall, to the extent possible, provide other Parties the opportunity to comment on proposed measures that are designed to prevent trade in fisheries products that results from IUU fishing.

## **CHAPTER 25**

### **REGULATORY COHERENCE**

#### **Article 25.1: Definitions**

For the purposes of this Chapter:

**covered regulatory measure** means the regulatory measure determined by each Party to be subject to this Chapter in accordance with Article 25.3 (Scope of Covered Regulatory Measures); and

**regulatory measure** means a measure of general application related to any matter covered by this Agreement adopted by regulatory agencies with which compliance is mandatory.

#### **Article 25.2: General Provisions**

1. For the purposes of this Chapter, regulatory coherence refers to the use of good regulatory practices in the process of planning, designing, issuing, implementing and reviewing regulatory measures in order to facilitate achievement of domestic policy objectives, and in efforts across governments to enhance regulatory cooperation in order to further those objectives and promote international trade and investment, economic growth and employment.

2. The Parties affirm the importance of:

- (a) sustaining and enhancing the benefits of this Agreement through regulatory coherence in terms of facilitating increased trade in goods and services and increased investment between the Parties;
- (b) each Party's sovereign right to identify its regulatory priorities and establish and implement regulatory measures to address these priorities, at the levels that the Party considers appropriate;
- (c) the role that regulation plays in achieving public policy objectives;
- (d) taking into account input from interested persons in the development of regulatory measures; and
- (e) developing regulatory cooperation and capacity building between the Parties.

**Subject to Legal Review in English, Spanish and French  
for Accuracy, Clarity and Consistency  
Subject to Authentication of English, Spanish and French Version**

**Article 25.3: Scope of Covered Regulatory Measures**

Each Party shall promptly, and no later than one year after the date of entry into force of this Agreement for that Party, determine and make publicly available the scope of its covered regulatory measures. In determining the scope of covered regulatory measures, each Party should aim to achieve significant coverage.

**Article 25.4: Coordination and Review Processes or Mechanisms**

1. The Parties recognise that regulatory coherence can be facilitated through domestic mechanisms that increase interagency consultation and coordination associated with processes for developing regulatory measures. Accordingly, each Party shall endeavour to ensure that it has processes or mechanisms to facilitate the effective interagency coordination and review of proposed covered regulatory measures. Each Party should consider establishing and maintaining a national or central coordinating body for this purpose.

2. The Parties recognise that while the processes or mechanisms referred to in paragraph 1 may vary between Parties depending on their respective circumstances (including differences in levels of development and political and institutional structures), they should generally have as overarching characteristics the ability to:

- (a) review proposed covered regulatory measures to determine the extent to which the development of such measures adheres to good regulatory practices, which may include but are not limited to those set out in Article 25.5 (Implementation of Core Good Regulatory Practices), and make recommendations based on that review;
- (b) strengthen consultation and coordination among domestic agencies so as to identify potential overlap and duplication and to prevent the creation of inconsistent requirements across agencies;
- (c) make recommendations for systemic regulatory improvements; and
- (d) publicly report on regulatory measures reviewed, any proposals for systemic regulatory improvements, and any updates on changes to the processes and mechanisms referred to in paragraph 1.

Each Party should generally produce documents that include descriptions of those processes or mechanisms and that can be made available to the public.

**Article 25.5: Implementation of Core Good Regulatory Practices**

1. To assist in designing a measure to best achieve the Party's objective, each Party should generally encourage relevant regulatory agencies, consistent with its laws and regulations, to conduct regulatory impact assessments when developing proposed covered

regulatory measures that exceed a threshold of economic impact, or other regulatory impact, where appropriate, as established by the Party. Regulatory impact assessments may encompass a range of procedures to determine possible impacts.

2. Recognising that differences in the Parties' institutional, social, cultural, legal and developmental circumstances may result in specific regulatory approaches, regulatory impact assessments conducted by a Party should, among other things:

- (a) assess the need for a regulatory proposal, including a description of the nature and significance of the problem;
- (b) examine feasible alternatives, including, to the extent feasible and consistent with laws and regulations, their costs and benefits, such as risks involved as well as distributive impacts, recognising that some costs and benefits are difficult to quantify and monetise;
- (c) explain the grounds for concluding that the selected alternative achieves the policy objectives in an efficient manner, including, if appropriate, reference to the costs and benefits and the potential for managing risks; and
- (d) rely on the best reasonably obtainable existing information including relevant scientific, technical, economic or other information, within the boundaries of the authorities, mandates and resources of the particular regulatory agency.

3. When conducting regulatory impact assessments, a Party may take into consideration the potential impact of the proposed regulation on SMEs.

4. Each Party should ensure that new covered regulatory measures are plainly written and are clear, concise, well organised and easy to understand, recognising that some measures address technical issues and that relevant expertise may be needed to understand and apply them.

5. Subject to its laws and regulations, each Party should ensure that relevant regulatory agencies provide public access to information on new covered regulatory measures and, where practicable, make this information available online.

6. Each Party should review, at intervals it deems appropriate, its covered regulatory measures to determine whether specific regulatory measures it has implemented should be modified, streamlined, expanded or repealed so as to make the Party's regulatory regime more effective in achieving the Party's policy objectives.

7. Each Party should, in a manner it deems appropriate, and consistent with its laws and regulations, provide annual public notice of any covered regulatory measure that it reasonably expects its regulatory agencies to issue within the following 12-month period.

8. To the extent appropriate and consistent with its law, each Party should encourage its relevant regulatory agencies to consider regulatory measures in other Parties, as well as

1. The Parties hereby establish a Committee on Regulatory Coherence (Committee), composed of government representatives of the Parties.
2. The Committee shall consider issues associated with the implementation and operation of this Chapter. The Committee shall also consider identifying future priorities, including potential sectoral initiatives and cooperative activities, involving issues covered by this Chapter and issues related to regulatory coherence covered by other Chapters of this Agreement.
3. In identifying future priorities, the Committee shall take into account the activities of other committees, working groups and any other subsidiary body established under this Agreement and shall coordinate with them in order to avoid duplication of activities.
4. The Committee shall ensure that its work on regulatory cooperation offers value in addition to initiatives underway in other relevant fora and avoids undermining or duplicating such efforts.
5. Each Party shall designate and notify a contact point to provide information, on request by another Party, regarding the implementation of this Chapter in accordance with Article 27.5 (Contact Points).
6. The Committee shall meet within one year of the date of entry into force of this Agreement, and thereafter as necessary.

**Article 25.7: Cooperation**

1. The Parties shall cooperate in order to facilitate the implementation of this Chapter and to maximise the benefits arising from it. Cooperation activities shall take into consideration each Party's needs, and may include:

- (a) information exchanges, dialogues or meetings with other Parties;

**Subject to Legal Review in English, Spanish and French

- (c) training programmes, seminars and other relevant assistance;
- (d) strengthening cooperation and other relevant activities between regulatory agencies; and
- (e) other activities that Parties may agree.

2. The Parties further recognise that cooperation between Parties on regulatory matters can be enhanced through, among other things, ensuring that each Party's regulatory measures are centrally available.

**Article 25.8: Engagement with Interested Persons**

The Committee shall establish appropriate mechanisms to provide continuing opportunities for interested persons of the Parties to provide input on matters relevant to enhancing regulatory coherence.

**Article 25.9: Notification of Implementation**

1. For the purposes of transparency, and to serve as a basis for cooperation and capacity building activities under this Chapter, each Party shall submit a notification of implementation to the Committee through the contact points designated pursuant to Article 27.5 (Contact Points) within two years of the date of entry into force of this Agreement for that Party and at least once every four years thereafter.

2. In its initial notification, each Party shall describe the steps that it has taken since the date of entry into force of this Agreement for that Party, and the steps that it plans to take to implement this Chapter, including those to:

3. In subsequent notifications, each Party shall describe the steps, including those set out in paragraph 2, that it has taken since the previous notification, and those that it plans to take to implement this Chapter, and to improve its adherence to it.

4. In its consideration of issues associated with the implementation and operation of this Chapter, the Committee may review notifications made by a Party pursuant to paragraph 1. During that review, Parties may ask questions or discuss specific aspects of that Party's notification. The Committee may use its review and discussion of a notification as a basis for identifying opportunities for assistance and cooperative activities to provide assistance in accordance with Article 25.7 (Cooperation).

**Article 25.10: Relation to Other Chapters**

In the event of any inconsistency between this Chapter and another Chapter of this Agreement, the other Chapter shall prevail to the extent of the inconsistency.

**Article 25.11: Non-Application of Dispute Settlement**

3. The panel shall present to the disputing Parties an initial report within 150 days after the last panellist is appointed. In cases of urgency, including those related to perishable goods, the panel shall endeavour to do so within 120 days after the last panellist is appointed.
4. The initial report shall contain:
  - (a) findings of fact;
  - (b) the determination of the panel as to whether:
    - (i) the measure at issue is inconsistent with the obligations under this Agreement;

Any delay shall not exceed a further period of 30 days unless the disputing Parties

otherwise agree.

6. Panellists may furnish separate opinions on matters not unanimously agreed.
7. A disputing Party may submit written comments to the panel on its initial report within 15 days of the presentation of the report or within such other period as the disputing Parties may agree.
8. After considering any written comments by the disputing Parties on the initial report, the panel may modify its report and make any further examination it considers appropriate.

**Article 28.17: Final Report**

1. The panel shall present a final report to the disputing Parties, including any separate opinions on matters not unanimously agreed, within 30 days of presentation of the initial report, unless the disputing Parties otherwise agree. The disputing Parties shall release the final report to the public within 15 days thereafter, subject to the protection of confidential information.
2. No panel may, either in its initial report or its final report, disclose which panellists are associated with majority or minority opinions.

**Article 28.18: Implementation of Final Report**

1. The Parties recognize the importance of prompt compliance with determinations made by panels under Article 28.17 (Final Report) in achieving the aim of the dispute settlement procedures of this chapter, which is to secure a positive solution to disputes
2. If in its final report the panel determines that:
  - (a) a measure at issue is inconsistent with a Party's obligations under this Agreement;
  - (b) a Party has otherwise failed to carry out its obligations under this Agreement; or
  - (c) a Party's measure is causing nullification or impairment in the sense of Article 28.3(c) (Scope);

the responding Party shall, whenever possible, eliminate the non-conformity or the nullification or impairment.

3. Unless the disputing Parties decide otherwise, the responding Party shall have a reasonable period of time in which to eliminate the non-conformity or nullification or impairment if it is not practicable to comply immediately.

4. The disputing Parties shall endeavour to agree on the reasonable period of time. Where the disputing Parties fail to agree on the reasonable period of time within 45 days of the presentation of the panel's report under Article 28.17.1 (Final Report), any disputing Party may, within 60 days of the presentation of the panel's report under Article 28.17.1 (Final Report), refer the matter to the panel chair to determine the reasonable period of time through arbitration.
5. The panel chair shall take into consideration as a guideline that the reasonable period of time should not exceed 15 months from the presentation of the panel's final report to the disputing Parties under Article 28.17.1 (Final Report). However, that time may be shorter or longer, depending upon the particular circumstances.
6. The panel chair shall determine the reasonable period of time within 90 days of the date of referral to the panel chair pursuant to subparagraph 4.
7. The disputing Parties may agree to vary the procedures set out in paragraphs 4 to 6 of this article for the determination of the reasonable period of time.

**Article 28.19: Non-Implementation – Compensation and Suspension of Benefits**

1. The responding Party shall, if so requested by the complaining Party or Parties, enter into negotiations with the complaining Party or Parties within 15 days of receipt of such request, with a view to developing mutually acceptable compensation, in circumstances where:
  - a) the responding Party has notified the complaining Party or Parties that it does not intend to eliminate the non-conformity or the nullification or impairment; or
  - b) following the expiry of the reasonable period of time established in accordance with Article 28.18 (Implementation of Final Report), there is disagreement between the disputing Parties as to whether the responding Party has eliminated the non-conformity or the nullification or impairment;
2. A complaining Party may suspend benefits in accordance with paragraph 2*bis* if that complaining Party and the responding Party have:
  - (a) been unable to agree on compensation within 30 days after the period for developing such compensation has begun; or
  - (b) agreed on compensation but the relevant complaining Party considers that the responding Party has failed to observe the terms of the agreement.

*2bis.* A complaining Party may, at any time after the conditions set out in paragraph 2 are met in relation to that complaining Party, provide written notice to the responding Party that it

intends to suspend the application to the responding Party of benefits of equivalent effect. The notice shall specify the level of benefits that the Party proposes to suspend.<sup>2</sup> The complaining Party may begin suspending benefits 30 days after the later of the date on which it provides notice under this paragraph or the panel issues its determination under paragraph 5, as the case may be.

3. Compensation and the suspension of benefits and the payment of a monetary assessment shall be temporary measures. None of these measures is preferred to full implementation through elimination of the non-conformity or the nullification or impairment. Compensation, and suspension of benefits and the payment of a monetary assessment shall only be applied until such time as the responding Party has eliminated the non-conformity or the nullification or impairment, or a mutually satisfactory solution is reached.

4. In considering what benefits to suspend pursuant to paragraph 2, the complaining Party shall apply the following principles and procedures:

- (a) it should first seek to suspend benefits in the same subject matter as that in which the panel has determined non-conformity or nullification or impairment to exist;
- (b) if it considers that it is not practicable or effective to suspend benefits in the same subject matter and that the circumstances are serious enough, it may suspend benefits in a different subject matter. The communication pursuant to paragraph 2 in which it announces such a decision shall indicate the reasons on which it is based; and
- (c) in applying the principles set out in subparagraphs (a) and (b), the complaining Party shall take into account:
  - (i) the trade in the good, the supply of the service or other subject matter in which the panel has found the non-conformity or nullification or impairment, and the importance of such trade to that Party;
  - (ii) that goods, all financial services covered under Chapter 11 (Financial Services), services other than such financial services and each section in Chapter 18 (Intellectual Property), are each distinct subject matters; and

---

<sup>2</sup> For greater certainty, the phrase “the level of benefits that the Party proposes to suspend” refers to the level of concessions under this Agreement the suspension of which a complaining Party considers will have an effect equivalent to that of the non-conformity, or nullification or impairment in the sense of Article 28.3(c) (Scope), determined to exist by the panel in its final report issued under Article 28.17.1 (Final Report).

- (iii) the broader economic elements related to the nullification or impairment and the broader economic consequences of the suspension of benefits.

5. If the responding Party considers that:

- (a) the level of benefits proposed to be suspended is manifestly excessive or the complaining Party has failed to follow the principles and procedures set out in paragraph 4; or
- (b) it has eliminated the non-conformity or the nullification or impairment that the panel has determined to exist;

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The responding Party shall deliver its request in writing to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the disputing Parties within 90 days after it reconvenes to review a request under subparagraph (a) or (b), or within 120 days for a request under subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

6. Unless the panel has determined that the responding Party has eliminated the non-conformity or the nullification or impairment, the complaining Party may suspend benefits up to the level the panel has determined under paragraph 5 or, if the panel has not determined the level, the level the complaining Party has proposed to suspend under paragraph 2*bis*. If the panel determines that the complaining Party has not followed the principles and procedures set out in paragraph 4, the panel shall set out in its award the extent to which the complaining Party may suspend benefits in which subject matter in order to ensure full compliance with the principles and procedures set out in paragraph 4. The complaining Party may suspend benefits only in a manner consistent with the panellist's award.

7. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the p is reconvened under paragraph 5, within 20 days after the panel provides its determination, the responding Party provides written notice to the complaining Party that it will pay a monetary assessment. The disputing Parties shall consult, beginning no later than ten days after the responding Party, with a view to reaching agreement on the amount of the assessment. If the Parties are unable to reach an agreement within 30 days after consultations begin and are not engaged in discussions regarding the use of a fund under paragraph 8, the amount of the assessment shall be set at a level, in U.S. dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 5 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.

8. If a monetary assessment is to be paid to the complaining Party, then it shall be paid in U.S. currency, or in an equivalent amount of the currency of the responding Party or in another currency agreed to by the disputing Parties in equal, quarterly installments beginning 60 days after the responding Party gives notice that it intends to pay an assessment. Where the circumstances warrant, the disputing Parties may decide that an assessment shall be paid into a fund designated by the disputing Parties for appropriate initiatives to facilitate trade between the Parties, including by further reducing unreasonable trade barriers or by assisting carrying out its obligations under this Agreement.

9. At the same time as the payment of its first quarterly installment, the responding Party shall provide to the complaining Party a plan of the steps it intends to take to eliminate the non-conformity or the nullification or impairment.

10. A responding Party may pay a monetary assessment in lieu of suspension of benefits for a maximum of 12 months from the date on which it has provided written notice under paragraph 7 unless the complaining Party agrees to an extension.

11. A responding Party seeking an extension shall make a written request no later than 30 days before the expiration of the 12 month period. The disputing Parties shall determine the length and terms of any extension, including the amount of the assessment.

12. The complaining Party may suspend the application to the responding Party of benefits in accordance with paragraph 6, if:

- (a) the responding Party fails to make a payment or fails to make the payment under paragraph 13 after electing to do so;
- (b) the responding Party fails to provide the plan as required under paragraph 9; or
- (c) the monetary assessment period, including any extension, has elapsed and the responding Party has not yet eliminated the non-conformity or the nullification or impairment.

13. If the responding Party notified the complaining Party under paragraph 7 regarding the possible use of a fund and the disputing Parties have not agreed on the use of a fund within 3 months of the date of the responding Party's notice, and this time period has not been extended by agreement of the disputing Parties, the responding Party may elect to make the monetary assessment payment equal to 50 per cent of the amount determined under paragraph 5. If this election is made the payment must be made within nine months of the responding Party's notice under paragraph 7 in U.S. currency, or in an equivalent amount of the currency of the responding Party or in another currency agreed to by the disputing Parties. If the election is not made, the complaining Party may suspend the application of benefits in the amount determined under paragraph 5 at the end of the election period.

14. The complaining Party shall accord sympathetic consideration to the notice by the responding Party regarding the possible use of the fund referred to in paragraphs 8 and 13.

**Article 28.20: Compliance Review**

1. Without prejudice to the procedures in Article 28.19 (Non-Implementation – Compensation and Suspension of Benefits), if the responding Party considers that it has eliminated the non-conformity or the nullification or impairment found by the panel, it may refer the matter to the panel by providing written notice to the complaining Party or Parties. The panel shall issue its report on the matter within 90 days after the responding Party provides notice.

2. If the panel decides that the responding Party has eliminated the non-conformity or the nullification or impairment, the complaining Party or Parties shall promptly reinstate any benefits suspended under Article 28.19 (Non-Implementation – Compensation and Suspension of Benefits).

**Section B: Domestic Proceedings and Private Commercial Dispute Settlement**

**Article 28.21: Private Rights**

No Party may provide for a right of action under its domestic law against any other Party on the ground that a measure of the other Party is inconsistent with its obligations under this Agreement, or that the other Party has otherwise failed to carry out its obligations under this Agreement.

**Article 28.22: Alternative Dispute Resolution**

1. Each Party shall, to the maximum extent possible, encourage and facilitate the use of arbitration and other means of alternative dispute resolution for the settlement of international commercial disputes between private parties in the free trade area.

2. To this end, each Party shall provide appropriate procedures to ensure observance of agreements to arbitrate and for the recognition and enforcement of arbitral awards in such disputes.

3. A Party shall be deemed to be in compliance with paragraph 2 if it is a party to and is in compliance with the 1958 *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*.

2. Nothing in this Agreement shall be construed to prevent a Party from adopting or maintaining restrictive measures with regard to payments or transfers relating to the movements of capital:

- (a) in the event of serious balance of payments and external financial difficulties or threats thereof; or
- (b) if, in exceptional circumstances, payments or transfers relating to capital movements cause or threaten to cause serious difficulties for macroeconomic management.

3. Any measure adopted or maintained under paragraph 1 or 2 shall:

- (a) not be inconsistent with Article 9.4 (National Treatment), Article 9.5 (Most-Favoured-Nation Treatment), Article 10.3 (National Treatment), Article 10.4 (Most-Favoured-Nation Treatment), Article 11.3 (National Treatment) and Article 11.4 (Most-Favoured-Nation Treatment);<sup>4</sup>
- (b) be consistent with the *Articles of Agreement of the International Monetary Fund*;

5. A Party shall endeavour to provide that any measures adopted or maintained under paragraph 1 or 2 be price-based, and if such measures are not price-based, the Party shall explain the rationale for using quantitative restrictions when it notifies the other Parties of the measure.

6. In the case of trade in goods, Article XII of GATT 1994 and the *Understanding on the Balance of Payments Provisions of the GATT 1994* are incorporated into and made part of

<sup>5</sup> For greater certainty, measures referred to in paragraph 1 or 2 may be non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives as referred to in Annex 9-B(3)(b) (Expropriation).

<sup>6</sup> The term "restricted assets" in this subparagraph refers only to assets invested in the territory of the restricting Party by an investor of a Party that are restricted from being transferred out of the territory of the restricting Party.

<sup>7</sup> For the purposes of this Article, "foreign direct investment" means a type of investment by an investor of a Party in the territory of another Party, through which the investor exercises ownership or control over, or a significant degree of influence on the management of, an enterprise or other direct investment, and tends to be undertaken in order to establish a lasting relationship. For example, ownership of at least 10 per cent of the voting power of an enterprise over a period of at least 12 months generally would be considered foreign direct investment.

  - (b) present, as soon as possible, either a time schedule or the conditions necessary for their removal;
  - (c) promptly publish the measures; and

2. The Parties agree that the interpretation of the Treaty of Waitangi, including as to the nature of the rights and obligations arising under it, shall not be subject to the dispute settlement provisions of this Agreement. Chapter 28 (Dispute Settlement) shall otherwise apply to this Article. A panel established under Article 28.7 (Establishment of a Panel) may be requested to determine only whether any measure referred to in paragraph 1 is inconsistent with a Party's rights under this Agreement.
